Driver took ramp too quickly and turned over. Appx 5 gallons has leaked so far but it's an active leak and they can't currently access the source. It's all going into dirt as the wreck went into the fence. Fred is enroute and will get me photos and update soon. He said if it's something they can handle, they'll just do it to get it over with.

Subject: Q2 123TCP dataset

Districts/LPAs –

Attached is the second quarter 1,2,3-TCP monitoring dataset. The tabs are broken down as follows:

- The first tab (Q2 123TCP) lists sources along with their results. Yellow highlighted rows show sources that were not monitoring during the second quarter.
- The second tab (Q2 123TCP Exceed) is a subset of the first tab and it lists sources that had MCL exceedances for the second quarter.
- The third tab (Criteria) explains the filters that were used to generate the data.
- The remaining tabs are charts that will be posted to the Water Board website.

Information that we need from you:

- On the first tab (Q2 123TCP), there are columns to indicate the reason the source was not monitored (columns AJ-AN). For only the rows highlighted in yellow, please mark the appropriate column to indicate the reason why a sample was not collected during the second quarter.

[If you provided responses to me for the first quarter, I have inserted those responses as a reference...but be sure to update these first quarter responses if there are changes.]

- On the second tab (Q2 123TCP Exceed), there are columns to indicate whether the source is Standby, Offline, Treated or Online without treatment (columns AK-AN).
 - I have inserted the information that you provided to me for the first quarter dataset. If any of the first quarter information has changed, please make the changes in the appropriate columns (AK-AN).
 - If you have sources that now exceed the MCL for the second quarter that did not exceed the MCL during the first quarter (as shown by yellow highlights), please indicate the status of the source.

In order to provide the 2nd Quarter report to the Board and to post online, I would like to have the above requested information within two weeks, or by September 10th.

Let me know if you have any questions or concerns. Thank you.

Of course Terrie. It will be good for Derrick to see the volume and also with the nature of this specific request, he will need to work with staff to make sure the request is properly fulfilled in a timely manner.

@Spencer, Derrick - let's make sure to discuss how we have been going about this request since some of the information being requested is actually not part of records.

County of Riverside - California Public Records

You have been added as support staff to request #25-4429.

Per the inspection records in request #25_1418 there is one file named "inspection records.PDF. It shows that from 2005 to 2024 a location: 44135 Perryman Lane. Please review the map I have included hereto with this request. I ask DEH provide copies of the documentation that allowed DEH to inspect a site that does not have a well. Yet has a location: 44135 Perryman Lane and DEH failed to identify the correct parcel Id's for 15 plus years. Please investigate this and provide a report as to the why it happened.

In my previous request for records the file # 5_1418 provided a file named, "Records regarding easement.pdf" that shows WP0029371. Please provide every file associated with WP0029371 including fee simple ownership rights thereto that property. The same file shows a separate WP29372. Please provide every file in DEH archives in chronological order that is related to the well.

In file # 25_1418 there is a "Request to change permit information.pdf", will you please provide me the legal form that was used and applied to perform that task. Or you have no response to the question.

One addition fact, please look at Jeff Halls Grant Deed. How could he have known what he wrote? He didn't yet DEH took his word at face value, why? I ask you to please add Jeff Halls Grant Deed to the Weber Valley files

A file named map.pdf was provided in a previous request. Please provide inspection records related to that singular system that included WP29371 and WP 29372 as pictured in the drawing.

In the file named 16672 it identified owner name F.L. Hutchens. What DEH archived document transferred ownership authority or control to Weber Valley Heights Association? In the file named Weber maps on page 2 the picture shows 53/40 par2 followed with 571-030-037. And the parcel 53/43 par 3 has the same APN 571-030-037. Does anybody in DEH check facts and correct them? The APN for my parcel has remained 571-040-002 since shown January 1970 on Assessor map 571-04. Please provide a full copy of page one of that file.

The file DEH provided named Parcel Report [77b23c04ebfe0b43].pdf. That file identified my parcel including Building and Safety Cases. Can anybody from DEH please explain how the surface features or the well pump operates without an electrical service or meter? Provide me a copy of the permit? I believe the well functions from an illegally energized meter related to a canceled 1971 electrical permit #186958 on APN 571-040-004.

The map named "original map.pdf" shows a singular system serving 11 parcels. When was that map submitted to DEH?

Provide an inspection record of the first inspection of the new system that was created on or after June 11, 1992.

One more item,

The file 1667 (WCR).pdf shows a WELL LOCATION SKETCH right next to (4) Proposed use: Domestic.. The map was not legible. Please provide a clear copy of the location.

See the attached aging report. It lists permits that are over 120 days.

Please review to verify that these are accurate and if they are, have staff collect payment for these facilities. It seems that the Owner and Establishment Addresses are flipped.

For those that cannot be collected and should be written off, please highlight them. I put the file in the Teams - ERM Supervisor folder.

Please complete this 6/6/25.

Hi KK,

I've attached the Water System invoices that recently mailed out. Please note that instead of the HS Establishment address the mailing address is appearing for the record address. We have already received a few phone calls questioning the record address. I have submitted a ticket to HS Help to fix this.

Hi KK,

I've attached the Water System invoices that recently mailed out. Please note that instead of the HS Establishment address the mailing address is appearing for the record address. We have already received a few phone calls questioning the record address. I have submitted a ticket to HS Help to fix this.

Thanks.

Hello All!

In an effort to better understand (and hopefully help) with the process of creating the workplan, if you could review the attached.

I ran the 4643 report from Envision. Using the deadline dates, created the excel sheet that only listed facilities with deadline dates within the FY24/25 period. Does this help with the list of sanitary surveys needed in the workplan?

