Attachments: Monthly April-September 2025.xlsx; Quarterly - 2nd and 3rd- 2025.xlsx

Let's try this again. 😊

I spot checked the data and it looks accurate.

Assigned To	#	Frequency	#	System Type	#
	3	Quarterly	132	WAT State Small System	76
	3	Monthly	81	WAT Non-Community System	69
Evelyn Ramirez	14	Total	213	WAT Community Water Sys (25-99)	22
Winston Ganly	14			WAT Non-Com Non-Transient Sys	18
Tiffany Su-Black	15			WAT Community Water Sys (15-24)	6
Emmily Phan	50			WAT Community sys(25-99) Treated	5
Stephanie Serrato	55			WAT Trans-non com-food fac-no water cons	4
Damaris Zepeda Penuelas	59			WAT Community Water Sys (100-199)	3
Total	213			WAT Non_Com Non-Transient sys treated	3
				WAT Non-Comm Sys Treated	3
					2
				Total	213

Systems missing assigned to are:

MVR Mobile Home Park

Los Compadres

Fernwood Estates

Chuckwall Valley

Soto Water

Rogelio Vargas Camp

The report that we currently have 213 systems. Please confirm

Attached are the reports for quarterly and monthly sampling (April-September)

I also checked the data, and it looks accurate.

Please make sure that data is being entered correctly as these reports will only pull routine samples for bacteria. (no source, repeat nor special)

I know there are additional tracking that need to be developed for required source sample but for now I want to concentrate in getting this report finished up so that you have it available for NOVs by October 10th.

I suggest we meet to discuss modifications that are necessary on the Water System Utility after the audit.

Thak you for your help.

Subject: Re: Systems without sampling data for 2nd quarter and missing address info.

Is there value to know which months are marked missing and not just identifying if they are missing or is this being pulled monthly? What if you fall behind?

I am still supportive of a way to streamline the ability to write an NOV for a site.

Hi Daisy,

We reviewed the reports and the data is not pulling accurately. We went ahead and made notes on the spreadsheets.

I reviewed all the water systems on the East End, so all the information should be accurate and up-to-date. I also assigned all the water systems and updated addresses.

Systems 3301186 and 3301188 do have system types assigned to them. I'm not sure if this is a backend error that is happening.

Subject: Systems without sampling data for 2nd quarter and missing address info.

Hello LPA,

Attached are the lists of the systems that do not have bacteria sampling data in HS for the 2nd quarter in 2025.

Please verify data and ensure that the report is pulling the correct information. I am still working with our own IT to ensure data is being collected correctly. Once we have this report working properly. I will have to close this ticket and create a new ticket so that the NOV's can be automated. (will need Kristine to approve)

There is still some incorrect data in the system profiles that may need to be corrected.

Alhatti Christian Res, Thousand Trails- Palm Springs, Grimmway Farms, Kaiser Eagle Mountain,
. Showing outside of our jurisdiction. Verify the system location and update HS.

139 Systems do not have an inspector assigned to and systems 3301186 and 3301188 do not have a system type.

Thank you for your assistance in working on this.

Hello LPA,

Please see attached report.

Please verify that our data is accurate on the report. These should only be your systems that are set up for quarterly bacteria sampling. If you find a discrepancy, please verify that the water system has been set up correctly on HS. If that is correct indicate which system should not be on this list or which are missing.

Also provide comments on how the report is organized and if there is anything that you feel needs to be changed. Please get me your comments by 8/21/2025.

Subject: Re: Dorland Mountain Arts Colony Inspection

Quick update:

For Weber, the routine was not documented on the HS time logs or in the physical files but I found an inspection report in the Q drive conducted on 4/11/25 and added that to the files.

For Lawrence Borba, the files are missing from the cabinet so I can't do a file review. In the Q drive, the most recent report is from August 16, 2023. HS doesn't show a routine conducted this year per the time logs:

https://rl.next.hscloudsuite.com/?page=entry&formName=Application_for_Domestic_Water_Supply_Permit_Form&application_for_domestic_water_supply_permit_formID=F3911E4F-D521-4E88-BD40-64D9973031EF

Jeanette said she can ask during next week's Tuesday Land Use meeting if there were any important updates regarding Lawrence Borba.

Hi Daisy,
Sorry this morning was a little hectic, today it's just me and Jeanette here in Land Use.

I double checked the inspection report dates and saw that Brittany already conducted a routine inspection for all of the state smalls this year except for Lawrence Borba Water system and Weber Valley.

Both Golden Stag and Dorland were inspected on 4/11/25. The most recent inspection reports were missing from the files though so I printed them out and updated them.

How would you like me to proceed? I don't know the full history but I'm aware that those two remaining water systems had some pending issues and hearings.

Subject: Re: Dorland Mountain Arts Colony Inspection

Hi Daisy,
Sorry this morning was a little hectic, today it's just me and Jeanette here in Land Use.

I double checked the inspection report dates and saw that Brittany already conducted a routine inspection for all of the state smalls this year except for Lawrence Borba Water system and Weber Valley.

Both Golden Stag and Dorland were inspected on 4/11/25. The most recent inspection reports were missing from the files though so I printed them out and updated them.

How would you like me to proceed? I don't know the full history but I'm aware that those two remaining water systems had some pending issues and hearings.

Yes. Let's give them a window seat f 9:30 to 10

Look at the file for golden stag and see if it is due for inspection and we can schedule that one in the. Afternoon 1 to 130 pm

Good morning Daisy,

I saw your calendar invite. Should I go ahead and schedule our state small inspection on the 14th?

It's about an hour drive from the office so maybe we can set our appointment for 9:30 am unless a later time would be more ideal.

Yes they both do. We can do a file review and check statuses on both. Schedule Weber and we will see the status on Borba and determine our next steps

Subject: Anza systems
Attachments: Small_Water_Anza.xlsx; Small_Water_Anza_Area.pdf

Hello,

The water systems in Anza are now being affected due to power loss. I have had a few check in. It appears that the Red Cross will be setting up a shelter area at Anza Baptist Church, I spoke with the operator, since this system is treated they need to be careful and provide clear labels indicating which hose bibs are treated water and which are not. Water for drinking or cooking must be from the treated water. The other hose bibs may be used for toilets and showers as discussed. Jeremy created another spreadsheet for us and a map located in the L in the Idyllwild file. Anza mutual seems to be operating with a generator. They may have enough diesel for two weeks. Based on what they have been told, the power lines may not be repaired for 2 weeks.

Hello everyone:

I was contacted by Mr. Reed today. Interesting thing is it took me a few minutes to register the name, since he only gave me his first name to the story that he was telling me. It has been almost exactly two years since we responded to his last complaint. Based on today's one call, it sounds like he has not resolved the issue of who owns the well on his property. I informed him that the State Board doesn't have regulatory jurisdiction of the documentation of the well or any legal matter that pertains to the ownership of the well, nor the state small water systems that he is in conflict with. Additionally, I reminded him of the letter that Karen Larsen sent in 2015 (see attached) and that we advised him to contact legal counsel. Told him that he should contact his assembly person for the county if he wants to see any law/regulation changes for state small water systems. Just thought I would relay the information to those that have been involved in the past.

Thank you,
Wendy

Here is some info on that lab in SB.
Looks like they do bacteria and some inorganics (nitrate, etc)
Then they send the rest to the other lab.
Another option for people.

Hello Jackie,

Thank you for providing the contact information for drinking water system reports during our phone conversation today. It was nice to talk with you.

As we discussed, I am interested in having our location, BSK Associates San Bernardino added to Riverside County's list of certified laboratories. Our company has been in business for over 50 years and we have

laboratory locations in Fresno, Sacramento, San Bernardino, and Vancouver (Washington State). Our San Bernardino location is the newest - we became certified one year ago. I have attached our certification for your reference. We perform bacteriological and short hold chemistry analysis from our location. All other analyses are performed at our Fresno laboratory (I've attached their certification as well). Our location address is below with my contact information. Feel free to contact me if you have any questions or require additional information.

Thank you and have a great evening,

Gina Cloutier

Subject: FW: BSK Associates - San Bernardino information for lab listing

Here is some info on that lab in SB.
Looks like they do bacteria and some inorganics (nitrate, etc)
Then they send the rest to the other lab.
Another option for people.

Subject: BSK Associates - San Bernardino information for lab listing

Hello Jackie,

Thank you for providing the contact information for drinking water system reports during our phone conversation today. It was nice to talk with you.

As we discussed, I am interested in having our location, BSK Associates San Bernardino added to Riverside County's list of certified laboratories. Our company has been in business for over 50 years and we have

laboratory locations in Fresno, Sacramento, San Bernardino, and Vancouver (Washington State). Our San Bernardino location is the newest - we became certified one year ago. I have attached our certification for your reference. We perform bacteriological and short hold chemistry analysis from our location. All other analyses are performed at our Fresno laboratory (I've attached their certification as well). Our location address is below with my contact information. Feel free to contact me if you have any questions or require additional information.

Thank you and have a great evening,

Gina Cloutier

Good Afternoon Jeremy,

I have pulled a list from HealthSpace on tobacco permits from Riverside based on Jenay's request below. Rather than going through each permit to figure out if its within city limits, would you be able to filter out the permits that are within the city? Would this be an easy task? Hoping to get this list to Jenay by Monday. Let me know, thanks!

Dear Kristin and Jenay,

I hope this email finds you well! Our last meeting was so insightful and helpful to understand part of the landscape of tobacco policy. As Blue Zones works to create City-level policy in Riverside, I was wondering if it were possible to get a list of all of the tobacco licenses in Riverside (city) from your database. Is this the right way to get them, and if not, what steps do I need to take?

With gratitude,

Hello there,

I hope this finds you well! I am the public policy lead at Blue Zones Project Riverside. As you may know, this is a County-wide effort and the cities of Coachella, Banning, and Palm Springs are also taking on community transformations. I am reaching out because I have some questions about how the County Dept. of Environmental Health addresses, finances, and enforces flavored tobacco and nicotine policies. I recently learned that the State Dept. of Justice has grant funding available for your department to enforce flavored tobacco and nicotine sales. I wanted to confirm this and learn more about how you could work with Cities to enforce this. Is there any chance I could hop on a call with someone from your office this afternoon from 3-5 PM, tomorrow 4/8, or Wednesday 4/9 at 8 AM? Thank you for this last-minute inquiry.

All my best,

PALOMA MONTES

Subject: comprehensive trash collection and maps

Good Morning Jeremy,

I was able to find this old word doc, a summary of comprehensive collection resolutions (there may be more...). In 2021, I believe you put this map together. My question is, what info did you have to generate this map? Is there more than these resolutions? (some of them included a map, but some just seemed to describe boundaries; for example D2- which boundaries have changed since that time.

A hauler in DHS unincorporated (FA 10) is not currently enrolling everyone and I feel the area is already under comprehensive requirement. Any info you can share is greatly appreciated.

Thanks

Jeff

Subject: RE: Septic Info
Attachments: Septic Parcels.xlsx; SepticParcels.zip

Good Afternoon Mike.

The enclosed zip has the shapefile for septic parcels within Riverside City Boundary as well as areas within Riverside Sphere of Influence.

For a little explanation of the data, under Permit_No:

- Any Record with an ON# is a record we have in our current database and have permit files for.
- Any Record with and EHS# was pulled from LMS, the old county database, and we should have permit files for.
- Any record with "Research Project" was part of a Research project Tetra Tech did in 2014 to identify parcels that have old Records in our paper files, but were not in our current database or LMS.
- Any record with "Added Research" are parcels that are in known Septic areas, but we do not have records in either database and unsure if there are a paper records for these files. These only include properties that are occupied, meaning non-vacant and a property structure value greater the \$0 by the County Assessor.

I hope this helps and is what you were looking for. If you have any other questions or need any more assistance, please let me know.

Hello Mike,

I apologize that you are having difficulty reaching someone to answer your septic questions on behalf of the City of Riverside. Attached is a request for records form that you would need to complete and submit back to us at landuse@rivco.org.

At your earliest available opportunity, I would recommend that you contact Jeremy Clark with our GIS section at (951) 955-8980 to discuss. Perhaps, the easiest way would be to obtain a shape file containing properties within the City of Riverside that are on septic.

You should then be able to cross-reference the data with the City of Riverside's business site database to narrow your search.

I'm trying to get some information about businesses in Riverside city limits.

We're just trying to compare what we already have to what Riverside County has, but nobody in the Riverside office is answering.

Is there an easy way to get a list of businesses in Riverside (92501 to 92508) that are or have septic tanks?

Also, are restaurants on septic that actually have a grease interceptor have the grease interceptor connected to the septic system?

Good Afternoon Jennifer.

Attached are a copy of all the Septic permits that have been delivered to the Assessor.

As with the Well data, these are requested at the beginning of the year for the previous year's permits. I delivered the well and septic data for 2022 this week to the ACR.

Please let me know if you have any questions.

Subject: RE: [External] RE: Request for information

Hi Jeremy. Happy Friday. Okay thank you.

Could you assist me with generating a list of properties with completed septic systems for 2017-2020 for Riverside County. I'd like to spot check a few of them similarly the way I did for the water wells.

I also have one permit in particular I am looking to obtain. ON0009913 The permit # is 2020-0009913. It was issued on 6/24/2020. And the property address is 71250 Oasis Tr Palm Desert CA 92260. PIN 628330007. It appears that this is for a new tank but there may have been another existing one as well. Any other related permits would be helpful such as demo or abandon permits.

Also I would be interested to know if the Riverside County Assessor is requesting permits for septic and if so how often and what format they are provided in please? If a spreadsheet is used are they able to access the images of the permits online in a similar fashion to the well permits?

Thank you for all your assistance, have a great weekend.

Hi Jennifer.

Riverside County Assessor requests the records from our department usually at the beginning of the year. So we should be getting a request in January for the 2022 permits. They are delivered to them as an excel spreadsheet, with the same information that was delivered to you in the earlier request.

I hope this helps, but if you need anymore information, please let me know.

Subject: RE: [External] RE: Request for information

Generally speaking, agricultural wells are drilled for non-potable uses mainly involving irrigation. Individual wells are drilled with the intent of potable water consumption and require bacteria and inorganic sampling which agricultural wells do not. Community wells are potable water wells constructed to a higher standard and have sampling

requirements as well to address the potential of serving 15 or more service connections and/or at least 25 persons or more.

Hello,

I am a part of the State Board of Equalization Audit Team. We are conducting an audit of the Riverside County Assessor. The topic I am looking at is the processing of new construction. I would like to request a list of domestic water well permits that were approved and competed for Riverside County for the years 2017-2020. It would be helpful if the list included the Assessor's Parcel Number, well permit number, and dates the wells were completed and signed off on. I would like to select several permits and obtain copies for a representative sample. Would you please refer me to the correct person?

Thank you very much for your assistance.

Subject: Well & Septic Permits for 2022

Good Morning Jeremy,

I am the new supervisor for the Riverside Residential section of the Assessor's Office. I believe in the past you were working with Jeff Goh. Last year you provided a couple of spreadsheets to the Assessor's Office for permits issued on wells and septic systems. Attached are the sample files from 2021. Could you please provide these reports to us again for permits issued in the 2022 calendar year? If the list can include any final dates, I'd appreciate having that information included. Let me know if you need any additional information for this request. Have a great day!

Thanks,

Nathan Heers
Supervising Appraiser

Hi Michael, thank you!

Hello Ms. Marcotte, could you assist me with generating a list of properties with completed domestic wells for 2017-2020. It appears that I may be able to utilize the link Michael referred to once the properties with wells have been identified and I have selected a few of them?

Thanks,
Jennifer

Hello Jennifer,

All of our well information can be accessed online at the following link:

<https://countyofriverside.maps.arcgis.com/apps/webappviewer/index.html?id=52a006e2361d4819bc0dc711b53f5533>

If you are just spot checking a few locations for a representative sample, I would encourage you to utilize this web portal.

However, if you are in need of a larger inventory spreadsheet or GIS shape file, my colleague Jenay Marcotte (Supervising EHS – ECP & GIS programs) can assist you further.

For future reference, you may contact Jenay directly at (951) 955-8980. I have also included her in my email response to you to facilitate your efforts.

Hello,

I am a part of the State Board of Equalization Audit Team. We are conducting an audit of the Riverside County Assessor. The topic I am looking at is the processing of new construction. I would like to request a list of domestic water well permits that were approved and competed for Riverside County for the years 2017-2020. It would be helpful if the list included the Assessor's Parcel Number, well permit number, and dates the wells were completed and signed off on. I would like to select several permits and obtain copies for a representative sample. Would you please refer me to the correct person?

Thank you very much for your assistance.

Cc: Kim, Kristine; Michael Mistica (MMistica@RIVCO.ORG)
Subject: RE: Septic Systems near Reservoirs
Attachments: MWD_Septic_Permits.xlsx; LMS_Cases.xlsx

Good Afternoon Mauricio.

I have attached 2 spreadsheets with the Septic Data you have requested.

1. MWD_Septic_Permits -These were exported from our current database and permitting system, Envision Connect. We have permits for all of these records.
2. LMS Cases – These are more of a compilation of records from a historic database we no longer use and a research project previously done identifying parcels that should have septic on them based on the area and surrounding parcels, yet we do not have records for all them.

Both tables have the Watershed the property belongs to, APN, Address and Coordinates. Please keep in mind these coordinates are not necessarily the location of the septic system, yet either the location of the house on the property or the centroid of the parcel, designed only to give the location of the parcel.

I hope this helps and was what you were looking for. If you have any questions or need any more assistance, please let me know.

I called the Land Use general line and they pointed me to you.

I'm with the Metropolitan Water District and I'm updating our Colorado River Watershed Sanitary Survey Report.

We have reservoirs with septic systems in their watersheds in Riverside County, and I'm looking to account for them in our report.

Is there a database of septic systems in Riverside County? Or is there anyone that can assist me in locating/counting septic systems in our areas of interest?

Thank you,

That is correct, for the test environment, and then onto EC there will be a 4th Area. The new area is CoverageArea. I am unable to have an "Area" field in my database due to the spatial componants. The "Old Area" was not included in the file I sent.

Subject: RE: Status of Redistricting Project - IT Test Environment Phase

If we can do it all at once, that would be preferred as it seems it would save time in testing the changes, as well as on the IT end. That said, the data set just got more complicated so it may take more time. I don't know what Jeremy has access to regarding other Envision data. Mike and he will chat about functionality and what this will look like and will get back to group with status and recommendation.

Subject: RE: Status of Redistricting Project - IT Test Environment Phase

Tania,

This can be done in 2 stages. First Riverside and Corona, and then all other areas and districts. We will have to perform, all the steps listed below twice. Once with the Riverside/Corona re-districting, and then for the rest of the areas/districts.

Or we can do it all (Riverside, Corona and all other areas/districts) in one swoop. I will differ that decision to Nick. I am fine with either one.

So, these are the steps we need to follow

- (1) A list of all Haz Mat facilities with the PR #, Facility #, old area, old district, new area, new district, lat and long.(Haz Mat team & Jeremy Clark)
- (2) A script will be written to update all Haz mat areas and all districts. This will include the new area & district for Riverside and Corona.(Rizwan)
- (3) A test environment will be built for Haz Mat, where the script will be applied.(Sys Admin Team & Rizwan)
- (4) Haz Mat team will verify the new area and districts are correct.(Haz Mat team & Jeremy Clark)
- (5) Submit a monthly billing and permitting run, to verify the new area/districts will not affect the financial(Tania)
- (6) Submit Change request and obtain approval from RCIT for applying script to production(Rizwan)

Let me know.

Thanks.

Subject: RE: Status of Redistricting Project - IT Test Environment Phase

Hi Rizwan,

I have discussed with Mike and Nick and am requesting to change current existing Riverside (Area H04, District H021) and Corona (Area H05, District H022) Area/Districts to:

Riverside- Area H21, District H021
Corona-Area H22, District H022

After this has been completed the changes for all Hazmat programs (for all areas, not just Area 1) need to be provided to Rizwan so the script can be created and run in the test environment. It would be very difficult for me to test billing if the Area/Districts are given to Rizwan multiple times.

Thanks.

Tania

The Area and District can be any alphanumeric character up to 25 characters long. I see no reason why Riverside and Corona, can't be H0022 & H0023 respectively. Tania, do you have any concerns?

Hi Rizwan,

I just wanted to mention that H01, District 1 (H001) and District 7 (H007), will ultimately be H04, H001 and H04, H007 respectively. At the moment, these designations were not included in the spreadsheet. If I recall correctly, H04 is assigned to one of the PAs if not both for billing purposes. Moreover, you have mentioned during our last meeting that you will check to see if the Corona and Riverside PA can be changed to something like H022, H0022 (Riverside PA), and H023, H0023 (Corona PA). What is the status on this?

Thank you,

Mike

Rizwan,

I realized after I sent it that it had all the other tabs included.

The 1st sheet is the master sheet (Tab District_01_All). All the other Tabs are based off that.

- 1- The updates so far are for Area 1 only. So yes the District is the only thing to change.
- 2- This is a question best answered by Nick and Mike
- 3- Yes, that is correct
- 4- The Lat/Long should be updated in both. I was not aware there would be 2 separate fields for that. (Hoped it would be ties to FA/PR)
- 5- Please see above.

I hope this helps and if there are any more questions, let me know.

Jeremy

Jeremy,

Here are a few questions, regarding the redistricting, based on the spreadsheets.

- (1) In the spreadsheet, there is a column for the new district (**District_New**), but not for the area. Are there no changes to Areas?
- (2) New district in spreadsheet will be prefixed with an H, and 2 leading zeros in EC. i.e. New district 7 will be a H007. Is this correct?
- (3) Columns to be updated in EC are Area, District, Lat and Long. Is this correct?
- (4) Is the Lat/Long need to be updated in the General Health Program table, the facility table or both?
- (5) Are all the changes to all Haz Mat program in the first spreadsheet?

County of Riverside - California Public Records

You have been added as support staff to request #25-4533.

Ryan Olney, EHS IV

Riverside County Department of Environmental Health

Subject: Clarification and Supplemental Records Request – PRA 25-4312 (Well Regulation Timeline Verification)

Dear Mr. Olney,

Thank you for your July 31, 2025, response to Public Records Act Request #25-4312 and for providing the related documents. After careful review of the records and Mr. Jeff Johnson's public statement, I must respectfully request **formal clarification and supplemental disclosure** on several key points.

1. Clarification of Regulatory Timeline – Jeff Johnson's Statement

Mr. Johnson asserted:

"DEH records list the well on your property, located at 44100 Ginger Circle, as part of the Water System, and that it has been regulated as such since 1990."

However, based on all known documents provided by DEH, including those in response to PRA 25-4312, **there is no valid 1990 record of any public or community water system associated with APN 571-040-002 or the address 44100 Ginger Circle prior to June 11, 1992.**

To ensure the accuracy of the public record, I am requesting:

- - **The specific DEH document(s)** Mr. Johnson relied upon to support the claim of regulatory oversight beginning in **1990** at the time he addressed his letter to me, and
 - **Any documentation dated prior to June 11, 1992**, that references **APN 571-040-002** or **44100 Ginger Circle** as part of a regulated water system.

If no such documents exist, I respectfully request a written confirmation stating:

"No DEH records exist which document the regulation of a water system involving APN 571-040-002 and APN 571-030-039 or the address 44100 Ginger Circle as a community or public water system prior to June 11, 1992."

If Mr. Johnson's statement was made in error, please identify:

- - The source or internal communication that led to this representation, or
 - Confirm whether Mr. Johnson made the statement absent of verifiable documentation referencing my APN or address during that timeframe.

This request is consistent with my prior inquiries which sought **any DEH document that includes or references my APN 571-040-002 or 44100 Ginger Circle between 1990 and 1992.**

2. Unanswered Items from PRA 25-4312

Several parts of my original request remain unanswered or incomplete. I respectfully request a supplemental response to the following:

a. WP0029371 (APN 571-040-002) – Electrical Permit Authorization

- - What electrical permit, if any, authorizes the operation of the well associated with WP0029371?
 - If **no electrical permit exists**, please confirm in writing that **no such record has been located**.

b. WP0029372 (APN 571-040-004) – Electrical permit and Authority to Serve Multiple Households

- - Permit BZ186958 was canceled and designated the system as “Domestic Well Service One Family Only.”
 - Please provide the **currently valid electrical permit and DEH approval** documents that authorizes the well at 44240 Benton Road to service six households, per DEH mapping and inspection records.

c. Well Driller Application – APN 571-040-002

- - Please confirm whether DEH holds **a non altered 1990 well driller’s application** or contractor documentation for APN 571-040-002.
 - If none exists, kindly state: **“No records found.”**

Closing

Please treat this as a formal continuation of PRA Request 25-4312. This is a new reference number as required; this is a corresponding response to the 25-4312 PRA request.

Your timely clarification and cooperation are appreciated. I look forward to receiving either responsive records or affirmative “no record” statements as applicable.

Sincerely,

Greg

County of Riverside - California Public Records

You have been added as support staff to request #25-978.

Per the file titled "weber maps.pdf" the first map shows a basic layout top side would be north and the south would be the bottom. In the second picture how did the 1968 record of survey 53/40 par2 some how magically become 571--037 when it has had the APN# 571-040-002 as identified on County assessors map 571-04 par002?

On the same map grouping. looking at the third and forth maps they provide proof of two separate independent systems, well (2) and well (3). In 2003 as shown on the map there were 4 connections to (W3) that fact is clearly indicated on the map. Per CA Water Code what records on file provide proof related to the inspection of that 1992 standalone system? What documents on file provide proof the water quantity was sustainable at 3 gallons per minted per connection prior to adding the additional users load? If the system had 4 connections as a standalone and if the easements did not transfer ownership to that third party know as Weber Valley Non Profit Association and if St Pierre

and Franko have been lying to DEH about the facts. Like being a non-profit or a legitimate land owner and if you check the Secretary of State and Riverside County Records office the facts will reveal the truths. Go back and reread the statement Jeff Hall made about the permit. The Contractor would of been in violation of the law for willfully using incorrect information on an application. How did he just happen to have all of the correct info that fit Franko and St Pierre's parcel. Additionally on 2-26-1990 APN 571-030-037 was not owned by what the permit shows as the owner. And it was not until April before anyone other than the Campbells had any rights to make use of APN 571-040-002.

You guys have been lied to by St Pierre and Franko. I accept the truths, it is the lying that I refuse to accept. Let's have a sit down and compare facts. Maybe then you too will see the truths. If my property was not wrapped up in the frauds I would care less about Bob and Debbie's embellishments, but that's not what we have.

Under what law is a civilian able to take an officially issued permit #16245 from 25+ years gone past and alter it to cover their lies? More so, why did DEH even consider it valid? Lies is why.

Why are the well locations failing to be identified by their true address and APN's?

In the 2005 inspection it shows 44135 Perrman Lane as in what is shown on Permit 16245, can you answer why?

Remember there is no well there but Inspection records indicate otherwise. I quote from Bob Franko, "those people downtown don't know ****", he and Deborah both were lying to DEH for years.

As he was burying the illegally ran 240v. energy source to the well on what eventually became my parcel he laughed about how he was getting away without having to buy permits.

Check Building and Safety, there is no permit for the electrical that runs from APN 571-040-004 across APN 571-040-003 and

ends 600 foot underground on my parcel 571-040-002. It is unpermitted and illegally buried.

Get to the bottom line and then make a realistic evaluation based on facts.