Also, do you want to add some additional fields in HS for dates when the BSSP was updated?

Hi Kristine

Here is the spreadsheet with all the data for DVD. I have attached the Assessor data to the table. They should have all their fields attached with an ACR at the beginning.

These were all joined by APN when available, then if not by Site Address. When none of these joined, they were then Geocoded.

Let me know if you have any questions.

Afternoon All!

Here is the info from EMWD. Unfortunately, there are no plans to develop sewer in the area other than Cajalco to support a business corridor.

The water quality data was not much help either because they were not sampling for bacteria (most likely because they would treat before it goes to homes). I did also check Geotracker for the water quality data at the gas station, but their sampling is more geared toward testing for contaminants related to underground storage tank leaks.

This property has a long standing dispute between the RP and the State Small water system. The well is drilled on the RP's property, but is controlled by the Weber Valley Heights Association (the water system) and the permit on file for the well shows the wrong APN. Please see Jeff Johnson's letter from 2013 regarding our Department's stance on this dispute. Perhaps he thought if he waited 10 years, he could get a different response?

My thought on this is to respond to his email and reiterate our Department's position. His current complaint does not address any water quality issues. I could even attach Jeff's letter from 10 years ago. Your thoughts?

Apologize for the delay. We have attached what we have put together. Our list of State small water systems and a spreadsheet with a list of cities who have contracted with DEH for the Local Agency Management Program (LAMP) for septic systems.

For the facility in Mecca, Mike looked into it and it is not a water system. It has service from the water purveyor.

I hope you had a nice Thanksgiving holiday. I wanted to follow up on some of the items we discussed during our call: the list of non-compliant systems, a list of registered state small water systems and any water quality test results from state small water systems you're able to share. I had also asked about a specific facility located at 62900 Lincoln Street in Mecca. I think you were going to check whether that was registered with the County?

Thank you,

Yes it has been a while! Things are busy here and I hope that things have been going well with you.

To get the items taken care of for FSM36317, please address the following:

- 1) For waste haulers, please contact the waste haulers and they will issue a letter in regards to your project. It is to ensure that the waste haulers are aware of the current state of your project as it is getting ready to start pulling building permits and need to be ready to provide service.
- 2) These letters are from 2010. If you have a copy of the approved water plans or any current documentation that addresses the establishment of the water and sewer service, please provide them.
- 3) Please provide the Phase I ESA and we will conduct our review.

Hope this helps.

It has been a while and I hope all is well. I am trying to clear my 50 and 60 series conditions on the above referenced project and so I need your assistance. There are three 50 series conditions under the FSM36317 case(50.Health 001 – 003).

- 01- I'm not sure what you are looking for here. This project is located within the Sycamore creek Specific Plan and has been annexed into CSA 134, 152, and 152B. but as far as waste haulers I believe this was taken care of at the Specific plan stage. Can you please clarify.
- 02- The sewer and water plans are already approved and signed by the water department. I have provided a copy of the will serve letters for your quick reference.

03- A phase 1 was performed during the specific plan stages of this project along with the EIR. You should have this information for the sycamore creek specific plan but I can provide it to you if you need it again. It is a large file so I would need to send you a link to dropbox.

Please let me know what else you need from me to clear the appropriate conditions of approval.

Subject: PLEASE REVIEW: Aging Report

Good Afternoon,

Please see the attached aging report as of today. I've separated the outstanding invoices into individual program tabs. Please note the following header:

- 'R' – Recurring
- 'P' – Penalty
- 'N' - New Invoice
- Legacy Invoice describes the two systems: HS and EC
- # of outstanding days (ie., <30, <60, <90, <120, and over >120)

The amount shown reflects outstanding amount due from the customer which include partial payments received. Due to the invoice crossover from EC, some invoices may not show the FA# or Establishment info.

If the group approves of the reporting format, please feel free to forward to the chiefs.

Please let me know if you have any questions.

Thank you,

Vanna Kim

Hi Celine,

Please create a spreadsheet to track PE 1686. The rate is \$28/application. We (DEH) get \$20 and the remaining \$8 goes to State Food Safety (outside vendor) that manages the online food worker testing portal.

I will be sending you their monthly statements.

Category	PE Code (id: feeNotes)	PE Description (id: feeDescription)	Fee Amount	Fiscal Year	PE Code (id: feeNotes)

Hi Ken,

We greatly value our partnership with Riverside County and am so glad to hear you are happy with the program. I apologize that your reporting got interrupted in the transition. Attached is the report for December. Are you missing any others?

We will ensure these payment reports get sent to you monthly going forward and that Kristin and Vanna are copied.

Please don't hesitate to reach out if we can be of assistance.

Hi Ken,

Happy New Year! I hope this message finds you well.

I'm reaching out to share some recent updates at StateFoodSafety. Tiffani Williams is no longer with the company, and moving forward, Kerri Stankovits and I will be your new points of contact.

We're both excited to work with you and are committed to providing the same high level of service and support you've come to rely on.

We'd love the opportunity to connect with you and check in on how things are going with the food safety training program. Please let us know a time that works best for you to meet.

Best regards,

Melissa Smith

Hi all,

While I was preparing the permit workbook for Gina, I noticed that there are paid AR without an FA#. This is probably okay if the paid account is a "people permit". If not, and it should have an FA, then it will show as a "YES" for Gina to print. And, I noticed that the list contains two different AR# for the same owner (Book2). Can you please check?

Thank you,

Vanna

Hi Gina and Esther,

The permit workbook is ready for payments posted as of 7/5/24. The formulas has been changed in the permit workbook since HS fixed its Establishment ID field.