All I'm asking is for you to follow the truths. Provide me proof that the quantity of water from my parcel was tested and proved more than enough to sustain more than 3 household at 3 gallons per minute as required by law.

Lets do the pow wow and end the chase. I am available any time, any place.

County of Riverside - California Public Records

A message was added to record request #24-279:

Without altering existing records and creating new records to fit the desired outcome. Permit 16245 was issued for Bob Franko and Debra St Pierre's property and Weber Valley is excluded benefits recited in the easement.

I ask for DEN officials to please drop any preconceived notions and follow the facts.

I again ask, is there a well permit record with my predecessors name and address as of April 1990 to April 27, 2020 in DEH archives identifying 44100 Ginger Circle, APN 571-040-002, Dec 20 1968, Record of Survey 53/40 par2?

The permit question is a yes or no answer?
Is there a permit for the electric to the well?

If not, the well is operating in violation of County Regulations and Ordinances.

I want a meeting with DEH officials. There are two sides to every story. Allow me the opportunity to present mine.

**You have been added as support staff
to request #24-279.**

ATT: County Council
RE: Department of Environmental Health records
Riverside County
8490 Lemon Street, 10th Floor
Riverside, CA 92503

Subject: I request for Disassociation of State Small Permit
#1790 and Well Driller Permit #16245 from 44100 Ginger Cir.
Hemet CA. 92544

Dear Sir/Madam,
I, Gregory Reed, am the legally recorded owner of real
property commonly known as 44100 Ginger Cir, Hemet CA
92544, December 20, 1968 Record of Survey 53/40 par2, APN
571-040-002.

I am writing to request a review and action on certain matters related to my property. I believe there may be some inaccuracies in construction permit records and an electrical permit to the well associated with my property. I would appreciate your assistance in resolving these issues.

First off my property subdivision record date happened on December 20, 1968. All construction and building permits from that date to present should include specific persons and property markers in the chain of permits and ownership entitlement records.

I would like to clarify that neither of my predecessors, the Campbell's, Gladstone's nor did I assigned property or Attorney rights to a Weber Valley entity. My appurtenant rights that run with the land initially identified Charles and Joann Campbell, ROS 53/40 par2 in each of the three separately authored Grants of Easement. In 1973 a group of want to be land owners known as Weber Heights Nonprofit Association failed to manifest as a nonprofit. That association was not named as benefactor of those three easements I have entitlement for. Therefore as a third party entity the Weber Valley Heights Association is excluded from easement benefits and enjoyment thereof.

I have several specific requests for information and action:

1. Please provide the 1990 well driller permit number showing 44100 Ginger Cir. Hemet CA. 92544.
2. Please provide the name of the property owner on the 1990 well driller permit for 44100 Ginger Cir. Hemet CA. 92544.
3. Please provide the date of that first DEH inspection of a well at 44100 Ginger Cir. Hemet CA. 92544.
4. Please provide dates of field test and well inspection reports specifically identifying parcel number 571-040-002 and or 44100 Ginger Cir. Hemet CA. 92544 from January 1, 1990 until Dec. 31, 2007.

5. Please provide a name on the permit and issue number for the 240 volt electrical energy service currently running the well at 44100 Ginger Cir. Hemet CA. 92544.

6. Please provide the State Small Water Board record that first shows the well at 44100 Ginger Cir. Hemet CA. 92544 was incorporated into the preexisting State Small Water Board permit #1790.

7. Please provide the DEH inspection report(s) that identifies the quantity of water flow per minute from the well at 44100 Ginger Cir. Hemet CA. 92544.

8. In 2003, only three service connections to the well at 44100 Ginger Cir. Hemet CA. 92544 existed. When was a water GPM production test completed at the well?

9. Please provide the date when the water from the well was first connected to the storage tank facility located on APN 571-030-039 as identified in a 1993 Grant of Easement.

10. In 2003, only three legally entitled service connections from 44100 Ginger Circle existed. Prior to additional service connections being made, when was the system tested for feasibility and sustainability of the water supply? See Cal. Code Regs. tit. 22 § 64215

11. Who was the owner on record for the permit to drill a well at 44100 Ginger Cir. Hemet CA. 92544 in 1990?

12. What is the driller log record number showing 44100 Ginger Cir. Hemet CA. 92544? In 1990 was a log sent to the Water Control Board upon completion of the well as required in Riv. CO. Ord. 682 § 16?

I truly believe there are identifiable inaccuracies in the records and those permits wrongfully associated with my property. If the requested information cannot be provided, I request that the association of State Small Permit #1790 and Well Driller Permit #16245 with 44100 Ginger Cir. Hemet CA. 92544 be discontinued.

I appreciate your attention to this matter and look forward to your response.

Sincerely,

Gregory Reed

Subject: Aging Report

Tina and Amalia - Can you please add the districts to each PR on the attached list and provide the inspectors with the updated list?

Inspectors - Can you please go out and provide each of the PRs on that attached list an NOV along with a routine inspection? We are giving them no more than a week to pay or close. Please make sure you follow up after the week deadline to ensure they have either paid or you'll go ahead and close them for operating without a valid (current) permit. Please also collect a current phone number and email address for each facility you are inspecting. This will be the norm for all inspections so we can continually update HS with eh most current contact information for all of our sites.

As a side note, for all OOBs Fiscal needs to be notified that we are writing off any remaining fees. They are not automatically notified of this so we need to include that line in our emails to them.

That was a good question about places like clubs that still aren't allowed to reopen, Janet.

Any facility that is operating needs to have a valid permit. For the ones that aren't operating we can always still pursue and accept payment, which is preferred. We can also deactivate their permit, but that does not prevent them from having to pay penalties and really just formally let's us know that they aren't open yet. We would need to keep an eye on them and collect full payment of the permit and any penalty fees prior to them reopening. It appears that the option of 'pausing' the permits for the same amount of time that they were unable to operate isn't going to be an option.

I'm thinking it might be best for us to reach out via email once I know for sure if the November 1st date is what we are going with. I'd really like for places to be able to pay just the regular permit fees before the 1st than to pay double (for many) after the 1st. I'll let everyone know when we will officially begin collecting.

Please let me know if there are any more questions.

One of the things revealed in today's Supers meeting was that management is seriously considering reinstituting permit penalty fees. The thought is that beginning November 1st penalty fees are back on..... maybe.

If we end up going back into the purple tier on Tuesday then we would consider waiting a bit longer before adding the penalties. But if we stay in red November 1st is go time for penalties. Obviously this would be good to know BEFORE we start calling facilities for permit payments. I'm considering that we would start calling facilities next Wednesday morning to see if we can collect payments before penalties are reimposed. Tina and Amalia we can discuss how best handle the phone calls. Inspectors - please review the lists and consider your approach with these facilities. After all of the over the phone payments have been received and we turn the list over to you, you'd be going out to collect permit fees from these places. Tack, diplomacy, and empathy are some things that we will certainly need to display during these times; which I'm confident that you all will do.

I'm open to discuss this whenever you have questions and certainly at the next staff meeting. I may move that to after Tuesdays BOS meeting (so Thursday???)

County of Riverside - California Public Records

You have been added as support staff to request #25-4429.

Per the inspection records in request #25_1418 there is one file named "inspection records.PDF. It shows that from 2005 to 2024 a location: 44135 Perryman Lane. Please review the map I have included hereto with this request. I ask DEH provide copies of the documentation that allowed DEH to inspect a site that does not have a well. Yet has a location: 44135 Perryman Lane and DEH failed to identify the correct parcel Id's for 15 plus years. Please investigate this and provide a report as to the why it happened.

In my previous request for records the file # 5_1418 provided a file named, "Records regarding easement.pdf" that shows WP0029371. Please provide every file associated with WP0029371 including fee simple ownership rights thereto that property. The same file shows a separate WP29372. Please provide every file in DEH archives in chronological order that is related to the well.

In file # 25_1418 there is a "Request to change permit information.pdf", will you please provide me the legal form that was used and applied to perform that task. Or you have no response to the question.

One addition fact, please look at Jeff Halls Grant Deed. How could he have known what he wrote? He didn't yet DEH took his word at face value, why? I ask you to please add Jeff Halls Grant Deed to the Weber Valley files

A file named map.pdf was provided in a previous request. Please provide inspection records related to that singular system that included WP29371 and WP 29372 as pictured in the drawing.

In the file named 16672 it identified owner name F.L. Hutchens. What DEH archived document transferred ownership authority or control to Weber Valley Heights Association? In the file named Weber maps on page 2 the picture shows 53/40 par2 followed with 571-030-037. And the parcel 53/43 par 3 has the same APN 571-030-037. Does anybody in DEH check facts and correct them? The APN for my parcel has remained 571-040-002 since shown January 1970 on Assessor map 571-04. Please provide a full copy of page one of that file.

The file DEH provided named Parcel Report [77b23c04ebfe0b43].pdf. That file identified my parcel including Building and Safety Cases. Can anybody from DEH please explain how the surface features or the well pump operates without an electrical service or meter? Provide me a copy of the permit? I believe the well functions from an illegally energized meter related to a canceled 1971 electrical permit #186958 on APN 571-040-004.

The map named "original map.pdf" shows a singular system serving 11 parcels. When was that map submitted to DEH? Provide an inspection record of the first inspection of the new system that was created on or after June 11, 1992.

One more item,

The file 1667 (WCR).pdf shows a WELL LOCATION SKETCH right next to (4) Proposed use: Domestic.. The map was not legible. Please provide a clear copy of the location.

Good morning Ingrid,

Mike brought me the list you gave him today. 3 of those vehicles are for our division of Environmental Health. 05-380, 07-361, and 14-339. I have notified the supervisors so they can get the vehicles in.

I was just told 05-380 has already been taken in and done.

Gina Fabricante usually handles things in fleet at this level. I have included her on this email so she can let the other divisions know to take care of the vehicles.

Thank you and have a wonderful day!

Subject: RE: 640 Messaging for CalARP and Ag Handlers
Attachments: Ordinance 640 Changes and Impacts; AG and CalARP facilities contact email.xls; export-Permit Manager-2025-05-20 at 0900 hrs.xlsx

Thanks for everyone's feedback. Below is semi-final language.

To your question, Mike, yes, each area office needs to reassess their former Ag Handlers which were automatically reclassified to 'Level I' handlers, to determine if they need to be bumped up to Level II or Level III. That was what I meant in the attached email, though it could've been clearer. This should be done as soon as possible, triaging by doing the permits that expire in July first, and then August, then September and so on, so that when we do the billing, they are re-categorized correctly at the permit category they should be at going forward. But I think we can get them all done by early July realistically. We can discuss this time table as it may compete with other end of year needs.

To assist, attached are two Excel spread sheets. Thank you Mike for the combined Ag and CalARP facilities. Mike got this out of CERS for your reference. Additionally, there is an extract from HS of our former Ag Handlers which should match roughly what Mike pulled from CERS. The benefit of this spreadsheet is that it has the Permit Expiry for triaging which permit inventory to review in CERS first for reclassification purposes. How we email the facilities is really what we need to decide. For example, do we do via the Branch (CERS Admin email), Area Office level (Sup email), or by each inspector for facilities within their district? We can discuss that piece at our meeting Thursday, but we'll want to send emails out by early next week.

Language:

Ag Handlers:

"As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this revision, one of which is the removal of the 'Ag Handler' permit category in the Hazardous Materials Business Plan (HMBP)/Disclosure program. Since this permit category no longer exists, one or more of your facilities previously permitted at the Ag Handler level will be re-categorized into a different permit category as determined by the volume of hazardous materials maintained at the facility. Though you will see a modest increase in permit fee for any permits you hold within the HMBP program, this fee structure better reflects our costs of doing business. If you feel the recategorization is unwarranted, you can reduce the amount of hazardous materials stored onsite and contact the Department to reassess the permit category. Please contact your local Environmental Health office with any questions."

CalARP Facilities:

"As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees

were updated in this revision, one of which is the establishment of annual permits for the California Accidental Release Prevention (CalARP) program. Previously, quarterly billing was performed to capture billable time spent at your facility. This method was labor intensive and also didn't capture all our costs associated with the regulation of the program. One or more of your facilities will now have an annual CalARP permit fee, as outlined below.

Program Level 1	\$992
Program Level 2	\$1,485
Program Level 3	\$1,779

This fee structure better reflects Departmental costs and will also streamline the billing process. The annual CalARP permit will be consolidated along with the other permits you pay for hazardous materials related activities (e.g. HMBP program, UST, hazardous waste, APSA, etc.). Please contact your local Environmental Health office with any questions."

Subject: RE: 640 Messaging for CalARP and Ag Handlers

If they are no longer active AG Handlers in the system, do we have to assess all the ones in our area and reactivate at the new disclosure level?

Just wondering

Area 2 ER also looks good.

Not sure if needed, but one additional suggestion to add the year. In dark red below.

Hi Nick,

Please see my suggestions in red below for the messaging to facilities.

I reviewed the excel spreadsheet for Area 4 and it looks like all facilities are there.

Thanks,
-Danielle

Subject: 640 Messaging for CalARP and Ag Handlers

Hi All,

With the changes to 640, we need to do some outreach to our Ag Handlers and CalARP facilities. Though it's on our meeting agenda for next Thursday, I'd like a substantial part of the work done prior to the meeting. This will include knowing our universe and having valid email addresses for the facilities in that universe.

Could you please review the below language we plan to message out? I spoke with Mike and he assessed which reports from CERS we can use to extract facility data with associated email contacts, which will be easier for CalARP, but more difficult for Ag Handlers as those are in the larger HMBP bucket in CERS. But he worked his magic in the attached. Could you please review that as well, ensuring all your facilities are accounted for? I want to be able to send email as soon as possible, no later than end of next week/beginning of the week of the 9th.