For permits that have an error, I would double check with the Olga or Tania. This could be because of the data transfer from EC when the fields were empty.

Hi Ramez/Vanna,

Please see my response to your inquiry below in ‘red’.

I’m also copying Nick and Greg in case I missed something. It is our understanding that CUPA permits needed to be printed out using the “Establishment Manager” as opposed to the “Permit Manager” as originally discussed per Nick. Also, Nick brought to our attention that these permits need to be held for various reasons and needs to be coordinated with site supervisor before releasing to operator. There’s more detailed steps that needs to be accounted for such as CERS access review before releasing the permits. See attachment for details.

Please note that Page 27 of the attached manual states additional steps for research for ISS to “verify invoice date and to check that balance match each permit”. Previous discussions only stated that ISS to print permits using validated report

or worksheet from HealthSpace but since this function is currently not available, Fiscal to then provide a validated worksheet of posted payments instead. ISS to then print and mail permits out, am I mistaken? As I mentioned, training will be needed as well as the Q & A session to my staff and the OAs.

At this time, Esther and I are working on possible questions for the Q & A meeting as discussed in today's meeting and will be sending it to you shortly.

Good afternoon Vanna,

Attached is the last communication from last week.

The provided report, saved here [Q:\DEH_Fiscal\HealthSpace\Vanna's testing](#), was last updated 06/18/2024.

Gina and Esther need to clarify with Nick why the mass printing of permits is combining PR#, and if there is a method to change the Permit Valid From automatically.

In order to continue updating the report, first, e need to work closely with Tom to clear roadblocks that are stopping us from finalizing deposits from older dates.

Eventually, we should match the workbook sent to Gina with the payment report from HS. But that is a future step.

Thank you,

Can we get a status update on where we are with this?

1. What reports were ran? Are reports working now? For ISS, none. We tried printing permits last Thursday but noticed there are discrepancies such as expired dates or missing info so no permits were mailed. Steve told Esther to hold off until we get a validated report from Fiscal.
2. From what date? See attached report provided by Ramez on 6/20.
3. How is the permit report linked to the payment reconciliation report now? This is Ramez question perhaps?!?

Good afternoon Gina,

Please see the attached.

This is the workaround (or Plan B) that Vanna suggested. This is time-consuming because the HS reports show unreliable information and we had to go line-by-line to verify.

To answer your question, yesterday morning Greg said that Vanna's Plan A will not work (because repetitive Receipt numbers shown on the Permit Manager list screen do not count as one-to-one relationship). Currently he does not have a solution.

Thank you for your continued patience while we work on finding a solution.

@Kim, Vanna, we may need to consider the efficiency of this Plan B method on the long-run. I was asked during HS Status Check meeting not to remove connections any further. So our future payments will be linked to multiple Permits and we may not be able to identify which permit pertains to which payment. Additional review will be needed after one or more days of work.

Hi Greg and Vanna,

I met with Jenay, Johnny and Nick today. Attached is the Permit Report printed today based on the excel worksheet in the Fiscal folder. As you are both aware, it was necessary for ISS to print out the permits individually as a temporary fix.

@Nick. Thank you for letting us know that all CUPA permits needs to be ran through the "Establishment Manager" and not "Permit Manager". Corrections identified are:

- Misspelled word "Management" in the HazMat Permit **Fixed by HS as of today (good catch Gina!)**
- @Vanna. There were 3 permits that had expired dates: Liquid Environmental Solutions, Deep Barrell Roasters and Creamery, and Picasso The Mexican Grill. Maybe just a data entry error? **This will become critical to find out, Vanna, because if the logic for printing permits is incorrect in HS, we may want to do suggested EC printing route assuming HS will take some time to correct.**

Questions:

1. Should the "Permit Issuance Date" also be noted in the Operating Permit for Non-CUPA?
2. @Greg/Nick. Please let me know if there are any permits that needs to be held for any reason that we need to be aware before sending out the permit? **This was the reason Johnny and I came down this morning and we neglected to bring it up! For CUPA, ANY UST permit needs to go through a process to check for a hold by conferring with the Area office supervisor on open violations. We have an established process and we can roll that out to your group, Gina. @Desaussure, Danielle can get you what we currently do. A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold.**

If no other issues/concerns, Steve said to go ahead and mail out the permits tomorrow. Thanks!

Hi Ramez/Vanna,

Please see my response to your inquiry below in ‘red’.

I’m also copying Nick and Greg in case I missed something. It is our understanding that CUPA permits needed to be printed out using the “Establishment Manager” as opposed to the “Permit Manager” as originally discussed per Nick. Also, Nick brought to our attention that these permits need to be held for various reasons and needs to be coordinated with site supervisor before releasing to operator. There’s more detailed steps that needs to be accounted for such as CERS access review before releasing the permits. See attachment for details.

Please note that Page 27 of the attached manual states additional steps for research for ISS to “verify invoice date and to check that balance match each permit”. Previous discussions only stated that ISS to print permits using validated report or worksheet from HealthSpace but since this function is currently not available, Fiscal to then provide a validated

worksheet of posted payments instead. ISS to then print and mail permits out, am I mistaken? As I mentioned, training will be needed as well as the Q & A session to my staff and the OAs.

At this time, Esther and I are working on possible questions for the Q & A meeting as discussed in today's meeting and will be sending it to you shortly.

Attached is the last communication from last week.

The provided report, saved here [Q:\DEH_Fiscal\ HealthSpace\Vanna's testing](#), was last updated 06/18/2024.

Gina and Esther need to clarify with Nick why the mass printing of permits is combining PR#s, and if there is a method to change the Permit Valid From automatically.

In order to continue updating the report, first, e need to work closely with Tom to clear roadblocks that are stopping us from finalizing deposits from older dates.

Eventually, we should match the workbook sent to Gina with the payment report from HS. But that is a future step.

2. From what date? See attached report provided by Ramez on 6/20.
3. How is the permit report linked to the payment reconciliation report now? This is Ramez question perhaps?!?

Good afternoon Gina,

Please see the attached.
This is the workaround (or Plan B) that Vanna suggested. This is time-consuming because the HS reports show unreliable information and we had to go line-by-line to verify.

To answer your question, yesterday morning Greg said that Vanna's Plan A will not work (because repetitive Receipt numbers shown on the Permit Manager list screen do not count as one-to-one relationship). Currently he does not have a solution.
Thank you for your continued patience while we work on finding a solution.

@Kim, Vanna, we may need to consider the efficiency of this Plan B method on the long-run. I was asked during HS Status Check meeting not to remove connections any further. So our future payments will be linked to multiple Permits and we may not be able to identify which permit pertains to which payment.
Additional review will be needed after one or more days of work.

Thank you,

Hi Ramez,
Please see Nick's response below regarding the PA Permits. I will need this info from Tania or Lina to determine when to hold the PA permits and when to mail it out please. If they have any workflows to share, that would be great. Thanks!

"A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold".

Good morning Gina,

The workbook that Vanna provided doesn't work because the actual report from HS has errors. We are in the process of evaluating each line item, which is slowing down our processes. Once this is complete, I will see how to create a new workbook from the 13th to the 17th.

Thank you for understanding and for your patience.

Subject: Permits in HealthSpace

Hi Greg and Vanna,

I met with Jenay, Johnny and Nick today. Attached is the Permit Report printed today based on the excel worksheet in the Fiscal folder. As you are both aware, it was necessary for ISS to print out the permits individually as a temporary fix.

@Nick. Thank you for letting us know that all CUPA permits needs to be ran through the "Establishment Manager" and not "Permit Manager". Corrections identified are:

- Misspelled word "Management" in the HazMat Permit **Fixed by HS as of today (good catch Gina!)**
- @Vanna. There were 3 permits that had expired dates: Liquid Environmental Solutions, Deep Barrell Roasters and Creamery, and Picasso The Mexican Grill. Maybe just a data entry error? **This will become critical to find out, Vanna, because if the logic for printing permits is incorrect in HS, we may want to do suggested EC printing route assuming HS will take some time to correct.**

Questions:

1. Should the "Permit Issuance Date" also be noted in the Operating Permit for Non-CUPA?
2. @Greg/Nick. Please let me know if there are any permits that needs to be held for any reason that we need to be aware before sending out the permit? **This was the reason Johnny and I came down this morning and we neglected to bring it up! For CUPA, ANY UST permit needs to go through a process to check for a hold by conferring with the Area office supervisor on open violations. We have an established process and we can roll that out to your group, Gina. @Desaussure, Danielle can get you what we currently do. A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold.**

If no other issues/concerns, Steve said to go ahead and mail out the permits tomorrow. Thanks!

Please see the attached.

This is the workaround (or Plan B) that Vanna suggested. This is time-consuming because the HS reports show unreliable information and we had to go line-by-line to verify.

To answer your question, yesterday morning Greg said that Vanna's Plan A will not work (because repetitive Receipt numbers shown on the Permit Manager list screen do not count as one-to-one relationship). Currently he does not have a solution.

Thank you for your continued patience while we work on finding a solution.

@Kim, Vanna, we may need to consider the efficiency of this Plan B method on the long-run. I was asked during HS Status Check meeting not to remove connections any further. So our future payments will be linked to multiple Permits and we may not be able to identify which permit pertains to which payment. Additional review will be needed after one or more days of work.

Thank you,

Hi Ramez,

Please see Nick's response below regarding the PA Permits. I will need this info from Tania or Lina to determine when to hold the PA permits and when to mail it out please. If they have any workflows to share, that would be great. Thanks!

"A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold".

Thanks Ramez!

Subject: Permits in HealthSpace

Hi Greg and Vanna,

I met with Jenay, Johnny and Nick today. Attached is the Permit Report printed today based on the excel worksheet in the Fiscal folder. As you are both aware, it was necessary for ISS to print out the permits individually as a temporary fix.

@Nick. Thank you for letting us know that all CUPA permits needs to be ran through the "Establishment Manager" and not "Permit Manager". Corrections identified are:

- Misspelled word "Management" in the HazMat Permit **Fixed by HS as of today (good catch Gina!)**
- @Vanna. There were 3 permits that had expired dates: Liquid Environmental Solutions, Deep Barrell Roasters and Creamery, and Picasso The Mexican Grill. Maybe just a data entry error? **This will become critical to find out, Vanna, because if the logic for printing permits is incorrect in HS, we may want to do suggested EC printing route assuming HS will take some time to correct.**

Questions:

1. Should the "Permit Issuance Date" also be noted in the Operating Permit for Non-CUPA?
2. @Greg/Nick. Please let me know if there are any permits that needs to be held for any reason that we need to be aware before sending out the permit? **This was the reason Johnny and I came down this morning and we neglected to bring it up! For CUPA, ANY UST permit needs to go through a process to check for a hold by conferring with the Area office supervisor on open violations. We have an established process and we can roll that out to your group, Gina. @Desaussure, Danielle can get you what we currently do. A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold.**

If no other issues/concerns, Steve said to go ahead and mail out the permits tomorrow. Thanks!