Thanks,
Nick

Ag Handlers:

"As of May 20th, 2025, the Riverside County Board of **Supervisors** passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this **revision**, one of which is the removal of the 'Ag Handler' permit category in the Hazardous Materials Business Plan (HMBP)/Disclosure program. **Since** this permit category no longer exists, one or more of your facilities previously permitted at the Ag Handler level will be re-categorized into a different permit category **based on the amount of hazardous materials stored on-site** **OR** (I like this language

better)as determined by the volume of hazardous materials maintained at the facility. Though you will see a modest increase in permit fee for any permits you hold within the HMBP program, this fee structure better reflects our costs of doing business. If you feel the recategorization is unwarranted, you can reduce the amount of hazardous materials stored onsite and contact the Department to reassess the permit category. Please contact your local Environmental Health office with any questions.”

CalARP Facilities:

“As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this revision, one of which is the establishment of annual permits for the California Accidental Release Prevention (CalARP) program. Previously, quarterly billing was performed to capture billable time spent at your facility. This method was labor intensive and also didn’t capture all our costs associated with the regulation of the program. One or more of your facilities will now have an annual CalARP permit fee, as outlined below.

Program Level 1	\$992
Program Level 2	\$1,485
Program Level 3	\$1,779

This fee structure better reflects the Department departmental costs and will also streamline the billing process. The annual CalARP permit will be consolidated along with the other permits you pay for hazardous materials related activities (e.g. HMBP program, UST, hazardous waste, APSA, etc.). Please contact your local Environmental Health office with any questions.”

Subject: FW: UPDATED: COMPLETED: Aging Report - Follow-up
Attachments: Invoice Billed Aging Report 04.30.25.xlsx

Hi All,

I wanted to review the attached Aging report (our new past-due permit report) before providing it to you. This is not for widespread distribution yet, but I want to incorporate your feedback into what I provide to Brent. Here is what I have:

-We need Establishment Address to actually by Site Address and City, State, Zip columns so we can at least filter of City for purposes of Area/District breakdowns. I think that's as good as we can get though.

-We seem to have a Program / Fee Description mismatch for some permits. They are inaccurate in some case.

Let me know what else would be helpful to you, or more pointedly, what improvements to this style spreadsheet would be helpful.

Thanks,
Nick

Subject: FW: UPDATED: COMPLETED: Aging Report - Follow-up

Hi KK and Nick,

Attached is the aging report received from Vanna this week. Reconciliation is completed through May 8th.

Notes regarding the report:

- Unfortunately the program tabs couldn't be divided by Area. I'm hopeful your Excel skills can help your teams. (This note is from me, not Vanna)
- The report does not include any Inactive accounts that are pending write-off.
- The penalties on the report will be "locked" until the end of May, to eliminate the possibility of additional penalty amounts/invoices.
- Please note, only some accounts/facilities have been assessed a 20% penalty.
- Penalty invoices are an additional line. The total amount due, will be the recurring and penalty.
- The column labeled "Fee Description" (Column K) may not accurately reflect the invoice detail. This is due to the HS reporting system pulling only the last charge line on each invoice.
- Only invoices greater than 120 days past due are included.

- Invoices less than 120 days are currently being collected by the fiscal team through one or more of the following methods:
 - a) Statement/invoice reprint
 - b) Phone call
 - c) Email follow-ups
- Blank fields in the report are due to missing data in the HS system.
- The amount shown reflects outstanding amount due from the customer which include partial payments received. Due to the invoice crossover from EC, some invoices may not show the FA# or Establishment info
- Please note the following header:
 - o 'R' – Recurring
 - o 'P' – Penalty
 - o 'N' - New Invoice
 - o Legacy Invoice describes the two systems: HS and EC
- For any questions related to HazMat, please contact Leila Zolfaghari at (951) 358-4488

Good luck, I know it is a big ask from our teams. Keep me posted on progress.
Thank you

Olney, Ryan

Subject: HS Analytics Aging Report
Attachments: HS Again Report 3.3.2025.xlsx

Hi All,

I was just made aware (by Tania in following up to our PA meeting last week) of a report that exists in HS that we can utilize for identifying our universe of delinquent permits. In HS Analytics, the Aging Report provides a breakdown. I think it's most useful with the "Export Data" function because then you can manipulate in Excel which is much easier than HS. I've attached it here with the CUPA permit filter. Over \$778,000 in delinquent fees.

I'll be putting it on the agenda for discussion but saw that this resource existed so I wanted to ensure you knew about it as soon as I found out. Keep in mind that I still don't have answers on when past due permit penalties will be applied, and to which permit expirations they will be applied, or in what order. Plus Fiscal is supposed to be doing follow-up on these, which Tania verified they are making calls and collecting money currently.

Let me know if you have questions, but we'll discuss this Thursday regardless.

Thanks,
Nick

Subject: RE: Teams Attendance Report
Attachments: All Last Inspections - No Inspections 6.27.2024.xlsx

Follow Up Flag: Follow up
Flag Status: Flagged

That's a weird Teams feature. I downloaded and it's now here: Q:\DEH_HMM_Library\Training\2024 Branch refresher\Fall

I think the rest of the 10/30 Branch refresher material needs to be uploaded as well. Let me know if I can help with that.

I'm glad people are talking and I'm sure some heads are spinning with that amount of Excel info, but all good. Afterward, Mike and I were discussing and it occurred to us that you may not have known about a very popular data set we used all the time from EC Report Builder. The All Last Inspection – No Inspection (weird title, I know) is attached (from 6.27.2024, but obviously last updated 6/13 from EC). This is a highly reliable report and only has the last inspection date. We believe it may work better than the DAR Archive data, eliminating the need to delete older inspection dates.

Judging by the Excel report you generated during the training, I could see discrepancies between HS, EC, and CERS data. We likely need a better handle on those discrepancies. I believe I even saw differences between CERS and EC dates, which shouldn't be the case. Either way, All Last Inspections is highly reliable from a historical perspective. As staff report to you issues, please keep me updated on any possible themes or root causes.

Thanks,
Nick

Subject: RE: Teams Attendance Report

Hi Nick.

Thanks again for the opportunity to share some new techniques with the Branch. There was a ton of conversation over her at HAB afterwards, I think staff are excited (and a bit pensive) to try this technique out.

Regarding the recording. As far as I can tell, since you hosted the meeting, the recording is under your control. I can find and watch it, but I can't seem to download it.

 [HS List Screen Export Tips and Tricks-20241113_080247-Meeting Recording.mp4](#)

Since it's stored in the cloud it will be automatically deleted by March of next year. If you can download it and put it in the in Library, I could also link it to Sharepoint for staff to access.

Subject: Teams Attendance Report

Dan,

Thanks for the presentation today. I appreciate you putting it all together and think the Excel skills will be very valuable for staff as they obtain usable district lists in the absence of them existing in HS right now. When you save the recording, could you please send me the link? Or you can send it directly to the Branch if you want. I will say, I think I'd like a repository on the HMM Library which is more permanent than the Dropbox, but I'm open to other suggestions. I do think all of DEH may find the presentation helpful, not just Haz Mat.

FYI-It took me ending the meeting for Teams to kick out a proper Attendance Report. Screen shot of what that looks like below, plus Excel output attached.

Thanks again!
Nick

Subject: RE: Teams Attendance Report
Attachments: All Last Inspections - No Inspections 6.27.2024.xlsx

That's a weird Teams feature. I downloaded and it's now here: Q:\DEH_HMM_Library\Training\2024 Branch refresher\Fall

I think the rest of the 10/30 Branch refresher material needs to be uploaded as well. Let me know if I can help with that.

I'm glad people are talking and I'm sure some heads are spinning with that amount of Excel info, but all good. Afterward, Mike and I were discussing and it occurred to us that you may not have known about a very popular data set we used all the time from EC Report Builder. The All Last Inspection – No Inspection (weird title, I know) is attached (from 6.27.2024, but obviously last updated 6/13 from EC). This is a highly reliable report and only has the last inspection date. We believe it may work better than the DAR Archive data, eliminating the need to delete older inspection dates.

Judging by the Excel report you generated during the training, I could see discrepancies between HS, EC, and CERS data. We likely need a better handle on those discrepancies. I believe I even saw differences between CERS and EC dates, which shouldn't be the case. Either way, All Last Inspections is highly reliable from a historical perspective. As staff report to you issues, please keep me updated on any possible themes or root causes.

Thanks,
Nick

Subject: RE: Teams Attendance Report

Hi Nick.

Thanks again for the opportunity to share some new techniques with the Branch. There was a ton of conversation over her at HAB afterwards, I think staff are excited (and a bit pensive) to try this technique out.

Regarding the recording. As far as I can tell, since you hosted the meeting, the recording is under your control. I can find and watch it, but I can't seem to download it.

 [HS List Screen Export Tips and Tricks-20241113_080247-Meeting Recording.mp4](#)

Since it's stored in the cloud it will be automatically deleted by March of next year. If you can download it and put it in the Library, I could also link it to Sharepoint for staff to access.

Thanks,

Daniel Young REHS

Subject: Teams Attendance Report

Dan,

Thanks for the presentation today. I appreciate you putting it all together and think the Excel skills will be very valuable for staff as they obtain usable district lists in the absence of them existing in HS right now. When you save the recording, could you please send me the link? Or you can send it directly to the Branch if you want. I will say, I think I'd like a repository on the HMM Library which is more permanent than the Dropbox, but I'm open to other suggestions. I do think all of DEH may find the presentation helpful, not just Haz Mat.

FYI-It took me ending the meeting for Teams to kick out a proper Attendance Report. Screen shot of what that looks like below, plus Excel output attached.

Thanks again!
Nick

Subject: UST Facility vs. UST Per Tank Fee
Attachments: export-Permit Manager-2024-11-07 NC UST Per Tank Fee to UST Facility Changes.xlsx

Hello All,

Effective immediately, please input new UST facility permits as the “UST Facility” permit type and NOT “UST Per Tank Fee”. I’ve changed the permits in the attached spreadsheet already that were previously entered as “UST Per Tank Fee” per fiscal’s direction, so they now reflect “UST Facility”. I changed the inactive permits as well just in case we had associated data, but some I had to manipulate to indicate a permit expiry and valid to date. I picked 1/31/2024 for permit expiry and 00-Not Expire for Permit Expiry (Month). If these inactive UST sites need to become active in the future, please be mindful of updating those fields.

Mike and Sups, the method for inactive permits above could also be useful for HHW and ABOP sites, which are now in the system as a Permit Type option as of today. Each office will need to isolate which Establishments have the currently unassociated HHW/ABOP permit number (an existing PR with blank Permit Type and program because 5408, 5409, 5410, and 5411 didn’t migrate over upon go-live), and associate the existing PR with the correct and now existing HHW or ABOP permit type.

Let me know if you have any questions.

Thanks,
Nick

Subject: UST Facility vs. UST Per Tank Fee
Attachments: export-Permit Manager-2024-11-07 NC UST Per Tank Fee to UST Facility Changes.xlsx

Hello All,

Effective immediately, please input new UST facility permits as the “UST Facility” permit type and NOT “UST Per Tank Fee”. I’ve changed the permits in the attached spreadsheet already that were previously entered as “UST Per Tank Fee” per fiscal’s direction, so they now reflect “UST Facility”. I changed the inactive permits as well just in case we had associated data, but some I had to manipulate to indicate a permit expiry and valid to date. I picked 1/31/2024 for permit expiry and 00-Not Expire for Permit Expiry (Month). If these inactive UST sites need to become active in the future, please be mindful of updating those fields.

Mike and Sups, the method for inactive permits above could also be useful for HHW and ABOP sites, which are now in the system as a Permit Type option as of today. Each office will need to isolate which Establishments have the currently unassociated HHW/ABOP permit number (an existing PR with blank Permit Type and program because 5408, 5409, 5410, and 5411 didn’t migrate over upon go-live), and associate the existing PR with the correct and now existing HHW or ABOP permit type.

Let me know if you have any questions.

Thanks,
Nick

Subject: Inspection List
Attachments: 4.6.2022 Overdue Inspections List.xlsx

Hi All,

This is a follow-up to the request to send the super over-due inspection lists to you. It's the 'Sheet 1' which incorporates the CERS ID numbers.

If there are specific reasons why some of these are past due, let me know. I'll be asking for status updates as of June/July as these should be a priority to get done.

Thanks,
Nick

Attached is them in spread sheet form. If you sort by CERS ID or Facility# (current default), you'll see the duplicates that have several permitted programs.

The contact info is a little difficult from our database, but I can give you read-only access to the State database (CERS) that has it all if that works.

Nick

Warning: this message is from an external user and should be treated with caution.

Hello Steven,

Uche let me know you reached out to him for some lists of permitted Haz Mat businesses. Please find 4 reports attached based off the Haz Mat program type we have each facility permitted for. Some facilities will be listed on more than 1 of the lists as they are permitted in several programs.

If an Excel file straight from our database is more conducive to your needs, let me know.

Subject: Past Due Inspection List
Attachments: Past Due Inspection List 2.25.2020.xlsx
Importance: High

Good Morning All,

I was clearing out old action emails this morning and was reminded to take a look at Report Builder's "All Last Inspections - No Inspections" report. It shows our whole inventory of permits, including the last inspection date. If no inspection for the PR, it's blank, hence a Blanker.

I've sorted out each area, as well as the PAs, and the 5159 PE code. Please review as there are some oddball PEs scattered throughout, as well as an occasional oddball Area/District assignment.

As we've previously discussed, the RTC/003/023 push should be occurring now, but we'll need to pivot to these past-due sites in the coming weeks. The tabulated past-due numbers in the list are as of 6/1/2020 (i.e. sites due by 6/1/2020 are included in the past-due total). We're a little more behind than I thought, but I know we will get to where we need to be.

Please let me know if you have any questions or concerns.