Hi Ramez/Vanna,

Please see my response to your inquiry below in 'red'.

I'm also copying Nick and Greg in case I missed something. It is our understanding that CUPA permits needed to be printed out using the "Establishment Manager" as opposed to the "Permit Manager" as originally discussed per Nick. Also, Nick brought to our attention that these permits need to be held for various reasons and needs to be coordinated with site supervisor before releasing to operator. There's more detailed steps that needs to be accounted for such as CERS access review before releasing the permits. See attachment for details.

Please note that Page 27 of the attached manual states additional steps for research for ISS to "verify invoice date and to check that balance match each permit". Previous discussions only stated that ISS to print permits using validated report or worksheet from HealthSpace but since this function is currently not available, Fiscal to then provide a validated worksheet of posted payments instead. ISS to then print and mail permits out, am I mistaken? As I mentioned, training will be needed as well as the Q & A session to my staff and the OAs.

At this time, Esther and I are working on possible questions for the Q & A meeting as discussed in today's meeting and will be sending it to you shortly.

Gina and Esther need to clarify with Nick why the mass printing of permits is combining PR#, and if there is a method to change the Permit Valid From automatically.

In order to continue updating the report, first, e need to work closely with Tom to clear roadblocks that are stopping us from finalizing deposits from older dates.

Eventually, we should match the workbook sent to Gina with the payment report from HS. But that is a future step.

To answer your question, yesterday morning Greg said that Vanna's Plan A will not work (because repetitive Receipt numbers shown on the Permit Manager list screen do not count as one-to-one relationship). Currently he does not have a solution.

Thank you for your continued patience while we work on finding a solution.

[@Kim, Vanna](#), we may need to consider the efficiency of this Plan B method on the long-run. I was asked during HS Status Check meeting not to remove connections any further. So our future payments will be linked to multiple Permits and we may not be able to identify which permit pertains to which payment. Additional review will be needed after one or more days of work.

Thank you,

Hi Ramez,

Please see Nick's response below regarding the PA Permits. I will need this info from Tania or Lina to determine when to hold the PA permits and when to mail it out please. If they have any workflows to share, that would be great. Thanks!

"A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold".

Thanks Ramez!

Subject: Permits in HealthSpace

Hi Greg and Vanna,

I met with Jenay, Johnny and Nick today. Attached is the Permit Report printed today based on the excel worksheet in the Fiscal folder. As you are both aware, it was necessary for ISS to print out the permits individually as a temporary fix.

@Nick. Thank you for letting us know that all CUPA permits needs to be ran through the "Establishment Manager" and not "Permit Manager". Corrections identified are:

- Misspelled word "Management" in the HazMat Permit **Fixed by HS as of today (good catch Gina!)**
- @Vanna. There were 3 permits that had expired dates: Liquid Environmental Solutions, Deep Barrell Roasters and Creamery, and Picasso The Mexican Grill. Maybe just a data entry error? **This will become critical to find out, Vanna, because if the logic for printing permits is incorrect in HS, we may want to do suggested EC printing route assuming HS will take some time to correct.**

Questions:

1. Should the "Permit Issuance Date" also be noted in the Operating Permit for Non-CUPA?

2. @Greg/Nick. Please let me know if there are any permits that needs to be held for any reason that we need to be aware before sending out the permit? This was the reason Johnny and I came down this morning and we neglected to bring it up! For CUPA, ANY UST permit needs to go through a process to check for a hold by conferring with the Area office supervisor on open violations. We have an established process and we can roll that out to your group, Gina. @Desaussure, Danielle can get you what we currently do. A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold.

If no other issues/concerns, Steve said to go ahead and mail out the permits tomorrow. Thanks!

Hi Ramez/Vanna,

Please see my response to your inquiry below in 'red'.

I'm also copying Nick and Greg in case I missed something. It is our understanding that CUPA permits needed to be printed out using the "Establishment Manager" as opposed to the "Permit Manager" as originally discussed per Nick. Also, Nick brought to our attention that these permits need to be held for various reasons and needs to be coordinated with site supervisor before releasing to operator. There's more detailed steps that needs to be accounted for such as CERS access review before releasing the permits. See attachment for details.

Please note that Page 27 of the attached manual states additional steps for research for ISS to "verify invoice date and to check that balance match each permit". Previous discussions only stated that ISS to print permits using validated report or worksheet from HealthSpace but since this function is currently not available, Fiscal to then provide a validated worksheet of posted payments instead. ISS to then print and mail permits out, am I mistaken? As I mentioned, training will be needed as well as the Q & A session to my staff and the OAs.

At this time, Esther and I are working on possible questions for the Q & A meeting as discussed in today's meeting and will be sending it to you shortly.

To answer your question, yesterday morning Greg said that Vanna's Plan A will not work (because repetitive Receipt numbers shown on the Permit Manager list screen do not count as one-to-one relationship). Currently he does not have a solution.

Thank you for your continued patience while we work on finding a solution.

[@Kim, Vanna](#), we may need to consider the efficiency of this Plan B method on the long-run. I was asked during HS Status Check meeting not to remove connections any further. So our future payments will be linked to multiple Permits and we may not be able to identify which permit pertains to which payment. Additional review will be needed after one or more days of work.

Thank you,

Hi Ramez,

Please see Nick's response below regarding the PA Permits. I will need this info from Tania or Lina to determine when to hold the PA permits and when to mail it out please. If they have any workflows to share, that would be great. Thanks!

"A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold".

Thanks Ramez!

Good morning Gina,

The workbook that Vanna provided doesn't work because the actual report from HS has errors. We are in the process of evaluating each line item, which is slowing down our processes. Once this is complete, I will see how to create a new workbook from the 13th to the 17th.

Thank you for understanding and for your patience.

Subject: Permits in HealthSpace

Hi Greg and Vanna,

I met with Jenay, Johnny and Nick today. Attached is the Permit Report printed today based on the excel worksheet in the Fiscal folder. As you are both aware, it was necessary for ISS to print out the permits individually as a temporary fix.

@Nick. Thank you for letting us know that all CUPA permits needs to be ran through the "Establishment Manager" and not "Permit Manager". Corrections identified are:

- Misspelled word "Management" in the HazMat Permit **Fixed by HS as of today (good catch Gina!)**
- @Vanna. There were 3 permits that had expired dates: Liquid Environmental Solutions, Deep Barrell Roasters and Creamery, and Picasso The Mexican Grill. Maybe just a data entry error? **This will become critical to find out, Vanna, because if the logic for printing permits is incorrect in HS, we may want to do suggested EC printing route assuming HS will take some time to correct.**

Questions:

1. Should the "Permit Issuance Date" also be noted in the Operating Permit for Non-CUPA?
2. @Greg/Nick. Please let me know if there are any permits that needs to be held for any reason that we need to be aware before sending out the permit? This was the reason Johnny and I came down this morning and we neglected to bring it up! For CUPA, ANY UST permit needs to go through a process to check for a hold by conferring with the Area office supervisor on open violations. We have an established process and we can roll that out to your group, Gina. @Desaussure, Danielle can get you what we currently do. A similar holding process exists for our PA permits, which means any facility with a PA regulated program. I'm less familiar with that process. Tania or Lina from Vanna's team can speak to what that looks like currently, but I think it entails knowing what the Fire PA has said to hold.

If no other issues/concerns, Steve said to go ahead and mail out the permits tomorrow. Thanks!

Hi Steve,

Please see the attached proposed budget for FY2024-2025.

Expense:

The proposed operating budget is \$33,000,330. This is an increase of 6% compared to current budget of \$32,919,007. The increase is attributed to salaries & benefits. I have included a 5% buffer for the 18 vacancies. Please let me know if any net new positions are needed so that we can add to Sherpa.

Revenue:

Please review the tab labeled "Revenue Summary" for the three (3) scenarios.

1. Proposed scenario 1 uses the cost model, per ACO, with all program element codes having a CPI increase.
2. Proposed scenario 2 uses the cost model, per ACO, with selected program element codes for CPI increase.
3. Proposed scenario 3 uses the old way, with selected program element codes for CPI increase. The template uses 4% CPI as a place holder. You can change the % in the control field of the "Revised Fee Schedule".
4. As a bonus, I have included a baseline of projected hours needed to match current 640 fees and proposed fees. Please see column 'BF' under the tab labeled "Revised Fee Schedule".

A hard copy of the packet is on Colleen's desk for you to review when you return on Tuesday.

Next action item: I will work on the CPI form 11.

Hi Esther,

I ran the voucher query for FY22-23 and noticed some vouchers were deleted (see deleted date column to the far right). I'm sure they were re-vouchered but you can check through them.

If you do not have the query below, let me know and I can copy it over to you.

I know we are focusing on new fees for FY23 but when you get a chance to please review the attached invoice report that is over 300+ days. The report looks better now. Instead of \$6M for FY21-22, we only have \$2M outstanding for current FY.

I will also run prior years using the same method looking for invoices over 400+ days.

Hi,

I understand your offices are closed because of the Coronavirus isolation order. I also understand that in lieu of personally delivering these items to your counter, I may submit via email.

Attached are the following documents.

- Completed Land Use Application
- Certified and signed perc test report and perc map
- ADU plans submitted to the City of Temecula for review and approval
- Planning submit receipt
- ADU submit receipt
- Water bill

I know there are fees involved for this, so if you will tell me how you would like that handled I will provide that to you.

If you have any questions, or need any additional information, here is my contact information.

Thank you.

Hello Le,

Happy New Year and I hope it is better for all of us! I am finally ready to send over some information and am excited to get this to you. Please see attached MEHKO SOP application along with my Serve Safe Certification along with images as requested of my kitchen, appliances, 2 refrigerators in the garage and one last image of my refrigerator in the house, fire extinguisher and so much more. I am using ALL separate utensils and cooking equipment for this endeavor. You can see pictures here as well. I look forward to hearing back from you to see what else if anything is needed. Please do let me know. I do have one question. As I started to write out ALL my menu items and descriptions, I decided to do the first page full and send it to you to be sure I am on the right track here or if there is another format that may be better for you. I thought maybe to type it out on a separate sheet perhaps but please let me know if this is correct at this point. Please do advise and where we go from here.

Thanks so much,
Karen Rasmussen

Good Morning Ms. Rasmussen,

We recently received your application and payment for a Microenterprise Home Kitchen Operations (MEHKO) to our main office in Riverside. I wanted to reach out and see if you have submitted any paperwork to our Environmental Health Department prior to submitting this payment. Per our protocol, MHKO needs to submit required paperwork for review, approval and in-house inspection prior to payment submittal.

Here is a link to our website where you can find all of the most updated information on MHKOs in Riverside County:

<https://rivcoeh.org/OurServices/Foods/MicroenterpriseHomeKitchenOperations>

Here you will find links to the paperwork needed to start the review process. Please look over this information and let me know if you have any questions. Once you are ready to proceed please submit the following:

- Completed Application
- Completed Standard Operating Procedure form
- Copy of your Driver's License (if the address on your driver's license does not match the home address provide a water bill showing proof of residency)
- Complete menu showing ALL food and beverage items proposed

You can send it in electronically. Please let me know if you have any questions regarding the SOPs. Incomplete or unclear information on the SOPs is the most common delay in this process. He can help explain any areas that are not clear. He will be reviewing all the paperwork and following up with you if there is any additional information needed. It would be very helpful if you could include pictures of the following areas of your kitchen to help me visualize how the operation will run.