Thanks,
Nick

Importance: High

Hello All,

Please confirm any changes you need to happen to the Designated Employees in the attached. IT needs our list as soon as possible to run it along with the redistricting effort. I've also attached the latest inventory sheet from Jeremy Clark for your reference. If something in it is inaccurate, that's what we need to update. Bob, not sure what to do for the Blythe facilities.

In conjunction with this, look for our Area and District coverage reference sheets being worked on by Colleen and Esther now. We'll need to update those to reflect necessary changes as well.

Please prioritize getting both of these done, especially the Designated Employee changes for your Area so I can get them to IT.

Thanks,
Nick

Hi Kerry,

I wanted to thank you again for all your hard work on this project over the last several months. We went from leading the State with the amount of duplicate USTs to only now having 26!! That's huge.

Due to CERS 3.0 being implemented April 1st, Cal EPA and the Water Board have been working behind the scenes to come up with an easier process for everyone to fix their duplicate tank issues. Because this is a Water Board approved method now, we need to ensure the individual who does it is ICC certified so that we can be aboveboard with any scrutiny we may get. Of course it's an easier process now. Apparently procrastinating would've paid off in this instance. Oh well...

In any case, please forward the spread sheet you've been working on to Mike Shalhub. Jeremy, please brief Mike on any unique items you're aware of. Mike will finish this project for us and work with the Water Board to ensure no more issues.

Thanks again to you, Kerry, and to you, Jeremy, for all of your efforts!

Nick

Subject: Duplicate USTs on behalf of John Paine

CalEPA is planning to implement the automatic UST tank numbering process in CERS in April 2019. To make this transition smooth and prevent future issues, duplicate USTs need to be removed from CERS before the automated numbering begins. There are approximately 1,400 suspected duplicate USTs in CERS that need to be addressed before the end of March.

Program and technical staff have worked to identify the probable duplicate tank numbers and the actual submission that created these duplicates. They have also developed a process to remove the duplicates. There are two files attached to this email, a spreadsheet that identifies the probable duplicates and a written process for the UPAs to follow. The beta test of this process with the LA City CUPA indicates that it is a fairly fast process (50 records in 2 hours), but attention needs to be paid to the individual records being processed. It is strongly recommended that UPAs have staff familiar with CERS and UST submissions work on this effort.

The attached process should provide an effective way to remove most of the duplicates. However, as with all records in complex electronic systems, there are conditions that staff need to be aware of. In the following specific cases, staff need to look closely at the records. The number of these issues is expected to be small.

- Where there is a tank removal or closure that does not have a closure date, the spreadsheet may indicate a duplicate, which is the closed tank. This can be corrected by adding the closure date.
- Where the last accepted submittal did not include all of the active tanks, the tanks that were not included on the last accepted submittal may be identified as a duplicate. The correction would typically be to change the status of the submittal to Not Accepted and have the business resubmit a complete UST submission. However, the specifics of each case must be looked at.

It is highly recommended that the UPAs schedule the correction process to complete by early March. UPAs should report records that may have issues in the updates so that CalEPA and the Water board have an opportunity to help resolve these before the end of March.

If you have any questions, please use the contact on the attached process document.

Thank you.

Are you up for tackling this?

Kerry in Indio has a spreadsheet she has been working on as she tackled this over the last few months with Jeremy. It would make sense if you took it over, especially if you have some down time now.

Let me know what you think. Let me know what you think. We have 26 duplicate USTs still according to Water Board/Cal EPA.

To: Crain, Nicholas <NCrain@RIVCO.ORG>
Subject: Riverside July - December 2017 Report 6

REMINDER: Your Report 6 is due on March 1, 2018. There are only TWO weeks left to submit!

To Local Agencies:

REPORT 6 FORM

This email transmits the Report 6 and Red Tag forms for the July-December 2017 semiannual data that is **due March 1, 2018**. As the CERS data is currently unreliable for the purposes of state and federal reporting, each agency that has not been approved by the State Water Board for paperless reporting is still required to submit the “paper” version of Report 6 as in previous reporting periods. To get your agency’s data ready for paperless reporting, please see the FAQ on the CERS “help” page titled: [Creating a Valid Report 6 From CERS](#). If you feel your agency is ready for paperless reporting, please read the letter titled: [Underground Storage Tank Report 6 Paperless Reporting Requirements](#). Please note that if your agency has not been approved for paperless reporting by December 31, 2017, you must submit the “paper” Report 6 for this reporting period, regardless of the outcome of your request for paperless reporting.

The attached documents contain the following:

1. Report 6 form (page one) shown as: YOUR AGENCY NAME.docx, and the Red Tag form (page two)
2. Report 6 and Red Tag instructions
3. Significant Operational Compliance (SOC) Measures Matrix as part of LG 164-2

Please review the attached instructions before completing the report.

Please use the space provided in Footnote 1 to report all discrepancies in the numbers for the beginning of this period (Column A – provided by the State Water Board). This does not include new or closed items. Agency name and address changes can be reported in the

address text boxes. Please use the Report 6 instructions and SOC measures to help update your Report 6 form.

Please note that for SOC compliance inspections, per federal and state requirements, **you are reporting the condition of the UST facility at the start of the inspection.** So if you notice one or more violations, based on the compliance measures in LG 164, you should report that facility as not in compliance, even if the violation was corrected during the inspection.

We will send a confirmation email after we receive your completed Report 6 form.

We appreciate your cooperation in providing this information. Please update the Word document for the Report 6 and Red Tag forms and email your updates to Steven Mullery at Steven.Mullery@waterboards.ca.gov by **March 1, 2018**. If you have any questions regarding this letter or Report 6, or have any difficulties completing the Word document, please contact Steven at (916) 341-5850.

Tips:

1. *Open document by double clicking the "AGENCY NAME.docx"*
2. *Click on "Read Only" (no password required to open)*
3. *Save the document to your computer*
4. *Enter data in the shaded text boxes.*
 - a. *To edit, you may need to go to the "View" tab and click "Edit Document".*
5. *Send the updated document from your computer to the State Water Board by email*

Importance: High

Follow Up Flag: Follow up

Flag Status: Flagged

Hello Again,

I had an opportunity to review the information after looking at how the Water Board pulled their numbers (see December 2017 UST Program Update email newsletter with link to how to do reports). After running the numbers, we have little change from before plus we have some facilities that the Water Board did not identify previously.

The 2 attached spreadsheets have, 1) A list of UST inspections that are overdue, and 2) The list that was previously sent out for action and what actually needs to happen still with that list-it needs more attention. Presumably this is because the proxy submission guidelines that Jeremy detailed in his November 28th email were not followed for these sites. I've attached what was attached in that email for your reference. It's imperative that this gets done. Do not wait for the facility to fix this since that is an unknown time frame. One for the issues may be that we should 'Not Accept' any submittal that is incorrect. Go back retroactively if that's the case. However, if a proxy submittal is done and then 'Accepted' by us, that should solve the problem. Either way, we need to Accept accurate facility info/Business Activities. This needs to be done by this week. I'd like to report to the Water Board by Thursday our progress on these. Manny, please thank Mike S. for performing the needed proxy submittal for the Hemet facility (now it just needs to be accepted). If you have concerns or believe there are any technical issues, let me know.

As for the inspections in the first spreadsheet, I pray most are DAR mistakes or late DARs, but something tells me that is not the case for some. Any facility without an inspection in 2017 must be inspected by the end of December. All our UST facilities need inspections annually-no exceptions. Enforcement needs to be done for those facilities that don't perform their annual testing within a 13 month time frame. If they did the testing and we just missed it or weren't able to go out at the time of the testing, it needs to be our priority to go back out to inspect as soon as possible. I'm counting on all of you to ensure that gets done. Jeremy and I will look at why the CERS inspection dates differ so much from what we have in Envision for some of these facilities.

Update both the respective spread sheets that are located in the file below so I don't have to track down and reconcile emails. One with the date of the annual inspection, the other with your comments of action on the proxy submittals.
N:\DEH_HMM_Library\UST\CERS UST Semi-Annual Report

More to come on this at our staff meeting.

Thanks,
Nick

Hello Sups,

Thanks for your action on this and responses. Please ensure that you or your OA or CERS Admin completed the steps that Jeremy detailed in the below email and it's attachment. If those steps aren't followed, we'll be doing this exercise routinely. Merely changing the status to 'Not Applicable' won't work.

Bob, I haven't gotten a reply from you yet and the CVWD Indio facility still has USTs indicated in the Business Activities most recent submittal. Please address ASAP and let me know when complete.

Thanks,
Nick

Subject: RE: State Certification for Compliance with Federal Inspection Frequency

Good morning all,

As promised, I am next to a big-boy keyboard now so I can type a little easier. For facilities which are remaining active and are currently listing an active UST element when they shouldn't be, there is an additional step which we should probably take so as to avoid this particular issue again. Step 1 would be to turn off the reporting requirement but, we also need to create a proxy submission on behalf of the facility.

The UST element gets activated because a business has selected "yes" on their Business Activities page for the UST element. Us turning off the reporting requirement does not change this element so next year, when the facility selects

“no change certification” they will simply reactivate the element, unbeknownst to us. Hence the necessity to preemptively remove this ability.

I realize creating a proxy submission probably hasn't been done by a lot of people so, the draft guidance document attached was created. The only thing which will need to get edited in this particular instance is the Business Activities page to change the “has UST onsite” question to a “no”.

You will see that there is some verbiage which needs to be entered into the comments boxes and that there is a placeholder for what changed. The “what changed” in this instance is “the underground storage tank reporting requirement on the Business Activity page”.

If there are questions after reading the draft guidance please let me know and I will do my best to provide clarification.

Thank you.

Your reporting admins should all know how to change reporting requirements. I can see cases where we will end up right back in this situation in the future unless we take a couple extra steps though. We will get a quick FAQ out tomorrow morning once I get back to a real keyboard, to all of you with some screenshots. If you're working on it today, please note which facilities remain active but without any active USTs. These are the ones that will be a little funky.

Subject: State Certification for Compliance with Federal Inspection Frequency

Nick,

Early February 2018 the State Water Resources Control Board is required to make a certification statement to US EPA Headquarters that all USTs in California have been inspected in accordance with Federal Rule and the 2005 Energy Policy Act. As you know the Federal Rule and the 2005 Energy Policy Act require a 3 year inspection frequency. A report run by Dan Firth (attached), shows facilities that have not been inspected in the last three years. Some of these facilities may be closed, or accidentally identified as a UST facility. Either way, we'll need the CUPA to clean up the data in CERS and report necessary inspections so that the State of California may make a positive Certification that the State meets the minimum Federal UST Inspection frequency. Please update or conduct the required inspections no later than December 31, 2017. Please let me know when you've completed this. Also, this report is not static, and was run for inspections with a date range up until October 31. You'll need to check for inspections due November and December, as we'll be running a final report in January.

Please let me know if you have any questions.

Flag Status: Flagged

Hello Again,

I had an opportunity to review the information after looking at how the Water Board pulled their numbers (see December 2017 UST Program Update email newsletter with link to how to do reports). After running the numbers, we have little change from before plus we have some facilities that the Water Board did not identify previously.

The 2 attached spreadsheets have, 1) A list of UST inspections that are overdue, and 2) The list that was previously sent out for action and what actually needs to happen still with that list-it needs more attention. Presumably this is because the proxy submission guidelines that Jeremy detailed in his November 28th email were not followed for these sites. I've attached what was attached in that email for your reference. It's imperative that this gets done. Do not wait for the facility to fix this since that is an unknown time frame. One for the issues may be that we should 'Not Accept' any submittal that is incorrect. Go back retroactively if that's the case. However, if a proxy submittal is done and then 'Accepted' by us, that should solve the problem. Either way, we need to Accept accurate facility info/Business Activities. This needs to be done by this week. I'd like to report to the Water Board by Thursday our progress on these. Manny, please thank Mike S. for performing the needed proxy submittal for the Hemet facility (now it just needs to be accepted). If you have concerns or believe there are any technical issues, let me know.

As for the inspections in the first spreadsheet, I pray most are DAR mistakes or late DARs, but something tells me that is not the case for some. Any facility without an inspection in 2017 must be inspected by the end of December. All our UST facilities need inspections annually-no exceptions. Enforcement needs to be done for those facilities that don't perform their annual testing within a 13 month time frame. If they did the testing and we just missed it or weren't able to go out at the time of the testing, it needs to be our priority to go back out to inspect as soon as possible. I'm counting on all of you to ensure that gets done. Jeremy and I will look at why the CERS inspection dates differ so much from what we have in Envision for some of these facilities.

Update both the respective spread sheets that are located in the file below so I don't have to track down and reconcile emails. One with the date of the annual inspection, the other with your comments of action on the proxy submittals.

Hi All,

The attached is a modified version of what DTSC provided us of EPA ID Number in the County. This list has been made sortable for easy printing (by district for example). We'll discuss tomorrow. The yellow highlighted entries are sites that we have under permit that DTSC does not have record of, likely because of slightly differ address entries. You will need to do more comparing to what we have in Envision, but this is a start.

Thanks,
Nick

Subject: RE: CUPA Districts - Phone Call Follow-Up

Hi Kevin,

It turns out our awesome Office Assistants had already been updating this and I just had the older copy! Attached is a breakdown of area offices and districts, with zip codes indicated. We've hired some new staff, so staff may change/swap districts by the time the in-person rolls around, but that should be minimal.

Let me know if you need anything else!

Regards,

Nick

Subject: CUPA Districts - Phone Call Follow-Up

Hello Nick,

As discussed over the phone, I am looking for a list of your districts by zip code. Thanks,

Kevin Abriol
Environmental Scientist
Department of Toxic Substances Control

I forgot to ask you about this. I need these spread sheets evaluated and cut down (compared to our existing permits), then separated by Area and District. I heard Dan was an Excel wiz. Does he have the time?

Let me know and I can go over the specifics of the project with him. The attached 7220 and 7200 are just Area 1 because Mike was working on it but ultimately couldn't manipulate the spread sheets for adequate comparison.

Fritzy took a look at the reports, but is not sure that she could help. She was thinking Jeremy could be an option? In talking with Dan Young yesterday, he had mentioned being an Excel wiz, so maybe he could give it a shot too?

Thanks Mike. Hold off for now.

Brent, anyone in your group Excel wizzes? If so, would it be possible for them to take a look at comparing these reports? We can discuss specifics in person if you have someone.

Subject: FW: Report 7200 Run Time Error

Hi Nick,

The formatting of the DTSC spreadsheets and Envision spreadsheets don't align well and would need some tweaking before we can execute a compare and merge command successfully which is going to take some time and diligent focus. If possible, maybe we can ask around at HAB to see if anyone is familiar on how to do this and farm this out. Or it may just be simpler to do a manual side by side comparison. If you want me to continue working on this, I would be more than happy to do so but it will take a while for me to reformat Report 7220 and 7200 and then run a comparison with the DTSC information. Please let me know.

Mike – As discussed 7200 is a very large report(330 Pages), and you are having memory issues. You should be able to run 7220(11 Pages).

I have run and exported them for you.

Hi Rizwan,

I'm still getting a run time error for Report 7200 when attempting to export the facility inventory as an excel file. I have not re-tried Report 7220 but I imagine it would be the same outcome. Perhaps, it's a MS Surface Pro memory issue. Please advise

Good afternoon,

Albertsons Companies, a Dublin, CA establishment, is recalling select store-made deli items due to possible *Listeria monocytogenes* contamination.

Attached is the **final** list of retailers identified as receiving the affected products. For additional information, please visit [Albertsons Companies – Select Store-Made Deli Items 09/29/25](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Subject: Retailers List _ Local Notification - Recall by Mondelēz Global LLC

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Mondelēz Global LLC, an East Hanover, NJ establishment, is recalling RITZ Peanut Butter Cracker Sandwiches due to an undeclared allergen – peanuts.

Attached is a **preliminary** list of retailers (Excel file) identified as receiving the affected products. For additional information, please visit [Mondelēz Global LLC – RITZ Cracker Sandwich Items 07/08/25](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Product Identification

Multiple sizes:

RITZ Peanut Butter Cracker Sandwiches and

RITZ Filled Cracker Sandwich Variety Pack, 20pk

- Product List – see attached PDF file

Thank you,
Mary

Subject: Retailers List - Local Notification - Recall by Kraft Heinz Foods Company

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Kraft Heinz Foods Company is recalling Turkey Bacon Products due to possible *Listeria monocytogenes* contamination.

Attached is a **preliminary** list of retailers (Excel file) identified as receiving the affected product. For additional information, please visit [Kraft Heinz Foods Company – Turkey Bacon Products 07/02/25](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Product Identification	Affected Dates
"Oscar Mayer Turkey BACON ORIGINAL" • Various package sizes • Product List (see attached PDF file) • Products bear the USDA mark of inspection on the front of the label	See attached PDF file

Thank you,
Mary

Good morning Sarah and Bonnesa,

On 10/29/2017 at approximately 2140 hours I received a complaint from the answering service that stated the following:

[Private Information] (complainant) states there is raw sewage on the surface of the ground beneath her home located at 525 N. Gilbert Street, space #23 Hemet CA 92543. The raw sewage has been on the surface of the ground for a period of four months. Her phone number is [Private Information]

The complainant rents a trailer from [Private] (owner). His phone number is [Private Information]

Thank you and have an enjoyable day,

Lester Powell, E.H.S. IV

Subject: Complaint referral

Good morning Sarah and Bonnesa,

On 10/29/2017 at approximately 2140 hours I received a complaint from the answering service that stated the following:

Private Information (complainant) states there is raw sewage on the surface of the ground beneath her home located at 525 N. Gilbert Street, space #23 Hemet CA 92543. The raw sewage has been on the surface of the ground for a period of four months. Her phone number is Private Information

The complainant rents a trailer from Private (owner). His phone number is Private Information

Thank you and have an enjoyable day,

Lester Powell, E.H.S. IV

Greetings,

We have recall checks. Looks like it is at Target stores. Please check to see if any are yours and do the recall checks by Friday.

Thank you,
Sarah

Subject: Overhill Farms, Inc. - Local Notification

Good morning,

Overhill Farms, Inc., a Vernon, CA establishment, is recalling approximately 54,630 pounds of chicken bites products due to possible foreign matter contamination - bone.

Attached is the **final** list of retailers identified as receiving the recalled products. For additional information, please see attached product list and visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/CDPH%20Document%20Library/FDB/FoodSafetyProgram/FoodRecalls/June2017/fdbFrOF2n.pdf>

If you choose to conduct any recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Subject: The SoyNut Butter Co. - Local Notification

Good afternoon,

The SoyNut Butter Co., a Glenview, IL establishment, is expanding its recall of I.M. Healthy Soynut Butters, I.M. Healthy Granola, Dixie Diner's Club Carb Not Beanit Butter due to possible *E. coli* contamination.

Attached is an **updated** list of retailers (updates in gray shading) identified as receiving the recalled product. For additional information, please see attached product list and visit

<http://www.cdph.ca.gov/pubsforms/Documents/fdbFrSOY4n.pdf>

If you choose to conduct any recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Sincerely,

Amber Barnes

Subject: New Circle K Plan Check
Attachments: Circle K.pdf; Circle K Plans.pdf

Good afternoon Danielle,

I received this application for a new facility. I just wanted to verify with you that the fees are correct before I send the requestor the "received email". I calculated \$2,549 for 2 tanks that will be split, coming to a total of 4 tanks. Thank you and please let me know if this is correct.

Hello,

We have received your plans but still need a menu. The plan check fee is \$1,831.00. **The plan check review process will begin when payment is received.** **Please note, if the fees are not paid within 30 days the plans will be deleted.**

Fees can be paid in any of the following methods:

-Mailed Check

- Make check payable to "Riverside County - Department of Environmental Health"
- Mail check to: Riverside County Department of Environmental Health
Attn: Plan Check/Denene Elmore
4065 County Circle Drive, Room 104
Riverside, CA 92503

-Credit Card (Phone)

- Call 951-358-5172 between 7:30 AM & 4:00 PM
- All credit card transactions are charged a 2.37% convenience fee. We do not accept American Express.

-In person between 7:30 AM & 4:00 PM

- Check, cash or credit card
- All credit card transactions are charged a 2.37% convenience fee. We do not accept American Express.
- To ensure staff has access to your application for processing, please be sure to notify me prior to your arrival to your preferred DEH office.

Please see the attached Will Serve requirements.

Hi Dena,
I would like to submit a new project in Murrieta, Capriottis sandwich Shop. I have also attached the application and plans.
Can you please let us know the fee and we will get it paid.
Thank You,
Dan Cline
Architect

Subject: RE: Jamie Colvin shared "Le Jardin Lounge" with you

Good Morning,
I received the link to the plans you submitted. Is the DBA Le Jardin Lounge, or Alamillia's Taco Shop as the plans are labeled?

Thank you,

Denene Elmore

Hi All,

Please see the attached spreadsheet and I've highlighted in yellow PR's that need to be fixed because of incorrect expiry months or valid to dates. Please go through and fix accordingly.

Leila will verify to ensure that they were billed or need to be billed.

Thanks.

Tania

Subject: Last Inspection Date/Next Routine in HS
Attachments: Area 4 Permit Manager 10-07-2024 .xlsx

Hi Admin/Tech Committee,

One of the action items from our committee meeting was an all-hands effort of everyone checking the accuracy of the 'last inspection date' and 'next routine inspection due date' in HS Permit Manager. Jessica has checked and let me know that her most recent inspection date is 6/17/2024 for any of her facilities. I also did a QA/QC of the data for some of our facilities here in Area 4 and the data is spotty. Some permits reflect the correct last inspection date and others do not. The dates do go further back than 6/17/2024 but they are not correct. Also, the 'next routine inspection due date' was not accurate for any of the facilities I checked or the date was blank. See the attached for an example list screen export of our permits in Area 4.

Has anyone else checked their respective districts? Please report back to the group with your findings.

Thanks,

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't

interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695
NOV – 54
NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

I restored records from a backup table and ran the preliminary list again. Yes, you should get the same list if you run it from the app.

We might need to talk about those facilities with multiple CERS IDs. I am going to take a look at that piece and let you know.

It's OK; I know what you meant. LOL.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

Hi All,

Hope everyone had awesome weekends and a great week at CUPA conference (for those of you who attended).

As discussed on our call for HEAP/Robot on 2/22, we will be running the program tomorrow, March 6th to get the CERS Preliminary list to disseminate to the Sups. Can everyone jump on a quick call at 8:30 or 9AM? Please reply and let me know.

I am hopeful it will only take about 30 mins to grab the list.

Chris

On Feb 23, 2024, at 1:20 PM, Desaussure, Danielle
<ddessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with
producing a list.

When the HEAP team met yesterday, we established
that it would be better to run the program (again) when
everyone gets back from CUPA conference, and will
have time to review and return the preliminary back to
us within the one week deadline. If we send out this list,
staff at CUPA will not have the focus to review. Just bad
timing.

Subsequently, let's prepare to run the program and get
the CERS Preliminary on **Wednesday, March 6th**. This
will require pulling a new CERS Submittal listing on 3/6
as well.

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't

interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695
NOV – 54
NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

It's OK; I know what you meant. LOL.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

<ddessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with
producing a list.

When the HEAP team met yesterday, we established
that it would be better to run the program (again) when
everyone gets back from CUPA conference, and will
have time to review and return the preliminary back to
us within the one week deadline. If we send out this list,
staff at CUPA will not have the focus to review. Just bad
timing.

Subsequently, let's prepare to run the program and get
the CERS Preliminary on **Wednesday, March 6th**. This
will require pulling a new CERS Submittal listing on 3/6
as well.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the

highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle

Hi Chris,

Dan and I are attempting to run the HMBP Robot and we hit a snag. We keep getting the below error messages after we try to upload the excel spreadsheet titled CERS Submittal Listing. We first got the message because of CERS Duplicates so we took care of those and now it still does not want to upload the

spreadsheet. Can you explain to us how to troubleshoot this type of error?

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't

interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695
NOV – 54
NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

<ddessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with
producing a list.

When the HEAP team met yesterday, we established
that it would be better to run the program (again) when
everyone gets back from CUPA conference, and will
have time to review and return the preliminary back to
us within the one week deadline. If we send out this list,
staff at CUPA will not have the focus to review. Just bad
timing.

Subsequently, let's prepare to run the program and get
the CERS Preliminary on **Wednesday, March 6th**. This
will require pulling a new CERS Submittal listing on 3/6
as well.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the

highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle

Hi Chris,

I've been in an all day meeting and just retuning to the office, therefore I will not have time to try again today. I am off tomorrow and Monday. Can we reconvene next week and try again at that time?

Hi Chris,

Dan and I are attempting to run the HMBP Robot and we hit a snag. We keep getting the below error messages after we try to upload the excel spreadsheet titled CERS Submittal Listing. We first got the message because of CERS Duplicates so we took care of those and now it still does not want to upload the

spreadsheet. Can you explain to us how to troubleshoot this type of error?

Subject: Area 4 Past Due Inspections/Blankers Update
Attachments: All Last Inspections - No Inspections 08102022.xlsx

Hi All,

I was running inspection numbers for Area 4 and wanted to give you all the updates. Please see the attached excel spreadsheet filtered for Area 4. Past due inspections are highlighted in yellow. Again, this report differs from Report 7808 because it gives an entire area view, versus just a district view; however you may still filter out your own district. See the following information by districts:

Past Due Inspections

- District 1 – 50/428 = 11.6%
- District 2 – 17/398 = 4.2%
- District 3 – 45/421 = 10.6%
- District 4 - 28/372 = 7.5 %
- District 10/11/12 = 4/57 = 7%

Blankers – No inspection

- District 1 – 31/428 = 7.2%
- District 2- 40/398 = 10.1%
- District 3– 14/421 = 3.3%
- District 4 - 26/372 = 7%
- Districts 10/11/12 - 1/57 = 1.8%

Thanks!

Hi Team!

See the email string below. This is based on previous emails sent to you on 4/7/2022 and 5/11/2022. Please let me know your plans for the inspections that have not been done on the attached list. I updated and filtered for Area 4. The facilities in green have already been inspected and the one facility in yellow (RUHS Mo Val) has been tentatively scheduled. Please let me know your action plan by the end of this week 6/10/2022.

Thanks!

I'd like an update on these from each of you prior to our meeting next week. If I don't get one from you, I'll be asking about it during the meeting.

Looks like the list dropped from 104 to 86, so some progress, but work still to do. If facilities shouldn't be on the list, get this cleared off (e.g. Temp HHW sites, OOB, inspections performed but no DAR entry yet, etc.)

The attached has not been modified from when initially sent out from 4/6.

Thanks,
Nick

Hi All,

Nick just sent the inspection trends below for the entire Branch. Since the attached overdue inspections list was sent out last month, I will be following up on the status of inspections at our upcoming staff meeting.

- *10,384 Non-UST Permitted (11,084 w/ USTs [700])*
 - *698 Total due by 6/30/2022*
 - *Inclusive of 96 grossly past due (>one year [FY17-18, or 6/30/2018])*
 - *306 Blankers*
 - *2,733 due FY22-23 (last inspection done 7/1/2019 – 6/30/2020)*
 - *3,610 due FY23-24 (last inspection done 7/1/2020 – 6/30/2021)*
 - *3,037 due FY24-25 (last inspection done 7/1/2021 – 5/9/2022) SO FAR (= FY21-22 Inspections)*
 - *Will need to add inspections from 5/9 to end of fiscal to this number*
- *348 inspections have been done since at least April 6th on permits that were not due*
 - *119 from FY22-23*
 - *229 from FY23-24*

Please let me know if you have any questions.

Thanks!

Good Morning All,

Past due inspections were discussed in our Sup meeting yesterday. Please see the attached list and prioritize inspections at the sites in your respective district. Some of the facilities may already be on your radar and on the calendar for inspection. Please coordinate assistant with Joel, myself, or each other if you need additional personnel to do inspections (especially large campuses or medical hospitals).

Our goal is to have most inspections done by the end of fiscal year, June 30th, 2022.

Please let me know if you have any questions or concerns. I will be asking for updates from all of you regarding conducting these inspections as time goes by so that I can provide updates to the other Sups.

Good Morning Vanna,

I hope you had a great weekend.

Area 4 Haz Mat (Riverside) will soon undergo a redistrict and RCIT has recommended that I make fiscal aware of the upcoming changes. The changes have not happened as of yet, however I am reaching out earlier so that you may anticipate how it can affect your group. Please see the email string below, as well as the attached data set for the desired changes in the district assignments.

Please let me know if you have any questions that I can answer. Also, if I have missed anyone on this email, please feel free to forward the information.

Subject: RE: Area 4 Redistrict Project.

Hi Danielle,

I'll be glad to assist. Nice job with the spreadsheet. A few questions that came to mind.

- (1) Are All Haz Mat facilities being re-districted or only the facilities under you/your team? i.e Only districts under Area – H04 - **All Hazmat facilities under Area 4 (Riverside) are being redistrict, as well as some facilities currently under Area 1 (Corona) that will now be moved into Area 4 (Riverside). Specifically we will be taking district 5 (H005) from Area 1 (H01) and we will also take the 92503 and 92504 zip code from Area 1 (H01), District 3 (H003).**
- (2) Are current Haz Mat Facilities, being re-districted to new areas and new districts or only new districts ? i.e Currently, Arco Gas 123 is assigned to Area – H04, District -H001, and is going to be re-districted to New Area – H04, New District -H002 – **Yes, the Haz Mat facilities are being redistrict to new areas and new districts. As also described above about taking some facilities from Area 1 (Corona).**
- (3) Are inspectors being designated to new areas and new districts or only new districts? Currently, Inspector Jane Smith is assigned to area– H01, District -H001, and is going to be re-districted to New Area – H04, New District -H002 – **inspectors in Area 4 (Riverside) are only being moved to new districts withing Area 4. Inspectors will not move to other areas.**
- (4) Are we currently splitting an existing district into 2 districts? Currently, Area- H04, District -H003 is being split into Area- H04, District -H003 AND Area- H04, District -H004 – **somewhat, we have a mega district in Moreno Valley that will now be split/absorbed into another district to make up the new District 4 (H004) in Area 4 (H04).**
- (5) Is it for all Haz Mat categories/PEs in Area H04? **NO. Anything in District H21 belongs to Riverside City PA so the PE Codes which should not be affected are 5190-5194 and 5176-5178.**
- (6) What is the effective date for this change? **As soon as possible.**
- (7) Is Fiscal aware of the change? You will need to check with them if there is any impact to billing/permitting. – **I have an email in to fiscal so that I can make them aware. Thanks!**

We can meet next week and further discuss.

Cc: Harris, Joel <JoelHarris@RIVCO.ORG>; Monterroso, Gino <GMonterroso@RIVCO.ORG>

Subject: Area 4 Redistrict Project.

Hi Rizwan,

I am in the process of redistricting for Hazmat Area 4 (H04) in Riverside, and Nick suggested that I solicit your help in making the universal changes in EnvisionConnect (EC). Please see the attached data set which includes facility inventories for each of the new districts and the respective designated employees for the updated district assignments. District 4 will be a new district entirely, created as a result of this project. Each worksheet contains facility inventory and reflects the desired changes in Area 4 (H04) for H001, H002, H003, H004 (new district), H010, H011, and H012.

Ultimately, we will have the each district assigned to the following designated employees:

District	Designated Employee	Employee ID
District 1 (H001)	Roba McCuin	242220
District 2 (H002)	Heidi Barrios	210495
District 3 (H003)	Rosa Gallardo-Azzu	235408
District 4 (H004) NEW	Allison Buse	234394
District 10 (H010)	Joel Harris	238884
District 11 (H011)	Joel Harris	238884
District 12 (H012)	Joel Harris	238884

I would greatly appreciate your assistance in this endeavor and would be open and available to meet or discuss, if needed and when you have time.

Thank you,

Importance: High

Good Morning All,

Past due inspections were discussed in our Sup meeting yesterday. Please see the attached list and prioritize inspections at the sites in your respective district. Some of the facilities may already be on your radar and on the calendar for inspection. Please coordinate assistant with Joel, myself, or each other if you need additional personnel to do inspections (especially large campuses or medical hospitals).

Our goal is to have most inspections done by the end of fiscal year, June 30th, 2022.

Please let me know if you have any questions or concerns. I will be asking for updates from all of you regarding conducting these inspections as time goes by so that I can provide updates to the other Sups.

Hi All,

This is a follow-up to the request to send the super over-due inspection lists to you. It's the 'Sheet 1' which incorporates the CERS ID numbers.

If there are specific reasons why some of these are past due, let me know. I'll be asking for status updates as of June/July as these should be a priority to get done.

Thanks,
Nick

Follow Up Flag: Follow up
Flag Status: Flagged

Hello Again,

I am attempting to wrap this up but wanted a few more pairs of eyes on it. See the attached spreadsheet for potential/new district assignments.

Essentially, we would be taking all of District 5 from your area (H01) and the rest of 92503 & 92505 zip codes from District 3 in your area.

The table below reflects new permit numbers on each worksheet with a map of zip codes in order to look at contiguous zip codes. Am I missing anything? Is there a better way to divvy up the workload? The new districts H002 and H004 in Area 4 are really small--- does anybody see a way to make it better?

New idea*** we could potentially take some permits from Area 2 District (92570) and split zip codes but this creates the same problem we had with split zip codes in Areas 1 & 4 (92503/92505).

-Danielle

Subject: REDISTRICTING Area 1 & Area 4

Good Morning!

I wanted to get with you all about redistricting our areas in the near future and setting up a meeting to get a game plan. As you all know, Allison will be joining us soon here in Area 4 and she will need a proper district. Also, I want to be able to engage the appropriate personnel about the changes that need to happen in EC. I have some thoughts but wanted everyone's input on this because Gino & Michelle have some of the history of District 5 in Area 1. In that vein, I am trying to set up a time to meet--- see the link below for the doodle poll on what is a good day for a quick informal meeting with all of us:

https://doodle.com/poll/mz7cy7bx77g3mim?utm_source=poll&utm_medium=link

Also, I have already began drafting a district that would potentially be District 4 in Area 4. I started the attached excel spreadsheet to begin playing around with building a district, which includes the zip codes 92503 Un-incorporated Riverside (taken from Area 1 District 1& 3), also 92504 (taken from Area 1 District 5), as well as some zip codes in Moreno Valley to take down the mega district (92551, 92552, 92556, and 92557). So far the district is small with just 313 permits but we can always change. Please let me know if you have questions or comments regarding this. I look forward to working with you all on this project in the near future.

Subject: RE: Lost Provisional Badges Moved to Deactivated

I see, so that if we add a new card number and search it in the system we can verify it hasn't been used before.

Just to list out the steps and verify we are on the same page.

- I have labeled every provisional card as lost/stolen in the NF title in 35 accounts.
- I have also made sure that these are all inactive.
- I will run one last report to make sure none of these supposed "lost/stolen" cards didn't magically become active and found.
- From there I will move the lost/stolen cards to employee deactivated accounts.
- And then based on our discussion any future provisional cards that need to be printed will require building a new profile but taking that same number from the series of the lost/stolen cards.
- The old profile will be renamed as "#001 – LOST" in the name field.

Should I move forward with this clean up Nancy?

Thanks,

~Diana G.

Hi Diana,

Sorry for the (late) reply. We should not delete the "lost" cards since they are lost in the sense that we do not know where they are, however someone may still be in possession of them. If we activate a card that has the same number then potentially that person could try to use that card and it would work. Highly unlikely but still a possibility.

Elizabeth – let me know if you disagree.

One more thing. May we delete the lost “card” in the profile, if and when we create a replacement? I can see that Lake Elsinore has multiple cards within one profile and it was to my understanding that a provisional profile should have only one card. Correct?

This sounds like it would be a good idea. I think it would give the Site Operator an easier view of what they actually have in their inventory.

Cc: Elizabeth Carrillo

Subject: RE: Lost Provisional Badges Moved to Deactivated

Hello Diana,

I moved the lost badges to the employee deactivated account. The site operator requested that as it gets cluttered in Win-Pak to see all the cards listed when many of them are lost. When we replace those lost badges we should be reprinting them with the same number (e.g. Badge #1 is lost, then we print a new badge with #1 on it). In Win-Pak, for those badges in the deactivated account, we can always rename them as “#001 – LOST” or something like.

I think for lost badges we should be moving them to the deactivated account as that way it is easier to see a true picture of how many provisional badges are available, and site operators can’t accidentally activate a lost badge.

Elizabeth – what do you think?

Thank you

Subject: Lost Provisional Badges Moved to Deactivated

Hi Nancy,

Upon reviewing Lake Elsinore's response for provisional badge inventory, I found that some of the provisional badge profiles marked lost by Sonia Guzman have been moved to the employee deactivated account folder. I spoke with Elizabeth and we don't think we did that, but I am not too sure. I have only been labeling the cards lost, pending our next step in the process. I think it makes more sense to replace those lost cards and keep the series complete. Should we move those profiles back to the Lake Elsinore account or keep it as is? And if we keep as is, does that mean all lost badges should be moved to the deactivated account?

Hi Corina,
Please see the attached list of lost/stolen badges in WinPak that need to be replaced.

Thank you,
Diana G.

Hi Diana,

Yes, everything you listed below is correct and please move forward with the clean-up. Can you provide a list of all "lost" provisional badges (account, #) to us and Corina can start printing them and sending them out to the offices.

Corina – please review the email string below.

Thank you

I see, so that if we add a new card number and search it in the system we can verify it hasn't been used before.
Just to list out the steps and verify we are on the same page.

- I have labeled every provisional card as lost/stolen in the NF title in 35 accounts.
- I have also made sure that these are all inactive.
- I will run one last report to make sure none of these supposed "lost/stolen" cards didn't magically become active and found.
- From there I will move the lost/stolen cards to employee deactivated accounts.
- And then based on our discussion any future provisional cards that need to be printed will require building a new profile but taking that same number from the series of the lost/stolen cards.
- The old profile will be renamed as "#001 – LOST" in the name field.

Should I move forward with this clean up Nancy?

Thanks,

~Diana G.

Hi Diana,

Sorry for the (late) reply. We should not delete the "lost" cards since they are lost in the sense that we do not know where they are, however someone may still be in possession of them. If we activate a card that has the same number then potentially that person could try to use that card and it would work. Highly unlikely but still a possibility.

Elizabeth – let me know if you disagree.

Thank you

One more thing. May we delete the lost “card” in the profile, if and when we create a replacement? I can see that Lake Elsinore has multiple cards within one profile and it was to my understanding that a provisional profile should have only one card. Correct?

This sounds like it would be a good idea. I think it would give the Site Operator an easier view of what they actually have in their inventory.

Subject: RE: Lost Provisional Badges Moved to Deactivated

Hello Diana,

I moved the lost badges to the employee deactivated account. The site operator requested that as it gets cluttered in Win-Pak to see all the cards listed when many of them are lost. When we replace those lost badges we should be reprinting them with the same number (e.g. Badge #1 is lost, then we print a new badge with #1 on it). In Win-Pak, for those badges in the deactivated account, we can always rename them as “#001 – LOST” or something like.

I think for lost badges we should be moving them to the deactivated account as that way it is easier to see a true picture of how many provisional badges are available, and site operators can’t accidentally activate a lost badge.

Elizabeth – what do you think?

Thank you

Hi Nancy,

Upon reviewing Lake Elsinore's response for provisional badge inventory, I found that some of the provisional badge profiles marked lost by Sonia Guzman have been moved to the employee deactivated account folder. I spoke with Elizabeth and we don't think we did that, but I am not too sure. I have only been labeling the cards lost, pending our next step in the process. I think it makes more sense to replace those lost cards and keep the series complete. Should we move those profiles back to the Lake Elsinore account or keep it as is? And if we keep as is, does that mean all lost badges should be moved to the deactivated account?

Thank you,

Subject: HEAP/HMBP Robot - April 2024 Run

Hi HEAP Team,

In anticipation for our HEAP/HMBP Robot meeting tomorrow, 4/16 at 8:30AM, I wanted to solicit if anyone who is attending the meeting would like to take a try at running the CERS submittal listing to generate the CERS Preliminary list? Let me know.

Also, Chris, were you able to follow up on a few of those errors from the last run to see what happened and prevent it from happening again? Just curious.

Additionally, there were nine (9) facilities from the NOV2 list from last month that we did not receive a signature back with confirmation that they received their NOV2 letter. I have listed those facilities below and the plan is that we don't move forward with enforcement (AEO) with those facilities; instead we put them on the NOV2 list again and attempt another delivery---even hand deliver, if necessary.

Hi Danielle,

I wanted to send this over to ask.... It might be a one off or maybe I'm missing something. This facility called and said that they got one of our letters sent certified that said it was a final notice of violation. I'm not sure whether they actually got a final NOV or the initial NTC letter (I can ask for a copy of the letter if needed), but either way, when I tried to look them up on the CERS preliminary list (see attached) I couldn't find them in any of the sections, but they do have a violation that was issued by the robot, see below screenshots. Their last HMBP submittal was also "Certified" on 3/13/2023, but we ran the list prior to 3/13/2024 so I thought it was weird that they would have gotten either type of letter and a violation since we ran the list on 3/6/2024 and they would have technically been "In Compliance" then, right? I attached some screenshots as well, but just curious if they may have been a glitch... I asked the other inspectors in our office to let me know if they encounter anything weird, but figured I would send it your way sooner rather than later.

Subject: RE: HEAP/HMBP Robot

Hello HEAP Team,

I wanted to send a calendar invite out in advance for our next run in April. Since the comply-by date for our March 14th letter is April 13th, 2024, it seems that Tuesday, April 16th would be the best day for all of us to jump on a call and generate the next CERS Preliminary. Is everyone available Tuesday **April 16th at 8:30AM**? I am hoping we can get it done within 30 mins. **Please reply to this email to confirm** and I will send a calendar invite out after hearing from all of you.

As a second and separate occurrence, I checked the USPS website for our bulk proof of deliver (BPOD) for the NOV2 signatures and I do not see them there. What should be our next course of action? I am open to suggestions of either 1) emailing USPS headquarters OR 2) using the tracking numbers on the main USPS website to verify delivery. Let me know your thoughts for either option 1 or 2.

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695

NOV – 54

NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

Subject: RE: HEAP/HMBP Robot

Thanks Chris. We generated the letters but got the following message when we tried to create the manifest flat file:
Is the pricing correct for the letters correct?
Can you help us troubleshoot? Rose and I have a meeting from 9-12:30PM but can be available after.

Step 2 - Place Deletes Here (Optional)

528404
373258
319098
322884
320109
323721
325812
353626

Delete CERS

Step 3 - Process Letters

NTCs NOV NOV 2 Enfor

Step 4 - Exports and Copies

Create USPS Flat File - NOV 2 Export Final List Create EC Copies

Step 5 - Run Enforcements

4. Finally, click 'Run Preliminary' to generate a preliminary list of facilities to receive a letter.

5. The preliminary list should be reviewed by HazMat staff. If you want to remove facilities from the HMBP process, go to step 2 and put in the CERS ID. You are not ready to print letters. You must delete step 3 before printing the letters.

6. Once the preliminary list is reviewed and you have removed facilities you want, click each button in step 3. This 'finalizes' this HMBP process, noting which facilities are receiving a letter.

7. Once you complete step 3 you must complete step 4. You need to create a flat file, so a Proof of Delivery (POD) is generated.

This flat file or manifest must be uploaded on the USPS Gateway

8. The 'Export Final List' is optional. This list is like the preliminary list.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

Chris

On Feb 23, 2024, at 1:20 PM, Desaussure, Danielle <dessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with producing a list.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when

everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

Subject: RE: HEAP/HMBP Robot
Importance: High

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle

Receive this pop up

<image003.png>

Creates what appears to be a duplicate submittal listing.

Hi Chris,

Dan and I are attempting to run the HMBP Robot and we hit a snag. We keep getting the below error messages after we try to upload the excel spreadsheet titled CERS Submittal Listing. We first got the message because of CERS Duplicates so we took care of those and now it still does not want to upload the spreadsheet. Can you explain to us how to troubleshoot this type of error?

Attachments: CERS Preliminary.xlsx

Hi Danielle,

I wanted to send this over to ask.... It might be a one off or maybe I'm missing something. This facility called and said that they got one of our letters sent certified that said it was a final notice of violation. I'm not sure whether they actually got a final NOV or the initial NTC letter (I can ask for a copy of the letter if needed), but either way, when I tried to look them up on the CERS preliminary list (see attached) I couldn't find them in any of the sections, but they do have a violation that was issued by the robot, see below screenshots. Their last HMBP submittal was also "Certified" on 3/13/2023, but we ran the list prior to 3/13/2024 so I thought it was weird that they would have gotten either type of letter and a violation since we ran the list on 3/6/2024 and they would have technically been "In Compliance" then, right? I attached some screenshots as well, but just curious if they may have been a glitch... I asked the other inspectors in our office to let me know if they encounter anything weird, but figured I would send it your way sooner rather than later.

Subject: RE: HEAP/HMBP Robot

Hello HEAP Team,

I wanted to send a calendar invite out in advance for our next run in April. Since the comply-by date for our March 14th letter is April 13th, 2024, it seems that Tuesday, April 16th would be the best day for all of us to jump on a call and generate the next CERS Preliminary. Is everyone available Tuesday **April 16th at 8:30AM**? I am hoping we can get it done within 30 mins. **Please reply to this email to confirm** and I will send a calendar invite out after hearing from all of you.

As a second and separate occurrence, I checked the USPS website for our bulk proof of deliver (BPOD) for the NOV2 signatures and I do not see them there. What should be our next course of action? I am open to suggestions of either 1) emailing USPS headquarters OR 2) using the tracking numbers on the main USPS website to verify delivery. Let me know your thoughts for either option 1 or 2.

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695

NOV – 54

NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

Subject: RE: HEAP/HMBP Robot

Thanks Chris. We generated the letters but got the following message when we tried to create the manifest flat file:
Is the pricing correct for the letters correct?
Can you help us troubleshoot? Rose and I have a meeting from 9-12:30PM but can be available after.

Step 2 - Place Deletes Here (Optional)

528404
373258
319098
322884
320109
323721
325812
353626

Delete CERS

Step 3 - Process Letters

NTCs

NOV

NOV 2

Enfor

Step 4 - Exports and Copies

Create USPS Flat File - NOV 2

Export Final List

Create EC Copies

Step 5 - Run Enforcements

4. Finally, click 'Run Preliminary' to generate a preliminary list of facilities to receive a letter.

5. The preliminary list should be reviewed by HazMat staff. If you want to remove facilities from the HMBP process, go to step 2 and put in the CERS ID. You are not ready to print letters. You must delete step 3 before printing the letters.

6. Once the preliminary list is reviewed and you have removed facilities you want to delete, click each button in step 3. This 'finalizes' this HMBP process, noting which facilities are receiving a letter.

7. Once you complete step 3 you must complete step 4. You need to create a flat file, so a Proof of Delivery (POD) is generated.

This flat file or manifest must be uploaded on the USPS Gateway.

8. The 'Export Final List' is optional. This list is like the preliminary list.

It's OK; I know what you meant. LOL.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

Hi All,

Hope everyone had awesome weekends and a great week at CUPA conference (for those of you who attended).

As discussed on our call for HEAP/Robot on 2/22, we will be running the program tomorrow, March 6th to get the CERS Preliminary list to disseminate to the Sups. Can everyone jump on a quick call at 8:30 or 9AM? Please reply and let me know.

I am hopeful it will only take about 30 mins to grab the list.

Chris

On Feb 23, 2024, at 1:20 PM, Desaussure, Danielle <dessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with producing a list.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when

everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

I just made an update. It ran successfully for me. You are going to see a few more files in the folder. In the folder I created a Run HMBP shortcut. This runs the winHMBP.exe. You can copy the shortcut to your desktop instead of having to go to HMBP folder each time to run the winHMBP.exe.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle

Good morning,

Question, do you happen to have a copy of the CERS list that was sent out to Sups/IVs that you could send me? I think the copy you sent us only has the NOV2s and Enforcement tabs. I wanted to double check the list you got versus the list I have because Value Cleaners was issued a violation for CERS from the robot, but I can't find them on this list. No rush, just want to check into this so I can pass the info. along after I do my research.

Subject: RE: HEAP/HMBP Robot

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695
NOV – 54
NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

Subject: RE: HEAP/HMBP Robot

Thanks Chris. We generated the letters but got the following message when we tried to create the manifest flat file:
Is the pricing correct for the letters correct?
Can you help us troubleshoot? Rose and I have a meeting from 9-12:30PM but can be available after.

Step 2 - Place Deletes Here (Optional)

528404
373258
319098
322884
320109
323721
325812
353626

Delete CERS

Step 3 - Process Letters

NTCs NOV NOV 2 Enforce

Step 4 - Exports and Copies

Create USPS Flat File - NOV 2 Export Final List Create EC Copies

Step 5 - Run Enforcements

4. Finally, click 'Run Preliminary' to generate a preliminary list of facilities to receive a letter.

5. The preliminary list should be reviewed by HazMat staff. If you want to remove facilities from the HMBP process, go to step 2 and put in the CERS ID. You will receive a message: **You are not ready to print letters. You must complete step 3 before printing the letters.** This message is reviewed and you have removed facilities you want to remove. Click each button in step 3. This 'finalizes' this HMBP process, noting which facilities are receiving a letter.

7. Once you complete step 3 **you must complete step 4.** You need to create a flat file, so a Proof of Delivery (POD) is generated.

This flat file or manifest must be uploaded on the USPS Gateway.

8. The 'Export Final List' is optional. This list is like the preliminary list.

Hi Danielle. You can go right to deletions.

On Mar 14, 2024, at 7:53 AM, Desaussure, Danielle <ddessauss@rivco.org> wrote:

Hi Chris,

Quick question, do we need to run a fresh CERS Preliminary from a CERS Submittal listing before entering deletions or can we just start off from where we left off which is adding the deletions?

The group is meeting in 5 mins and I just want to make sure we complete the steps correctly.

Hi Danielle. No that won't be a problem. The multiple CERS ID issue comes up when the CERS list is first imported.

Hi Chris,

We are planning on generating and printing letters tomorrow for the HEAP project, therefore I wanted to follow up with you about the multiple CERS IDs in your last email below. Will this present an issue for us generating letters?

I restored records from a backup table and ran the preliminary list again. Yes, you should get the same list if you run it from the app.

We might need to talk about those facilities with multiple CERS IDs. I am going to take a look at that piece and let you know.

It's OK; I know what you meant. LOL.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

Hi All,

Hope everyone had awesome weekends and a great week at CUPA conference (for those of you who attended).

As discussed on our call for HEAP/Robot on 2/22, we will be running the program tomorrow, March 6th to get the CERS Preliminary list to disseminate to the Sups. Can everyone jump on a quick call at 8:30 or 9AM? Please reply and let me know.

I am hopeful it will only take about 30 mins to grab the list.

Chris

On Feb 23, 2024, at 1:20 PM, Desaussure, Danielle <ddessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with producing a list.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle

Good morning,

Question, do you happen to have a copy of the CERS list that was sent out to Sups/IVs that you could send me? I think the copy you sent us only has the NOV2s and Enforcement tabs. I wanted to double check the list you got versus the list I have because Value Cleaners was issued a violation for CERS from the robot, but I can't find them on this list. No rush, just want to check into this so I can pass the info. along after I do my research.

Hi Team,

Just wanted to update you all that we successfully generated and mailed out HMBP Robot letters yesterday. Please see the numbers below for how many letters were sent out for NTC, NOV, and NOV2 (783 total). We had a hiccup with a few OOB facilities that had a letter generated on the NOV2 list in error. There were 5 facilities total and they subsequently received violations in EC with a 4/13/2024 'comply-by' date, however, those violations have now been deleted and removed from EC. We also had help from Chris with removing those 5 facilities from the USPS manifest so it doesn't interfere with the certified signatures that get returned from the post office. **Chris, do you know why that happened and if there is a way to prevent that from happening on the next run?**

Also, I uploaded the manifest to the USPS business customer gateway last night, but included a .podsub copy of the manifest this morning. See screenshot below.

Now, we wait on the next step which is the bulk proof of delivery (BPOD) signatures.

NTC-695
NOV – 54
NOV2- 34

Thanks everyone for all your hard work and collaboration. I appreciate it.

Subject: RE: HEAP/HMBP Robot

Thanks Chris. We generated the letters but got the following message when we tried to create the manifest flat file:
Is the pricing correct for the letters correct?
Can you help us troubleshoot? Rose and I have a meeting from 9-12:30PM but can be available after.

Step 2 - Place Deletes Here (Optional)

528404
373258
319098
322884
320109
323721
325812
353626

Delete CERS

Step 3 - Process Letters

NTCs NOV NOV 2 Enfor

Step 4 - Exports and Copies

Create USPS Flat File - NOV 2 Export Final List Create EC Copies

Step 5 - Run Enforcements

4. Finally, click 'Run Preliminary' to generate a preliminary list of facilities to receive a letter.

5. The preliminary list should be reviewed by HazMat staff. If you want to remove facilities from the HMBP process, go to step 2 and put in the CERS ID. You

Error creating manifest File. Please contact RCIT.

OK

You are not ready to print letters. You must complete step 3 before printing the letters.

is reviewed and you have removed facilities you must click each button in step 3. This 'finalizes' this HMBP process, noting which facilities are receiving a letter.

7. Once you complete step 3 **you must complete step 4**. You need to create a flat file, so a Proof of Delivery (POD) is generated.

This flat file or manifest must be uploaded on the USPS Gateway

8. The 'Export Final List' is optional. This list is like the preliminary list.

I restored records from a backup table and ran the preliminary list again. Yes, you should get the same list if you run it from the app.

We might need to talk about those facilities with multiple CERS IDs. I am going to take a look at that piece and let you know.

It's OK; I know what you meant. LOL.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not generate an enforcement tab with facilities that were on the NOV 2 list for the last run----do you know why? I attached our previous run to show the difference where the enforcement tab is included.

Hi All,

Hope everyone had awesome weekends and a great week at CUPA conference (for those of you who attended).

As discussed on our call for HEAP/Robot on 2/22, we will be running the program tomorrow, March 6th to get the CERS Preliminary list to disseminate to the Sups. Can everyone jump on a quick call at 8:30 or 9AM? Please reply and let me know.

I am hopeful it will only take about 30 mins to grab the list.

Chris

On Feb 23, 2024, at 1:20 PM, Desaussure, Danielle <ddessauss@rivco.org> wrote:

Thanks Rose and Chris for all your help and efforts with producing a list.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,
-Danielle