- Cooking area (stove/oven/BBQ)
- Sink/dishwasher area showing where all the steps of dish/utensil washing will take place (include sanitizer and test strips)
- Hot/cold holding units used for delivery

Once all the information needed for your file is received, you will set up a date for the home inspection. No fees will be charged until the final home inspection has been completed.

I have also included a handout on the Food Manager Safety Certification that is required for the MEHKO owner/operator. You have 60 days to obtain this certification but I will need to see proof that you have at least enrolled in a course by the final inspection. I recommend getting registered with one of the approved companies right away as these classes do fill up.

At this time, we will not process your MEHKO application and payment. Please respond to my email with regard to your decision to move forward or not. And, please do not hesitate to reach out if you have any questions.

Sincerely,

Looks like the questions are not answered again, but my assumption would be that the error is that some of the PINs are not secured. You can always manually run the import preview.

Good morning Greg,

Thanks for stopping by yesterday. It was nice meeting you.

I found your files and processed them manually for you and they both had errors. Attached are the error reports for the two districts. Please resubmit your clean files to us.

Can you please check to make sure if the format is correct? It seems like all of them got rejected. You can run this through the egov again and check it at your end before you submit it. Please give me a call if you have any questions.

Thank you,
Justina

Good morning Indio!

I have a new food truck that's about to begin the permitting process and it's going to be owned and operated by the La Quinta Resort. They want to use the resort as their commissary location, so before I start the process with that, I wanted to get your guys' OK. Let me know if there's any issues with them. Thank you!!

Good afternoon Jeff and Denene
Thank you for the quick response

I have attached the menu, The truck would never leave the La Quinta Resort Property, we would only operate it on our property.

I have a question, there used to be a sliding door behind the driver to get into the back of the truck, LA county health department made him close it up and open an emergency exit on the roof.

My question is is that the driver still has the sliding door and I was curious to know if the truck will still pass inspection if we open the door back up and install the sliding door back on. I think it would be safer to exit from the front of the truck vs climbing onto the roof.

As for the commissary, we would allocate a space on property in our main kitchen with a walk in cooler to build up the food required to execute on the truck. Would that be acceptable for a commissary kitchen on property?

Hello:

I don't see any red flags with that. You would be required to submit those full plans, plus a full menu, to start the process. If you want to submit them electronically, you may contact Denene Elmore, who is on copy to this email. Otherwise, you can walk in 2 full sets of the plans, plus the menu, to our Indio office. The plan check fee is \$689.

This would require operation to and from a valid commissary location, so the unit would still have to remain mobile, even if it is only vending at the resort. As far as where and when you can vend once you get our permit, is between you and the local city you want to vend in, so I would suggest getting ahold of them.

Let me know if you have any further questions.

Good afternoon Mr. Lojinski

My name is Andrew Cooper and I am the Executive Chef at La Quinta Resort, I left a voicemail for you but I figured it would be a lot clearer if I sent you the information so you can see it.

We recently went to go visit a Food truck for sale in the LA area but before we went any further we wanted to get our local health department involved to ensure that it would be able to get approved for working out in La Quinta at the La Quinta Resort.

I have attached the floor plans as well as their recent permits but we wanted to get you involved before anything else. When you have a moment if you could be so kind as to give me a call or email back with any information that would be greatly appreciated.

Thank you for your assistance and I look forward to hearing from you soon

Subject: Local Notification - Recall by Albertsons Companies

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Albertsons Companies, a Boise, ID establishment, is recalling ReadyMeals and in-store prepared items due to possible *Listeria monocytogenes* contamination.

Product Identification

ReadyMeals and in-store prepared items made with certain Brie and Camembert cheeses

See attached Product List file

Attached is the **final** list of retailers identified as receiving the recalled products. This recall is specific to the affected dates listed, and it is unlikely that most lot codes remain on retail shelves. For additional information, please visit [California Food Recall Information Sheet Albertsons Companies - ReadyMeals and In-store Prepared Items 09/30/22 \(pdf\)](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Good Morning Derrick,

I had a name and address wrong on the Corona TFF List so I am forwarding corrected list.

It's not a new vendor just a name correction.

And I neglected to omit Trinity Teas on their list and also on Vail list.

Hey Team Corona,

Recall Checks...it's been awhile. There are about 30 facilities in our area. Please check the master list (p 20, 39, 49, 50) and call for the facilities in your district. Sarah will do 56 as well.

Service Code is 020.

Complete these by Feb 4th.

Let me know if you have any questions.

Hi Kim,

I have attached both application forms for the TFF vendors operating in conjunction with the Corona CFM (PR0049909), Murrieta CFM (PR0052866), Old Town Temecula CFM (PR0005488), Promenade Mall CFM (PR0007032), and Vail CFM (PR0070986). The vendor list for all except Vail CFM is also attached; the vendor list for Vail was given verbally over the phone from Linda Engle and will be emailed later today or tomorrow. I will give you a call to discuss and ensure we have everything we need so we can accept payment.

Subject: PRA 24-2162 AND 24-2167

Good morning,

I am writing to inform you that the Clerk of the Board has received the attached Public Records Act request, requesting:

1. Urgent Legal Matter Regarding Ordinance 682 Section 3 a Non-Compliance of the law and illegally running electrical to the well herein question.
2. Please provide a well drilling permit issued after April 1, 1900 for the subdivision recorded December 20, 1968 as record of Survey #124200 seen in book 53, page 40 parcel 2, so noted in January of 1970 on Assessor map 571-04 as par2 and thereafter know as Assessor tax id parcel number APN 571-040-002 common US postal address 44100 Ginger Circle, Hemet CA 92544.

This parcel 571040-002 is not and was not any portion of the January 9, 1969 Record of Survey doc# 2420 subdivision in book 53, page 47 as parcel lot #3, APN 571-030-037 AKA 44-35 Perryman Lane. The January 1990 Assessors map 571-03 show parcels 1,2,3 and 4. Note the subdivision dates. The lands were not one of the same.

Drilling permit 16245 was issued for that RS 53/47 lot 3 aka parcel 3 APN 571-030-037 in February of 1990.

By law was/is that permit transferrable?

Please let me know if this PRA belongs to your department or if it went to the Board of Supervisor meeting, and if so please provide date and item number. If you have any questions or concerns, please don't hesitate to reach out to me directly.

Best regards,

Daniel Lopez

Hi Vanna,

When OAs had the task of calling/emailing permit holders they would note when, and who they spoke to. This was helpful information to have when we take enforcement action. Is this information being captured in HS? If not, is it possible to?

Also, is there a way to capture the area office number assigned to the permit in this report?

Thank you.

Good morning,
HCD provided a digital copy. It's way more than we need, but includes CH&SC and CCR Title 25 chapters. Yay!

Shelley can you post it on the Intranet?

Also, please remove the following:

- Hearing Letter for Fire Hydrant Test
- Verification Letter for Fire Hydrant Test

And replace the application with the current one. [Application for Permit to Operate; form HCD 500](#)

Thank you!

The way it is available online is difficult to use at best. Trying to copy and paste from there into one document would be extraordinarily time-consuming. Each section (or small group of sections) is a separate link.

We tested scanning a few documents and then using Adobe Pro to analyze it to recognize the words so it would then be searchable. That worked out well.

If it was electronic, it would be great. Has way more than we need but electronically wouldn't matter. I really only need those two chapters of CCR Title 25 Div 1.

Ideally it would be an electronic version that is continuous and searchable. Then we can print if people prefer that version. I would settle with a loose-leaf print version that we could scan, and have a decent search feature.

Thanks so much for your help!

Hi Kristen,

Maybe Special Projects could download the materials and combine them into a booklet or reference folder. Regulations can be updated and impacted by ever-changing legislation; therefore, the state opts to post online to avoid waste and cost with frequent updates. The link you provided is maintained by a company called Thomson Reuters. That company offers subscription services that you may want to look at. I think it could alert you to changes in regulations and may have a search feature.

Let me know if I can be of any assistance.

Good afternoon,

Abbott, an Abbott Park, IL establishment, is recalling multiple brands of Infant powder formulas due to possible *Cronobacter sakazakii* or *Salmonella* Newport contamination.

Product Identification	Affected Dates
------------------------	----------------

Infant powder formulas, including Similac®, Alimentum® and EleCare®

Expiration: April 1, 2022 or later

Products have a multidigit number on the bottom of the container:

- the first two digits of the code are 22 through 37
- the code on the container contains K8, SH, or Z2

Consumers can check product codes using the link: [Abbott Recall | Similac, Alimentum, EleCare Powder Formulas \(similacrecall.com\)](https://www.similacrecall.com)

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit [Abbott - Certain Infant Powder Formulas \(UPDATED\) 02/17/22 \(ca.gov\)](https://www.cdph.ca.gov/Programs/OPA/Pages/P021722.aspx)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Good morning,

Our Special Processes Committee was able to discuss your potential menu items. At this time, you will need to contact CDFA- Meat, Poultry & Egg Safety Branch (909) 773-0079 to submit the application and information for the processing of beef jerky. I have attached a copy of the application and information regarding the permitting requirements. As for the barbecue sauce and pickled relish, you will need to obtain a Cannery License from CDPH. I have attached their informational bulletin for the operation/permitting process as well. Once you have obtained approval from the State for the beef jerky, provide a copy of the permit/license so that we can review the process through a HACCP. Please let me know if you have any other question/concerns.

Subject: Beef Jerky/ canned products

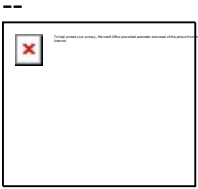

Hi Derrick, I hope you had a good weekend.

Things are progressing slowly for the business and I am looking for other avenues to produce income. I have had several requests for beef jerky, my bbq sauce and a pickled relish that I make.. I was wondering what the

approved packing methods are and what requirements I must meet for labeling. I know this is not approved under catering, so i would just need to know what permits i would need. I will be selling at some local farmers markets, doing phone and maybe internet sales. Also would pickled products and bbq sauce fall under cottage food production?

I have not been able to find any thing about beef jerky production in RS county hope you can help.

Have a great day
thank you

California Underground Storage Tank Leak Prevention: January – December 2017 Annual Report

Attached please find the *California Underground Storage Tank Leak Prevention: January – December 2017 Annual Report*. This report was a collaboration between the United State Environmental Protection Agency and the State Water Resources Control Board, developed using data gathered from the California Environmental Reporting System (CERS) and GeoTracker databases. This report summarizes important subjects including CERS implementation, release reporting, and single-walled UST data. This report includes data previously provided in the Semiannual Report, using data collected from January through June of 2017.

The Annual Report can also be found here:
