Hi Stacy,

Shantel asked me about this one earlier this week we thought it was on the west end. It is on the border though. If you need help I can try to review/condition it.

Thanks

Mark

P.S. I'm attaching a boundary map that Jeremy put together.

Good afternoon Jeffrey,

Per our phone conversation today, I am sending you the following spreadsheets for Riverside County: ssws_water_quality_data, Riverside County ssws facility inventory, and Riverside County ssww_basic_inventory.

The basic inventory spreadsheet was sent previously but we were able to collect additional email addresses for our state smalls so please replace the previous spreadsheet with this one.

Please let me know if you have any questions.

Thank you,

P.S. please ignore the email I sent a moment ago without the attachments

Mark-

Thank you for submitting the SSWS Basic Inventory. I reviewed the data, and it looks good. If you can provide additional emails, we will add them. Also, please let me know if you can provide any data for the Service Area Population.

I have attached a template for the SSWS Facility Inventory. I highlighted each SSWS that exists in our SDWIS database, and I drafted a partial entry for Hobson Park Apartments based on the information in SDWIS. Please have a look at the form and let me know if you have questions.

Thank you,
Jeffrey

EXTERNAL:

Hello Jeffrey,

Please see attached County Contacts and SSW Basic Inventory spreadsheets for Riverside County. Per our phone conversation today, we will need additional time to track down email addresses for many of our State Smalls. We will update the inventory spreadsheet when this task is completed but it will take at least a few weeks.

In addition, I have replaced the SSSW Facility Inventory file with the one you provided today.

Thank you,

Mark Abbott

Subject: SSWS and Domestic Well Water Quality Data Submission - Update

Good morning-

Thank you to the counties that have submitted their [County Contacts](#) (Excel file) and [SSWS Basic Inventory](#) (Excel file) already. If your files have not been submitted yet, please plan to submit these two **by the end of this week** (or share a status update, if necessary).

The January 11, 2021 webinar presentation and recording is now available on the [State Small Water System and Domestic Well Water Quality Data](#) website.

The [SSWS Facility Inventory](#) (Excel file) was recently **updated** and posted to the website. **Please use the updated file.** The update replaced the "Unique Local ID" (column C) with the "Facility ID (if already assigned)". For the SSWS Facility Inventory file, each system will need to have a PWSID already assigned in order to proceed (Unique Local ID is obsolete), and LPA counties (and former LPA counties) should already have a Facility ID assigned to the water system components (i.e. – well, distribution system, etc.). LPA counties (and former LPA counties) with existing Facility ID assignments should use those assignments to complete that column.

Please let me know if you have questions. Thank you for your assistance in this process.

Hi April,

Please create a check request for CR&R.

Invoice date: **08/17/2023 ***

Invoice#: **CRR FY22-23 SS3**

Vendor code: **28646, 8**

Accounting string: **209100-10000-4200420000-95100**

**The payment is coming out of a liability account so the 2nd pushback (accrual) does not apply.*

@Jimenez, Esther – Please include in the voucher payment tab for internal reference: **JE2501310**. Please attached the SUMMARY worksheet with the voucher. Please include the summary sheet to the WMI voucher.

@Alvarado, Olga – If CR&R (or WMI) reaches out to you, please send only the PIN detail report (68-0008-SS3 CR&R). All other attachments are for our voucher and dept reference.

Hi Ed,

Just wanted to circle back on the budget use report. It has been updated but should be finalized next week. I sat with Esme today for only a few minutes, so I plan to go over the report more in detail on Monday 6/19 with Vanna.

Report is attached. File is located here: [\\\\deh-12fs01.rivcoca.org\\deh\\DEH_ACCTG\\Accounts Payable_YE Report](\\\\deh-12fs01.rivcoca.org\\deh\\DEH_ACCTG\\Accounts Payable_YE Report)

April,

Unfortunately, I don't have a working knowledge of that process. Can you reach out to Esmeralda by email or phone so that she can give you a sense of what you have to do.

I'm sure that Vanna would be willing to share, but she may be working on more urgent items. I'll check with her to see if she has some time to go over this with you.

Thank you

Subject: Question

April,
Good afternoon.

I'm not sure whether you've received the required training as of yet, but there's a file in our budget folder that you'll be tasked with updating on a regular basis.

It's the "FY21.22 for FY23.24 budget use" file. You'll have to update the monthly FM postings. Not sure if Esmeralda or Vanna have mentioned this to you.

Thank you

Hi Daniel,

Would you be able to create a query that will include the Facility ID, name, site address & city to report 6307? In addition to the existing payment information, we would also like to see the related PE codes and their description on the report. Please see Sample attached, created using 6307 and combining data from the HazMat Inventory report and Invoices by Applied Date Range. Should this be doable please let us know. Thank you!

Mark-

Thank you for submitting the SSWS Basic Inventory. I reviewed the data, and it looks good. If you can provide additional emails, we will add them. Also, please let me know if you can provide any data for the Service Area Population.

I have attached a template for the SSWS Facility Inventory. I highlighted each SSWS that exists in our SDWIS database, and I drafted a partial entry for Hobson Park Apartments based on the information in SDWIS. Please have a look at the form and let me know if you have questions.

Thank you,
Jeffrey

EXTERNAL:

Hello Jeffrey,

Please see attached County Contacts and SSW Basic Inventory spreadsheets for Riverside County. Per our phone conversation today, we will need additional time to track down email addresses for many of our State Smalls. We will update the inventory spreadsheet when this task is completed but it will take at least a few weeks.

In addition, I have replaced the SSSW Facility Inventory file with the one you provided today.

Thank you,

Mark Abbott

Subject: SSWS and Domestic Well Water Quality Data Submission - Update

Good morning-

Thank you to the counties that have submitted their [County Contacts](#) (Excel file) and [SSWS Basic Inventory](#) (Excel file) already. If your files have not been submitted yet, please plan to submit these two **by the end of this week** (or share a status update, if necessary).

The January 11, 2021 webinar presentation and recording is now available on the [State Small Water System and Domestic Well Water Quality Data](#) website.

The [SSWS Facility Inventory](#) (Excel file) was recently **updated** and posted to the website. **Please use the updated file.** The update replaced the “Unique Local ID” (column C) with the “Facility ID (if already assigned)”. For the SSWS Facility Inventory file, each system will need to have a PWSID already assigned in order to proceed (Unique Local ID is obsolete), and LPA counties (and former LPA counties) should already have a Facility ID assigned to the water system components (i.e. – well, distribution system, etc.). LPA counties (and former LPA counties) with existing Facility ID assignments should use those assignments to complete that column.

Please let me know if you have questions. Thank you for your assistance in this process.

Jeffrey Albrecht, P.E.

Water Resource Control Engineer

Subject: RE: Tobacco Retailer - PE 1300
Attachments: Report as of 01.17.25.xlsx

Hi Vanna,

I apologize for the delay. Below are my findings. I wonder why the QC report you ran erroneously identified these records as missing from recurring billing, excluding the new records. Perhaps some of the variance below is due to OOB permits or I miscounted the new permits on the report.

MARCH – 2 records

PR0061321 – OOB and placed inactive on 1/2/25.
PR0089939 – OOB and placed inactive on 12/16/24.

AUGUST – 7 records

7 new records, payment collected via an application

SEPTEMBER – 115 records

107 billed in bulk invoicing
10 new records, payment collected via an application

OCTOBER – 116 records

103 billed in bulk invoicing
12 new records, payment collected via an application

NOVEMBER – 86 records

84 billed in bulk invoicing
3 new records, payment collected via an application

DECEMBER – 3 records

3 new records, payment collected via an application

Let me know if you need anything else.

Thank you,
Olga

Emily,

Your invoice should have been sent by the County of Riverside around the 2nd week of June. If you or your accounting office haven't received the invoice, please contact the County of Riverside (dehfiscal@rivco.org) to confirm that the invoice was sent. They recently transitioned to a new database/invoicing system and are still working things out.

As for the inspection, we perform site inspections on a 3-year cycle. You won't have another inspection until 2025. You must submit your HMBP update annually through CERS, which you have already done.

Please feel free to reach out to myself or Inspector Kinser with any additional questions.

Thank you,

Good morning Melissa,

Our facility's Haz Mat Mgmt Permit expired yesterday, 7/31/2024, but we have not seen any renewal invoice or been contacted to conduct an inspection to renew our permit. The permit was last issued on 9/26/23 so does this mean our facility will be inspected within the next two months and the permit is valid until then? Could you please provide any information you may have on this and advise next step?

Thank you,

Anna,

An alternative system may need to be considered. Geo Tek can try to perform shallow percolation testing for an Advanced Treatment Unit (ATU). Should you decide to perform shallow testing and propose an ATU, the associated percolation report must be submitted to this Department along with 3 copies of the Engineer of Record stamped plans with the ATU design.

Below is a link to the Local Agency Management Program. Please see Chapter 6 for requirements regarding ATU proposals.

<http://rivcoeh.org/Portals/0/documents/guidance/landuse/LAMP%20Final%20-%20Approved%2011.17.16.pdf?ver=2016-11-18-131838-090>

Please note you must obtain a passing percolation rate in the shallow percolation test pits in order to propose an ATU.

Contact me if you have any questions.

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good morning Anna,

Thank you for the clarification regarding the additional testing on Lot 2. I was the Environmental Health representative on-site Friday. Daniel's assistance was greatly appreciated.

During the site investigation, I evaluated the 19 ft. deep bore on Lot 1 and observed groundwater at 18 ft below ground surface. Groundwater at this depth would prevent seepage pits from being proposed on these parcels.

Please note the following items must be submitted prior to review completion:

1. Percolation report associated with Lot 2. Please include December 2018 and January 2019 test data for 5 ft. testing and deep testing on Lot 2 (6 total tests).
2. Floor plans for the daycare and the residential structure (I have 2 different floor plans for the daycare).
3. Scaled and detailed Engineer of Record stamped plans for each of the proposed septic systems. Please ensure the following items are included on the plot plans:
 - All components of the proposed septic systems including type and size of dispersal fields
 - Proposed 100% expansion dispersal fields

- Percolation test and bore locations
- Proposed structures, property lines, driveways, easements, parking, waterlines, water meter, power poles, waterways, and drainage

Thank you for your help! Please let me know if you have any questions.

Good morning Kristine:

It is my understanding that one of your representative was on site on Friday.

Please note that we were not trying "to fly under the radar" with our work on Friday. The last set of tests that we did for a leach line system for the residence were too slow. So I wanted to see if a seepage pit system would work. Hence, we were seeing if that would work by drilling a few deeper holes. Please know that if we decide to go this route, your firm will be contacted for our testing.

If you have any questions, please let me know.

Thank you!

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good afternoon:

I have just returned from the site. Our percolation and groundwater borings are still in place and visible. See attached picture. The stakes are faded, but they are still there. The groundwater boring is the stake furthest to the north, or left on the picture.

So that I can make sure my submittal per your corrections are correct the first time, I have a few questions/comments. I know Loren is anxious to start his project.

- I have not included waste flows in a previous percolation report. Can you please provide input? In regards to sizing, exhibits that were previously provided show a 1200 gallon tank. In regards to waste flows, we would need to verify that based on the operation. Please coordinate with the applicant in regards to number of staff

and children to provide accurate numbers. Please use Appendix H of the Uniform Plumbing Code as a reference.

- I will mail you a wet signed copy of our report dated January 22, 2018.
- We will be drilling this Friday for additional percolation testing for the residence. Yes, I will call in for a PR number. When the drilling is complete, I will let you know that the groundwater boring is in place. Once the percolation testing is completed, I will prepare another report and submit via pdf and follow up with a wet signed copy.
- I will make sure the plans submitted properly depict the proposed systems.

I believe this will cover all that is needed. If not, please let me know so that I can assist Loren in completing this portion of the project.

Thank you very much for your assistance!

To: Anna Scott <Private Information>; Wheeler, Timothy <TWHEELER@RIVCO.ORG> <Private Information>

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Anna,

Since this is a critical area and with a watercourse on the back end of the property, yes testing and any other requirements are necessary. Your location of testing is not located near enough to the area proposed for the home and since it is on the other side of a proposed property line, your report does not meet the requirements for the subdivision of property. As of this time, we have not been able to verify that groundwater detection borings are on site for the report for the day care and since we do not have the official calculation of the wastewater flows, DEH has yet to provide clearance for the septic system for the day care aspect of the project. Exhibits also need to be more clear about the area where the dispersal field is to be located since it cannot be located under impermeable surfaces (ex: concrete sidewalks). Exhibits show an area but this does not equate to the 1790 SF that is indicated.

Let me know if you have any further questions.

Good afternoon all:

Kristine, GeoTek does not feel that the percolation rate will change for the system proposed to be installed near the residence from the rate we obtained for the proposed system near the day care center. Is additional percolation testing really necessary?

Can you please let us know if additional testing is absolutely necessary?

Thank you very much for your assistance!

Importance: High

Loren,

I was concluding the COA for your project and saw that E. Health still had outstanding corrections on the project. Attached is the comments from their last review that still need to be satisfied.

I have include Kristine Kim with E. Health, who reviewed the project/PM and she can provide further details to what she needs to finish up and provide me with COA. I just got off the phone with her and she stated it shouldn't be difficult to get resolved and still stay on track for getting to DH in mid-January. Her phone number is 951-955-8932 or you can simply email her back.

I will also call you too

Anna,

An alternative system may need to be considered. Geo Tek can try to perform shallow percolation testing for an Advanced Treatment Unit (ATU). Should you decide to perform shallow testing and propose an ATU, the associated percolation report must be submitted to this Department along with 3 copies of the Engineer of Record stamped plans with the ATU design.

Below is a link to the Local Agency Management Program. Please see Chapter 6 for requirements regarding ATU proposals.

<http://rivcoeh.org/Portals/0/documents/guidance/landuse/LAMP%20Final%20-%20Approved%2011.17.16.pdf?ver=2016-11-18-131838-090>

Please note you must obtain a passing percolation rate in the shallow percolation test pits in order to propose an ATU.

Contact me if you have any questions.

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good morning Anna,

Thank you for the clarification regarding the additional testing on Lot 2. I was the Environmental Health representative on-site Friday. Daniel's assistance was greatly appreciated.

During the site investigation, I evaluated the 19 ft. deep bore on Lot 1 and observed groundwater at 18 ft below ground surface. Groundwater at this depth would prevent seepage pits from being proposed on these parcels.

Please note the following items must be submitted prior to review completion:

1. Percolation report associated with Lot 2. Please include December 2018 and January 2019 test data for 5 ft. testing and deep testing on Lot 2 (6 total tests).
2. Floor plans for the daycare and the residential structure (I have 2 different floor plans for the daycare).
3. Scaled and detailed Engineer of Record stamped plans for each of the proposed septic systems. Please ensure the following items are included on the plot plans:
 - All components of the proposed septic systems including type and size of dispersal fields
 - Proposed 100% expansion dispersal fields
 - Percolation test and bore locations
 - Proposed structures, property lines, driveways, easements, parking, waterlines, water meter, power poles, waterways, and drainage

Thank you for your help! Please let me know if you have any questions.

Good morning Kristine:

It is my understanding that one of your representative was on site on Friday.

Please note that we were not trying "to fly under the radar" with our work on Friday. The last set of tests that we did for a leach line system for the residence were too slow. So I wanted to see if a seepage pit system would work. Hence, we were seeing if that would work by drilling a few deeper holes. Please know that if we decide to go this route, your firm will be contacted for our testing.

If you have any questions, please let me know.

Thank you!

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good afternoon:

I have just returned from the site. Our percolation and groundwater borings are still in place and visible. See attached picture. The stakes are faded, but they are still there. The groundwater boring is the stake furthest to the north, or left on the picture.

So that I can make sure my submittal per your corrections are correct the first time, I have a few questions/comments. I know Loren is anxious to start his project.

- I have not included waste flows in a previous percolation report. Can you please provide input? In regards to sizing, exhibits that were previously provided show a 1200 gallon tank. In regards to waste flows, we would need to verify that based on the operation. Please coordinate with the applicant in regards to number of staff and children to provide accurate numbers. Please use Appendix H of the Uniform Plumbing Code as a reference.
- I will mail you a wet signed copy of our report dated January 22, 2018.
- We will be drilling this Friday for additional percolation testing for the residence. Yes, I will call in for a PR number. When the drilling is complete, I will let you know that the groundwater boring is in place. Once the percolation testing is completed, I will prepare another report and submit via pdf and follow up with a wet signed copy.
- I will make sure the plans submitted properly depict the proposed systems.

I believe this will cover all that is needed. If not, please let me know so that I can assist Loren in completing this portion of the project.

Thank you very much for your assistance!

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Anna,

Since this is a critical area and with a watercourse on the back end of the property, yes testing and any other requirements are necessary. Your location of testing is not located near enough to the area proposed for the home and since it is on the other side of a proposed property line, your report does not meet the requirements for the subdivision of property. As of this time, we have not been able to verify that groundwater detection borings are on site for the report for the day care and since we do not have the official calculation of the wastewater flows, DEH has yet to provide clearance for the septic system for the day care aspect of the project. Exhibits also need to be more clear about the area where the dispersal field is to be located since it cannot be located under impermeable surfaces (ex: concrete sidewalks). Exhibits show an area but this does not equate to the 1790 SF that is indicated.

Let me know if you have any further questions.

Importance: High

Loren,

I was concluding the COA for your project and saw that E. Health still had outstanding corrections on the project. Attached is the comments from their last review that still need to be satisfied.

I have include Kristine Kim with E. Health, who reviewed the project/PM and she can provide further details to what she needs to finish up and provide me with COA. I just got off the phone with her and she stated it shouldn't be difficult to get resolved and still stay on track for getting to DH in mid-January. Her phone number is 951-955-8932 or you can simply email her back.

I will also call you too

Morning all!

Well the rain is delaying all of my drilling projects.

I know Luanne provided her updated materials last week. I just need to find an area on Lot 2 that will work for a leach field. I am hoping that this does not delay Loren's plans. I believe he quoted a date of January 22nd for a hearing? Loren? I apologize, but I don't recall what was happening on the 22nd.

Thank you all for your understanding and assistance with this project.

If you have any questions at this time, please let me know.

Thank you.

Good morning Anna,

Thank you for the clarification regarding the additional testing on Lot 2. I was the Environmental Health representative on-site Friday. Daniel's assistance was greatly appreciated.

During the site investigation, I evaluated the 19 ft. deep bore on Lot 1 and observed groundwater at 18 ft below ground surface. Groundwater at this depth would prevent seepage pits from being proposed on these parcels.

Please note the following items must be submitted prior to review completion:

1. Percolation report associated with Lot 2. Please include December 2018 and January 2019 test data for 5 ft. testing and deep testing on Lot 2 (6 total tests).
2. Floor plans for the daycare and the residential structure (I have 2 different floor plans for the daycare).
3. Scaled and detailed Engineer of Record stamped plans for each of the proposed septic systems. Please ensure the following items are included on the plot plans:
 - All components of the proposed septic systems including type and size of dispersal fields
 - Proposed 100% expansion dispersal fields
 - Percolation test and bore locations
 - Proposed structures, property lines, driveways, easements, parking, waterlines, water meter, power poles, waterways, and drainage

Thank you for your help! Please let me know if you have any questions.

Good morning Kristine:

It is my understanding that one of your representative was on site on Friday.

Please note that we were not trying “to fly under the radar” with our work on Friday. The last set of tests that we did for a leach line system for the residence were too slow. So I wanted to see if a seepage pit system would work. Hence, we were seeing if that would work by drilling a few deeper holes. Please know that if we decide to go this route, your firm will be contacted for our testing.

If you have any questions, please let me know.

Thank you!

Good afternoon:

I have just returned from the site. Our percolation and groundwater borings are still in place and visible. See attached picture. The stakes are faded, but they are still there. The groundwater boring is the stake furthest to the north, or left on the picture.

So that I can make sure my submittal per your corrections are correct the first time, I have a few questions/comments. I know Loren is anxious to start his project.

- I have not included waste flows in a previous percolation report. Can you please provide input? In regards to sizing, exhibits that were previously provided show a 1200 gallon tank. In regards to waste flows, we would need to verify that based on the operation. Please coordinate with the applicant in regards to number of staff and children to provide accurate numbers. Please use Appendix H of the Uniform Plumbing Code as a reference.
- I will mail you a wet signed copy of our report dated January 22, 2018.
- We will be drilling this Friday for additional percolation testing for the residence. Yes, I will call in for a PR number. When the drilling is complete, I will let you know that the groundwater boring is in place. Once the percolation testing is completed, I will prepare another report and submit via pdf and follow up with a wet signed copy.
- I will make sure the plans submitted properly depict the proposed systems.

I believe this will cover all that is needed. If not, please let me know so that I can assist Loren in completing this portion of the project.

Thank you very much for your assistance!

Anna,

Since this is a critical area and with a watercourse on the back end of the property, yes testing and any other requirements are necessary. Your location of testing is not located near enough to the area proposed for the home and since it is on the other side of a proposed property line, your report does not meet the requirements for the subdivision of property. As of this time, we have not been able to verify that groundwater detection borings are on site for the

report for the day care and since we do not have the official calculation of the wastewater flows, DEH has yet to provide clearance for the septic system for the day care aspect of the project. Exhibits also need to be more clear about the area where the dispersal field is to be located since it cannot be located under impermeable surfaces (ex: concrete sidewalks). Exhibits show an area but this does not equate to the 1790 SF that is indicated.

Let me know if you have any further questions.

Anna,

A rate of 120 minutes per inch is essentially impermeable strata. The maximum rate allowed is 60 minutes per inch, which is associated with a design rate of 120 sf per 100 gallons of septic tank capacity.

Just to clarify, did you get 120 minutes per inch, or 120 sf/100gallons? You may be able to work with a design rate of 120 sf/100 gallons, as this lot has sufficient area and a septic capacity of only 750 gallons (if you use plastic chambers, you would need 200 linear feet of leach line; with 2 ft. of rock you would need 150 linear feet; etc.).

If you did have a rate of 120 minutes per inch at 5 ft below ground surface, this would pose a problem, as you need to maintain 8 ft separation between the bottom of the dispersal field and impermeable strata. In this case, I would retest on a different section of Lot 2 to see if you can get a better rate.

I hope this helps!

Good afternoon:

You are very welcome! I am glad that Daniel was able to assist you!

Interesting regarding the groundwater. We did not encounter groundwater during our drilling. This does not help our scenario for Lot 2 then. Our percolation rates for a leach field in the area of Lot 2 were a lot slower than Lot 1. Our rates (prior to using a gravel correction) were right at the limit of 120 minutes per inch at a depth of approximately 5 feet bgs. I was hoping to use seepage pits as the percolation rates get better at the site the deeper you go when heading north.

Any thoughts? Any suggestions?

Thank you!

Anna,

A rate of 120 minutes per inch is essentially impermeable strata. The maximum rate allowed is 60 minutes per inch, which is associated with a design rate of 120 sf per 100 gallons of septic tank capacity.

Just to clarify, did you get 120 minutes per inch, or 120 sf/100gallons? You may be able to work with a design rate of 120 sf/100 gallons, as this lot has sufficient area and a septic capacity of only 750 gallons (if you use plastic chambers, you would need 200 linear feet of leach line; with 2 ft. of rock you would need 150 linear feet; etc.).

If you did have a rate of 120 minutes per inch at 5 ft below ground surface, this would pose a problem, as you need to maintain 8 ft separation between the bottom of the dispersal field and impermeable strata. In this case, I would retest on a different section of Lot 2 to see if you can get a better rate.

I hope this helps!

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good afternoon:

You are very welcome! I am glad that Daniel was able to assist you!

Interesting regarding the groundwater. We did not encounter groundwater during our drilling. This does not help our scenario for Lot 2 then. Our percolation rates for a leach field in the area of Lot 2 were a lot slower than Lot 1. Our rates (prior to using a gravel correction) were right at the limit of 120 minutes per inch at a depth of approximately 5 feet bgs. I was hoping to use seepage pits as the percolation rates get better at the site the deeper you go when heading north.

Any thoughts? Any suggestions?

Thank you!

Private Information

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good morning Anna,

Thank you for the clarification regarding the additional testing on Lot 2. I was the Environmental Health representative on-site Friday. Daniel's assistance was greatly appreciated.

During the site investigation, I evaluated the 19 ft. deep bore on Lot 1 and observed groundwater at 18 ft below ground surface. Groundwater at this depth would prevent seepage pits from being proposed on these parcels.

Please note the following items must be submitted prior to review completion:

1. Percolation report associated with Lot 2. Please include December 2018 and January 2019 test data for 5 ft. testing and deep testing on Lot 2 (6 total tests).
2. Floor plans for the daycare and the residential structure (I have 2 different floor plans for the daycare).
3. Scaled and detailed Engineer of Record stamped plans for each of the proposed septic systems. Please ensure the following items are included on the plot plans:
 - All components of the proposed septic systems including type and size of dispersal fields
 - Proposed 100% expansion dispersal fields
 - Percolation test and bore locations
 - Proposed structures, property lines, driveways, easements, parking, waterlines, water meter, power poles, waterways, and drainage

Thank you for your help! Please let me know if you have any questions.

Good morning Kristine:

It is my understanding that one of your representative was on site on Friday.

Please note that we were not trying “to fly under the radar” with our work on Friday. The last set of tests that we did for a leach line system for the residence were too slow. So I wanted to see if a seepage pit system would work. Hence, we were seeing if that would work by drilling a few deeper holes. Please know that if we decide to go this route, your firm will be contacted for our testing.

If you have any questions, please let me know.

Thank you!

Subject: RE: PP26337 / PM36402 - Environmental Health still has corrections that need to be addressed

Good afternoon:

I have just returned from the site. Our percolation and groundwater borings are still in place and visible. See attached picture. The stakes are faded, but they are still there. The groundwater boring is the stake furthest to the north, or left on the picture.

So that I can make sure my submittal per your corrections are correct the first time, I have a few questions/comments. I know Loren is anxious to start his project.

- I have not included waste flows in a previous percolation report. Can you please provide input? In regards to sizing, exhibits that were previously provided show a 1200 gallon tank. In regards to waste flows, we would need to verify that based on the operation. Please coordinate with the applicant in regards to number of staff and children to provide accurate numbers. Please use Appendix H of the Uniform Plumbing Code as a reference.
- I will mail you a wet signed copy of our report dated January 22, 2018.
- We will be drilling this Friday for additional percolation testing for the residence. Yes, I will call in for a PR number. When the drilling is complete, I will let you know that the groundwater boring is in place. Once the percolation testing is completed, I will prepare another report and submit via pdf and follow up with a wet signed copy.
- I will make sure the plans submitted properly depict the proposed systems.

I believe this will cover all that is needed. If not, please let me know so that I can assist Loren in completing this portion of the project.

Thank you very much for your assistance!

Anna,

Since this is a critical area and with a watercourse on the back end of the property, yes testing and any other requirements are necessary. Your location of testing is not located near enough to the area proposed for the home and since it is on the other side of a proposed property line, your report does not meet the requirements for the subdivision of property. As of this time, we have not been able to verify that groundwater detection borings are on site for the report for the day care and since we do not have the official calculation of the wastewater flows, DEH has yet to provide clearance for the septic system for the day care aspect of the project. Exhibits also need to be more clear about the area where the dispersal field is to be located since it cannot be located under impermeable surfaces (ex: concrete sidewalks). Exhibits show an area but this does not equate to the 1790 SF that is indicated.

Let me know if you have any further questions.

Stephanie,

That package was received. All the info is in PDF. We were looking for them in excel worksheet, for example.

Good morning Kristine,
Thank you for your quick response. Along with the documents that were emailed, you should have received a thumb drive with the Project and Borehole Data Tables, Figures and the Appendices. The package was sent via FedEx and I tracked the package and it was delivered on 10/10/2019 and signed for by J. Perna. Please let me know if you did not receive it and I can send again. Also, if you need additional documentation, I can provide that as well.

Kind regards,

Good morning Kristine,

On behalf of Caltrans, Amec Foster Wheeler Environment & Infrastructure, Inc. (currently Wood Environment & Infrastructure Solutions, Inc) prepared the **attached** subject report for your review as part of the Caltrans Statewide Borehole Resolution Program (SBRP). The following items are attached to this email.

1. Transmittal Memo- Riverside County Closure Report 20191003
2. Riverside County LEA Closure Report Acknowledgement page
3. Riverside County LEA Closure Report

In addition, we are sending you a thumb drive with the electronic files of the entire report for your review.

Caltrans would like to resolve the SBRP boreholes installed by Caltrans in Riverside County through signed acknowledgment of this report and concurrence that no further action is required. Please refer to the attached acknowledgement pages that are provided with this report. Two copies of the acknowledgment page have been mailed to you as well. Please sign and return one copy in the self-addressed stamped envelope provided and return it to Stephanie Antonucci, Senior Project

Coordinator for the SBRP. If you prefer, you may sign and email a copy of the acknowledgement page to stephanie.antonucci@woodplc.com

If you have questions regarding the report, please contact Sarah Raker at (707) 783-3841 or email at sarah.raker@woodplc.com.

Upon reviewing the Geotechnical Investigative Borehole Closure Report, please sign and return a copy of the Acknowledgment Page via email or mail to the address listed below,

Hi Shantel,

Based on feedback from the LPAs CEU has revised the workplan a bit. We moved the LCRR violations to a table in Attachment C.

The attached document reflects this change and removal of the LCRR violations from the Enforcement Section.

If you wouldn't mind reviewing, commenting as needed this revised document it would be appreciated.

cheers,

Hi Shantel,

Thank you for getting the WP to me! Attached are a couple of comments, systems I am not seeing with an inspection, a couple of requests to let me know why something is being deleted.

I think there may be something funky going on in our db wrt systems you added in for SNSVs that I didn't see when pulling data. I'm going to ask DMU to see if the systems which have a "Permit" inspection more recent than the last SNSV and a Next Due Date in 2031 are preventing them from correctly identifying the SNSV needs.

And, thank you for the detailed comments and notes – very very much appreciated!

cheers,

Lisa Jensen

Subject: DRAFT FY2025/2026 Workplan now available

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

This email is being sent as a BCC to LPA contacts I am working with, District Engineers and staff with LPAs.

Good morning, LPAs:

The Workplan template for Fiscal Year 2025-2026 (FY 2025-2026) is now available on the [FTP site](#) for download. The Workplan is a standard template reviewed and approved by CCDEH. We will not accept any previous fiscal year Workplan as it does not have the same information found in the current, approved template.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 2025-2026.

Please note the following:

- *Have track changes turned on. Do not turn off track changes.*
- *Do not sign until requested to do so.*
- LPAs are **required** to review and complete the fields and tables with yellow highlighted <comments in angle braces> or tables with headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated with surveys due before June 30, 2026. If these were, or will be, completed prior to June 30, 2025, please strike out the entry by using the track changes feature or add a comment. **Do not delete the row.**
- Under Date Sanitary Survey to be Completed, input a date which ensures completion of Sanitary Survey within the appropriate timeframe, or the month and year to be completed.
- Completed sanitary survey information is required to be entered into SDWIS by July 30. If completed SNSV information is included prior to the Workplan being sent for approval, CEU staff will make changes to the workplan.
- If a sanitary survey table says "NONE", it means that there were no sanitary surveys past due or due in the coming fiscal year. *Do not add water systems which are not required to be completed.*
- If there are water systems the LPA would like to perform an SNSV which are not required, use the table under: **The LPA also plans to conduct the following additional sanitary surveys during the fiscal year.**
- **New:** Under Enforcement Actions, the first table, citations or compliance order, has been pre-populated with violations which have no enforcement action. The second table, compliance orders, has been pre-populated with systems listed in the SAFER database as being under a current compliance order. If the LPA plans to issue a citation or compliance order or knows of orders which need to be issued – please add them to the appropriate table.
- **New:** Addendum A is now CEU FY2025/2026 Focus Area and identifies the eight (8) U.S. EPA required elements in a sanitary survey and the ninth element required by the State of California for Community Systems.
- **New:** Addendum B is Water System Inventory.
- The inventory has been populated with the current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- All the data reports used to populate tables have been uploaded to the FTP site as well to help clarify where the data came from and what I saw while preparing this draft document.

Upon completion, please email, or upload to the FTP site, the completed Workplan to me **June 27, 2025** and I will review it to ensure the Workplan meets all requirements.

Once the Workplan is approved by myself and the District Engineer, I will request digital signatures from the LPA. Do not add a digital or physical signature until requested to do so. The final, signed copy of the Workplan will be emailed to you and the District Engineer.

Hi Shantel,

Thank you for getting the WP to me! Attached are a couple of comments, systems I am not seeing with an inspection, a couple of requests to let me know why something is being deleted.

I think there may be something funky going on in our db wrt systems you added in for SNSVs that I didn't see when pulling data. I'm going to ask DMU to see if the systems which have a "Permit" inspection more recent than the last SNSV and a Next Due Date in 2031 are preventing them from correctly identifying the SNSV needs.

And, thank you for the detailed comments and notes – very very much appreciated!

cheers,

Subject: DRAFT FY2025/2026 Workplan now available

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

This email is being sent as a BCC to LPA contacts I am working with, District Engineers and staff with LPAs.

Good morning, LPAs:

The Workplan template for Fiscal Year 2025-2026 (FY 2025-2026) is now available on the [FTP site](#) for download. The Workplan is a standard template reviewed and approved by CCDEH. We will not accept any previous fiscal year Workplan as it does not have the same information found in the current, approved template.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 2025-2026.

Please note the following:

- *Have track changes turned on. Do not turn off track changes.*
- *Do not sign until requested to do so.*
- LPAs are **required** to review and complete the fields and tables with yellow highlighted <comments in angle braces> or tables with headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated with surveys due before June 30, 2026. If these were, or will be, completed prior to June 30, 2025, please strike out the entry by using the track changes feature or add a comment. **Do not delete the row.**
- Under Date Sanitary Survey to be Completed, input a date which ensures completion of Sanitary Survey within the appropriate timeframe, or the month and year to be completed.
- Completed sanitary survey information is required to be entered into SDWIS by July 30. If completed SNSV information is included prior to the Workplan being sent for approval, CEU staff will make changes to the workplan.
- If a sanitary survey table says "NONE", it means that there were no sanitary surveys past due or due in the coming fiscal year. *Do not add water systems which are not required to be completed.*
- If there are water systems the LPA would like to perform an SNSV which are not required, use the table under: **The LPA also plans to conduct the following additional sanitary surveys during the fiscal year.**
- **New:** Under Enforcement Actions, the first table, citations or compliance order, has been pre-populated with violations which have no enforcement action. The second table, compliance orders, has been pre-populated with systems listed in the SAFER database as being under a current compliance order. If the LPA plans to issue a citation or compliance order or knows of orders which need to be issued – please add them to the appropriate table.
- **New:** Addendum A is now CEU FY2025/2026 Focus Area and identifies the eight (8) U.S. EPA required elements in a sanitary survey and the ninth element required by the State of California for Community Systems.
- **New:** Addendum B is Water System Inventory.
- The inventory has been populated with the current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- All the data reports used to populate tables have been uploaded to the FTP site as well to help clarify where the data came from and what I saw while preparing this draft document.

Upon completion, please email, or upload to the FTP site, the completed Workplan to me **June 27, 2025** and I will review it to ensure the Workplan meets all requirements.

Once the Workplan is approved by myself and the District Engineer, I will request digital signatures from the LPA. Do not add a digital or physical signature until requested to do so. The final, signed copy of the Workplan will be emailed to you and the District Engineer.

Hi Shantel,

Based on feedback from the LPAs CEU has revised the workplan a bit. We moved the LCRR violations to a table in Attachment C.

The attached document reflects this change and removal of the LCRR violations from the Enforcement Section.

If you wouldn't mind reviewing, commenting as needed this revised document it would be appreciated.

cheers,

- All the data reports used to populate tables have been uploaded to the FTP site as well to help clarify where the data came from and what I saw while preparing this draft document.

Upon completion, please email, or upload to the FTP site, the completed Workplan to me **June 27, 2025** and I will review it to ensure the Workplan meets all requirements.

Once the Workplan is approved by myself and the District Engineer, I will request digital signatures from the LPA. Do not add a digital or physical signature until requested to do so. The final, signed copy of the Workplan will be emailed to you and the District Engineer.

Riverside County State Small Inventory Update Request

Hello Shantel,

My name is Samantha Mak and I am the Division of Drinking Water SB 552 and Drought Response coordinator for California Counties. My role is to help assist Counties to comply with SB 552 and answer any questions you may have regarding drought preparedness. Part of my work is to ensure that the State of California is up to date with the existing County state small water system information. The information we currently have on state small water systems in Alpine County is shown in the three attachments collected in 2021, however, the list and system data may now be outdated.

Please take a look at the three attachments (Contacts, Basic Inventory, Facility Inventory) and fill in/change any information that needs updating. Please contact me if you have any questions and return the updated spreadsheet by the **end of the month, July 31st**, or if there are no changes you can just let me know. Thank you for your time and have a wonderful day.

Thank you,

Samantha Mak
Water Resource Control Engineer

Lisa's comments below. I made comments on our systems. Please take a look and upload to share point. I can't figure out how...

Thank you for getting the WP to me! Attached are a couple of comments, systems I am not seeing with an inspection, a couple of requests to let me know why something is being deleted.

I think there may be something funky going on in our db wrt systems you added in for SNSVs that I didn't see when pulling data. I'm going to ask DMU to see if the systems which have a "Permit" inspection more recent than the last SNSV and a Next Due Date in 2031 are preventing them from correctly identifying the SNSV needs.

And, thank you for the detailed comments and notes – very very much appreciated!

Subject: DRAFT FY2025/2026 Workplan now available

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

This email is being sent as a BCC to LPA contacts I am working with, District Engineers and staff with LPAs.

Good morning, LPAs:

The Workplan template for Fiscal Year 2025-2026 (FY 2025-2026) is now available on the [FTP site](#) for download. The Workplan is a standard template reviewed and approved by CCDEH. We will not accept any previous fiscal year Workplan as it does not have the same information found in the current, approved template.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 2025-2026.

Please note the following:

- *Have track changes turned on. Do not turn off track changes.*
- *Do not sign until requested to do so.*
- LPAs are **required** to review and complete the fields and tables with yellow highlighted <comments in angle braces> or tables with headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated with surveys due before June 30, 2026. If these were, or will be, completed prior to June 30, 2025, please strike out the entry by using the track changes feature or add a comment. **Do not delete the row.**
- Under Date Sanitary Survey to be Completed, input a date which ensures completion of Sanitary Survey within the appropriate timeframe, or the month and year to be completed.
- Completed sanitary survey information is required to be entered into SDWIS by July 30. If completed SNSV information is included prior to the Workplan being sent for approval, CEU staff will make changes to the workplan.
- If a sanitary survey table says “NONE”, it means that there were no sanitary surveys past due or due in the coming fiscal year. *Do not add water systems which are not required to be completed.*
- If there are water systems the LPA would like to perform an SNSV which are not required, use the table under: The LPA also plans to conduct the following additional sanitary surveys during the fiscal year.
- **New:** Under Enforcement Actions, the first table, citations or compliance order, has been pre-populated with violations which have no enforcement action. The second table, compliance orders, has been pre-populated with systems listed in the SAFER database as being under a current compliance order. If the LPA plans to issue a citation or compliance order or knows of orders which need to be issued – please add them to the appropriate table.
- **New:** Addendum A is now CEU FY2025/2026 Focus Area and identifies the eight (8) U.S. EPA required elements in a sanitary survey and the ninth element required by the State of California for Community Systems.
- **New:** Addendum B is Water System Inventory.
- The inventory has been populated with the current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- All the data reports used to populate tables have been uploaded to the FTP site as well to help clarify where the data came from and what I saw while preparing this draft document.

Upon completion, please email, or upload to the FTP site, the completed Workplan to me **June 27, 2025** and I will review it to ensure the Workplan meets all requirements.

Once the Workplan is approved by myself and the District Engineer, I will request digital signatures from the LPA. Do not add a digital or physical signature until requested to do so. The final, signed copy of the Workplan will be emailed to you and the District Engineer.

Subject: Greg Reed response for 25-1308

Hi all,

Please see my draft of response to Greg Reed for PRS 25-1308:

Please see uploaded records "weber maps.pdf", "original map.pdf", and "WP0029371" "W3" on "weber maps.pdf" from Request #25-781 was re-named "Well #2" at some time after "W1" was no longer in use. The first inspection date and report for W3, later Well #2, could not be found in our records. The electrical permit number associated with W3, later Well #2, could not be found in our records. The date for the map titled "original map.pdf" could not be found in our records. The well completion report associated with W3, later Well #2, shows the flow in GPM in the uploaded record "WP0029371".

The attachments above are what I uploaded to NextRequest. I haven't released them yet. Jasmin Villagomez, whom I believe is at county counsel, inquired if we had responsive records. I wanted to pass this to both of you before getting back to Jasmin.

Thanks,

Subject: Greg Reed response for 25-1308

Hi all,

Please see my draft of response to Greg Reed for PRS 25-1308:

Please see uploaded records "weber maps.pdf", "original map.pdf", and "WP0029371" "W3" on "weber maps.pdf" from Request #25-781 was re-named "Well #2" at some time after "W1" was no longer in use. The first inspection date and report for W3, later Well #2, could not be found in our records. The electrical permit number associated with W3, later Well #2, could not be found in our records. The date for the map titled "original map.pdf" could not be found in our records. The well completion report associated with W3, later Well #2, shows the flow in GPM in the uploaded record "WP0029371".

The attachments above are what I uploaded to NextRequest. I haven't released them yet. Jasmin Villagomez, whom I believe is at county counsel, inquired if we had responsive records. I wanted to pass this to both of you before getting back to Jasmin.

Thanks,

Ryan Olney

Hi Mike,

Thank you for the updated Attachment B. I'm not seeing the same information in SDWIS on a few items that you are so I'm including here my notes for Attachment B along with the reports used to create Attachment B for these items.

regards,
Lisa

Hi Mike and Shantel,

Attached please find revised Workplan with my notes and edits. For those items which were deleted, I've added them back. Rather than turning off track changes, please leave track changes on. If you want to remove an item from the workplan, please delete. With track changes it will stay visible so anyone reviewing will know the LPA is recommending deletion. In addition, please include a comment with why it should be deleted.

For those PWS' in the HR2W table, these came from the HR2W list. If something should be deleted anyone reviewing needs to understand why that recommendation is being made.

For those items listed in SNSV, the systems were pulled from mDWW. It is possible between when the list was pulled and the end of June the SNSV occurred and was updated in mDWW by the end of July. I added those systems back and did a spot check. For the systems I looked up, they all still need an SNSV.

If the LPA could review, edit, add notes, and send it back by Friday, August 9, it would be appreciated.

Thank you,
Lisa

Subject: IMPORTANT ANNOUNCEMENT: FY 24-25 LPA Workplan Templates Available on FTP

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

This email is being sent as a BCC to the LPA contacts, District Engineers and DDW staff who are assigned to LPAs.

Hello LPAs:

The Workplan template for Fiscal Year 2024-2025 (FY 24-25) is now available on the [FTP site](#) for download. The Workplan format has been updated to reflect collection of digital signatures, current information, and to assist CEU staff in the review processes. We will not accept any previous FY Workplan as they are not formatted the same.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 24-25.

Please note the following:

- *Do not turn off track changes.*
- *Do not sign this document until requested to do so.*

- LPAs are **required** to review and complete the fields and tables with yellow highlighted **<comments in angle braces>** or table headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated this section with surveys currently due based on the completion date of the last sanitary survey in SDWIS as well as the surveys due during the next fiscal year.
 - If these were, or will be, completed prior to 6/30/2024, please strike out the entry by using the track changes feature or add a comment. **Do not delete the row.**
 - Completed sanitary survey information is to be entered into SDWIS by 6/17/2024. CEU staff will make changes to the workplan once sanitary surveys are entered in SDWIS. If adding survey(s) to the work plan, **use track changes.** You may also use a different color to indicate this was added by the LPA.
 - If a sanitary survey table is blank, it means that there were no sanitary surveys past due or due in the coming fiscal year.
- The inventory has been pre-populated with current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- Verify the name and title of the LPA representative in the signature block under approvals. If the name indicated is incorrect, please make a comment as to who should be the LPA representative.

Upon completion, please email the revised Word document to CEU assigned staff member (see chart below). The CEU staff member is identified at the end of the Workplan. The CEU staff member will review and work with the LPA and District Engineer to ensure the Workplan meets all requirements.

Current CEU Staff Assigned to LPAs

Alice Lopes	Brendan O'Sullivan	Lisa Jensen
Calaveras	Alpine	Imperial
Kings	Butte	Monterey
Madera	Contra Costa	Placer
Mono	El Dorado	Plumas
Napa	Nevada	Riverside
San Bernardino	Sacramento	San Luis Obispo
San Joaquin	Tehama	Santa Barbara
Stanislaus	Yolo	Santa Cruz
	Yuba	Shasta

Once the Workplan is approved by the CEU staff and the District Engineer, the CEU staff member will request digital signatures from all parties. **Do not add digital signature until requested to do so.** The final, signed copy of the Workplan will be emailed to the LPA and District Engineer.

Please submit your workplan to your assigned CEU staff member by **July 3, 2024**.

We will not accept any previous FY Workplan as they are not formatted the same.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 24-25.

Please note the following:

- Do not turn off track changes.
- Do not sign this document until requested to do so.
- LPAs are **required** to review and complete the fields and tables with yellow highlighted <comments in angle braces> or table headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated this section with surveys currently due based on the completion date of the last sanitary survey in SDWIS as well as the surveys due during the next fiscal year.
 - If these were, or will be, completed prior to 6/30/2024, please strike out the entry by using the track changes feature or add a comment. Do not delete the row.

- Completed sanitary survey information is to be entered into SDWIS by 6/17/2024. CEU staff will make changes to the workplan once sanitary surveys are entered in SDWIS. If adding survey(s) to the work plan, use track changes. You may also use a different color to indicate this was added by the LPA.
 - If a sanitary survey table is blank, it means that there were no sanitary surveys past due or due in the coming fiscal year.
- The inventory has been pre-populated with current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- Verify the name and title of the LPA representative in the signature block under approvals. If the name indicated is incorrect, please make a comment as to who should be the LPA representative.

Upon completion, please email the revised Word document to CEU assigned staff member (see chart below). The CEU staff member is identified at the end of the Workplan. The CEU staff member will review and work with the LPA and District Engineer to ensure the Workplan meets all requirements.

Current CEU Staff Assigned to LPAs

Alice Lopes	Brendan O'Sullivan	Lisa Jensen
Calaveras	Alpine	Imperial
Kings	Butte	Monterey
Madera	Contra Costa	Placer
Mono	El Dorado	Plumas
Napa	Nevada	Riverside
San Bernardino	Sacramento	San Luis Obispo
San Joaquin	Tehama	Santa Barbara
Stanislaus	Yolo	Santa Cruz
	Yuba	Shasta

Once the Workplan is approved by the CEU staff and the District Engineer, the CEU staff member will request digital signatures from all parties. **Do not add digital signature until requested to do so.** The final, signed copy of the Workplan will be emailed to the LPA and District Engineer.

Please submit your workplan to your assigned CEU staff member by **July 3, 2024**.

Hi Mike and Shantel,

As a result of the request to add CalCode systems to the permitting list, I've revised the Riverside workplan to reflect these CalCode Systems. Please leave track changes on for review.

Thank you,
Lisa

Subject: IMPORTANT ANNOUNCEMENT: FY 24-25 LPA Workplan Templates Available on FTP

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

This email is being sent as a BCC to the LPA contacts, District Engineers and DDW staff who are assigned to LPAs.

Hello LPAs:

The Workplan template for Fiscal Year 2024-2025 (FY 24-25) is now available on the [FTP site](#) for download. The Workplan format has been updated to reflect collection of digital signatures, current information, and to assist CEU staff in the review processes. We will not accept any previous FY Workplan as they are not formatted the same.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 24-25.

Please note the following:

- Do not turn off track changes.
- Do not sign this document until requested to do so.
- LPAs are **required** to review and complete the fields and tables with yellow highlighted <comments in angle braces> or table headers highlighted in yellow.

- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated this section with surveys currently due based on the completion date of the last sanitary survey in SDWIS as well as the surveys due during the next fiscal year.
 - If these were, or will be, completed prior to 6/30/2024, please strike out the entry by using the track changes feature or add a comment. *Do not delete the row.*
 - Completed sanitary survey information is to be entered into SDWIS by 6/17/2024. CEU staff will make changes to the workplan once sanitary surveys are entered in SDWIS. If adding survey(s) to the work plan, *use track changes.* You may also use a different color to indicate this was added by the LPA.
 - If a sanitary survey table is blank, it means that there were no sanitary surveys past due or due in the coming fiscal year.
- The inventory has been pre-populated with current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- Verify the name and title of the LPA representative in the signature block under approvals. If the name indicated is incorrect, please make a comment as to who should be the LPA representative.

Upon completion, please email the revised Word document to CEU assigned staff member (see chart below). The CEU staff member is identified at the end of the Workplan. The CEU staff member will review and work with the LPA and District Engineer to ensure the Workplan meets all requirements.

Current CEU Staff Assigned to LPAs

Alice Lopes	Brendan O'Sullivan	Lisa Jensen
Calaveras	Alpine	Imperial
Kings	Butte	Monterey
Madera	Contra Costa	Placer
Mono	El Dorado	Plumas
Napa	Nevada	Riverside
San Bernardino	Sacramento	San Luis Obispo
San Joaquin	Tehama	Santa Barbara
Stanislaus	Yolo	Santa Cruz
	Yuba	Shasta

Once the Workplan is approved by the CEU staff and the District Engineer, the CEU staff member will request digital signatures from all parties. *Do not add digital signature until requested to do so.* The final, signed copy of the Workplan will be emailed to the LPA and District Engineer.

Please submit your workplan to your assigned CEU staff member by **July 3, 2024**.

Good morning,

Understood, however the comments regarding why systems are to be removed was part of the instructions provided by Joseph. The template provided by DDW was already auto filled with systems based on their report pulled from SDWIS. I agree that some of the comments could have been removed. If there are not any further corrections I can resubmit? Sincerely,

Subject: RE: Workplan corrections

Good morning All!

For the next submittal (or future official submittals) to Lisa, please remove the information that will not be submitted. When I asked to keep comments, my intent was that we keep the comments internally so that future staff can understand the logic of why we removed, why we did things, etc... If the comment is being used to convey information to Lisa or DDW, then those comments can be kept for the official submittal but I do expect that Shantel and Mike will also filter those comments and deem what is appropriate for actual submittal.

Please also remove any commentary like "we completed remove" should just result in the comment being removed and the item being removed. I would also like you to remove any comments like my questions about when facilities were inspected, if those were inspected, remove the comment and the item.

Let me know if you need further clarification as to what should officially submitted on the Department's behalf.

Thank you for your work on this. When are you intending to complete and re-submit?

Sincerely,

Kristine Kim

Attachments: 1st Correction letter.pdf; Calle Cancion-Temecula_100_ CD REV 4_231006-E_S&S.pdf

Daniel is the engineer/contractor for the applicant and has called each department concerned that we DEH and Fire is holding up his project and he is in a panic because the BNR expires on November 3 and they are all out of extensions. He recently submitted a new site plan and specification sheets through plus (see attachment) However I did not see the items you listed on the correction sheet. This structure is a commercial structure so ensure it is not receiving water from a water well. Can you reach out to the engineer Daniel and let him know what is needed again. Danie

Hello Manny,

LPA63 has received and currently reviewing the PTR for a project called Galway Highland Sporting Grounds. Please let me know if you have any questions/comments for the review. Thank you.

Respectfully,
Shantel Bacon
Landuse and Water Resources

FYI

Watermaster – Santa Margarita River Watershed: The Watermaster has determined that the subject parcels (APN 917-150-007 and APN 917-240-037) are subject to the continuing jurisdiction of the Watermaster and the Court in United States of America v. Fallbrook Public Utility District, et al. (Civil No. 51-cv-1247-GPC-RBB) [“Fallbrook Case”], as determined based on the parcels each overlying alluvium and in accordance with the provisions of Interlocutory Judgment No. 40. These parcels are portions of original Parcel No. 17 as designated by the Court in Interlocutory Judgment No. 40 and Exhibit 210-C.

Hi Team!

See the email string below. This is based on previous emails sent to you on 4/7/2022 and 5/11/2022. Please let me know your plans for the inspections that have not been done on the attached list. I updated and filtered for Area 4. The facilities in green have already been inspected and the one facility in yellow (RUHS Mo Val) has been tentatively scheduled. Please let me know your action plan by the end of this week 6/10/2022.

Thanks!
-Danielle

Subject: RE: Inspection List

I'd like an update on these from each of you prior to our meeting next week. If I don't get one from you, I'll be asking about it during the meeting.

Looks like the list dropped from 104 to 86, so some progress, but work still to do. If facilities shouldn't be on the list, get this cleared off (e.g. Temp HHW sites, OOB, inspections performed but no DAR entry yet, etc.)

The attached has not been modified from when initially sent out from 4/6.

Thanks,
Nick

Subject: Inspection List

Hi All,

This is a follow-up to the request to send the super over-due inspection lists to you. It's the 'Sheet 1' which incorporates the CERS ID numbers.

If there are specific reasons why some of these are past due, let me know. I'll be asking for status updates as of June/July as these should be a priority to get done.

Thanks,
Nick

Hi Candace,

If you can add another column to the list as reference to “Area 1, 3, 4”, etc. That will help us out a lot.

Area 1- WMI
Area 3- WMI
Area 4 - WMI

Thank you,

Vanna

[Private Information]

Subject: RE: Final Delinquent Trash Roll 2021-22 Riverside County - 7.30.2021

Good morning Candace,

I did the initial run for all of your APNs and there were three that came back with an error.

318-100-004 is a County owned property/non taxable property.

349-210-001 is a County owned property/non taxable property.

255-130-005 has now been changed to **255-130-024**

I will make the correction to the last APN but I will have to drop the first 2 from the list since they are non-taxable.

Please let me know if you are ok to proceed with updating the one APN and removing the 2 nontaxable.

Thank you,

Sandi Salas

Good morning Candace,

I did the initial run for all of your APNs and there were three that came back with an error.

318-100-004 is a County owned property/non taxable property.

349-210-001 is a County owned property/non taxable property.

255-130-005 has now been changed to **255-130-024**

I will make the correction to the last APN but I will have to drop the first 2 from the list since they are non-taxable.

Please let me know if you are ok to proceed with updating the one APN and removing the 2 nontaxable.

Thank you,

Subject: RE: Riverside County updated report 07/29/22

Hi Andrea and Lea- Thanks for the latest compliance data (11-4-22). I have some concerns about the data- the data listed in the 11-4-22 compliance report swings wildly from what was provided in July, and is more in line with what was provided in June.

The email string below documents possible errors in the formula used for your account analysis. It stated that the June data was incorrect, but the November data now resembles the June data.

Given the big swing in accounts over the past three reports, please confirm that the 11-4-22 data is accurate.

Thanks!

Ryan

Subject: RE: Riverside County updated report 07/29/22

Hi Ryan,

Yes, what Lea mentioned is correct and accounts for part of the increase. When I was doing my analysis of the report, I found an error with one of the formulas that affected the MCR Multi-Family count. The formula has been somewhat corrected, but not yet 100% resolved. We're working on a solution, so the next report will represent the true number of Multi-Family accounts that are subject to compliance. It is a work in progress. With that said, the count will come down a little, but it will not be as low as it was in the June report.

I hope this helps to answer your question.
Best Regards,

ANDREA MORRISON

I believe it had to do with us updating our accounts because we had many that didn't reflect MF status. But I will let Andrea also chime in if this is correct.

Hi Andrea and Lea.

Question on the multi family data- in June, I showed ~70 Multi family accounts in Recyclist for WM (see attached email)...the latest data (below), lists 153.

Why did the MF data double? Please double check if this is accurate...this data caused the non-compliance rate for MF in the County to jump by 10%...CalRecycle will question this once they review. I let them know we're looking into it.

Thanks

Please find the attached report for Riverside County. The updates were made to identify the single family residences that were previously counted as commercial businesses. We also added in the approved exemptions per the list that was provided by the County. Phase One (Area 1 only) of the mandatory roll out has also been incorporated. We still have Phase Two (Areas 3 & 4) and the RVC areas to roll out to as well.

Thanks for the clarification! The ~70% non-compliance number for MF accounts was alarming...Art mentioned the next roll-out isn't until October. Is this still the case?

Subject: RE: Riverside County updated report 07/29/22

Hi Ryan,
Yes, what Lea mentioned is correct and accounts for part of the increase. When I was doing my analysis of the report, I found an error with one of the formulas that affected the MCR Multi-Family count. The formula has been somewhat corrected, but not yet 100% resolved. We're working on a solution, so the next report will represent the true number of Multi-Family accounts that are subject to compliance. It is a work in progress. With that said, the count will come down a little, but it will not be as low as it was in the June report.

I hope this helps to answer your question.
Best Regards,

I believe it had to do with us updating our accounts because we had many that didn't reflect MF status. But I will let Andrea also chime in if this is correct.

Hi Andrea and Lea.

Question on the multi family data- in June, I showed ~70 Multi family accounts in Recyclist for WM (see attached email)...the latest data (below), lists 153.

Why did the MF data double? Please double check if this is accurate...this data caused the non-compliance rate for MF in the County to jump by 10%...CalRecycle will question this once they review. I let them know we're looking into it.

Thanks

Hi Vanna

The **period 12 journals closed** yesterday August 24, 2023.

The **period 2 journals** for New FY 23/24 will be closing on **September 07.2023**

Do you want to process the journals to reclass expenses from FY 22/23 or only FY 23/24?

Attached is the simpler report for Appropriation 2 - NO PROGRAM CODE for FY 22/23. I ran the report from 07/01/22 to 08/31/23.

I found some expenses that need to be reclassified to include the program code.

Please advise

Hi Jenny,

Due to the size of the files, I have attached 1 PDF file in this email, which follows the “New Septic System” requirements found in the County of Riverside’s Department of Environmental Health’s website:

- Drawings – Sewer and Septic System

I have attached some notes to each requirement that are outlined in orange (see screenshot below). Please let me know if more information is needed.

Thank you once again for your time,
Aristotle Bondoc
Metropolitan Water District

New Septic System

In order to obtain a construction permit for the installation of a new septic system, a building permit is required from the local building and safety agency. You will also need:

1. A percolation report, including 3 sets of detailed plans, signed by a [Professional of Record \(PR\)](#) registered with this Department.
2. A floor plan, drawn to scale, of the dwellings or structures that the septic system will service.
3. Documentation of established water service such as approved plans, water bill, or other documentation that validates actual water service to the project.

Submit a [Land Use Application \(OWTS Construction Application\)](#) along with supporting documentation and fees at the Downtown Riverside or Indio Office, depending on the location of your project. After submission and evaluation, additional information may be required.

Subject: RE: CUP 2023-2787

Good morning Brennan,

Happy Tuesday! Thank you for following up on this one.

The payment can be dropped off to our downtown office at 4080 Lemon Street, 10th Floor, Riverside 92501 or mailed to our PO Box 7909 Riverside 92513. We can also process credit card payments over the phone if that is more convenient but a 2.37% fee is added for card use. Please reference SR0057384 and CUP-2023-2787 when making payment.

As far as the Phase I ESA, yes this would still be required as the shopping center shows history of onsite dry cleaning business.

As for the water and sewer will-serve letters, current utility bills for the center showing that water and sewer is already provided would be acceptable. Similar to what you sent for the trash service.

I have added the SB1383 documents to your file. Thank you for sending those.

Please let me know if you have any additional questions.

Hello Jenay,

Left you a VM this morning. Wanted to run through your comments regarding CUP 2023-2787 for a new boarding facility in Murrieta at one of our existing shopping centers, Antelope Square. Your comments were as follows, please see my questions/ comments in **RED**:

“Department of Environmental Health (DEH) has reviewed **CUP-2023-2787** and has the following comments to be addressed prior to issuance of a final project comments letter:

1. Submit planning review fees of **\$1393.00**. Please make checks payable to Riverside County Environmental Health and reference City Planning case number and **SR0057384** on form of payment and include this document for invoicing purposes. Note: Additional fees may be required and will need to be reconciled prior to final project comments letter issuance. **Please send payment delivery address and if possible an invoice made out to Christina Drake (cc'd).**
2. A Phase I Environmental Site Assessment (ESA) report is required to be submitted to the Department of Environmental Health for review and approval. Phase I ESA must be in accordance with ASTM1527-13 standards. Contact the Environmental Cleanup Programs at (951)-955-8980 for further information. **The boarding facility will occupy a unit in an existing shopping center and will not require any new construction. Is a Phase I still required for this?**

3. Provide water will serve letter from the appropriate purveyor that acknowledges the project. Ensure letter addresses proximity to water and requirements for connection for this project. Per exhibits this will be Eastern Municipal Water District (EMWD). **The boarding facility will occupy a unit in an existing shopping center and will not require any new construction. Is a Phase I still required for this?**
4. Provide sewer will serve letter from the appropriate purveyor that acknowledges the project. Ensure letter addresses proximity to sewer and requirements for connection for this project. **The boarding facility will occupy a unit in an existing shopping center and will not require any new construction. Is a Phase I still required for this?**
5. Provide a statement indicating how this project will comply with SB1383. For additional information please contact our Local Enforcement Agency (LEA) at (951) 955-8980. **Please see attached.**
6. Provide a Solid Waste Hauler will serve letter from the appropriate purveyor. Ensure the letter acknowledges the project. Ensure the letter addresses compliance with the requirements of SB1383. **Please see attached.**
7. Provide an exhibit that depicts a refuse area that meets the requirements of SB1383. Ensure the appropriate size and number of bins are depicted on the updated exhibit in accordance with SB1383. The updated exhibit should include a legend that indicates Solid Waste Hauler purveyor. For additional information please contact our Local Enforcement Agency (LEA) at (951) 955-8980. **Please see attached.**

****Please note that additional items and review fees may be required pending review of the above requested item(s).****

Please call me to discuss.

Thank you,

—

Subject: Retailers List: Local Notification - Recall by Gooder Foods, Inc.
Attachments: Local Notification List_Gooder Foods Inc.xlsx

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Gooder Foods, Inc., a Santa Cruz, CA establishment, is recalling Goodles flavored pasta products due to undeclared allergens – cashews and milk.

Attached is a **preliminary** list of retailers identified as receiving the affected products. For additional information, please visit [Gooder Foods, Inc. – Goodles Flavored Pasta Products 09/10/25](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Product	Lot Code	Best Buy Date	UPC	Pac
Goodles Vegan is Believin' – Plant Based White Cheddar with Spirals	09725N	Jul-7-2026	850031990074	5.25

Hi Everyone,

We received the vendor lists for 1st quarter July--September temporary events at our Farmers Markets. Linda calls it 3rd quarter, but its for this quarter.

Each market is on a separate tab on the attached Excel sheet.

All the best,

Kristen Burnham

Attachments: January--March 2020 CFM vendor lists.xlsx

Hi Everyone,

Linda has sent the food vendor lists for this quarter (attached).

She forgot to put one vendor on the list for VAIL and PROMENADE. I can't seem to add them to the list due to the way she formatted the Excel pages.

The vendor is:

Olivia's Kitchen

Olivia Laryea, 29907 Ave de Cortez, Sun City, 92586

Shito Chilli sauce

I remember Olivia from a million years ago. Her sauce was highly suspect: location it was made, phf status, appeared ROP sealed, etc. Linda has been made aware that **Olivia cannot be at the markets** until we review her sauce ingredients, packaging, etc. She will also obviously need a community artisan permit.

The other vendor with concerns is MK Kitchen. He makes lumpia, but has not yet obtained a Community Artisan permit. Linda says he is considering getting to the market one hour early to make the lumpia there. Definitely one we will need to keep an eye on.

Best regards,

Kristen Burnham

Hello,

Here are the CFM vendor lists for this quarter.

Linda said in an earlier email that Gale's computer had been "phished" but that her son had 'cleaned up' the computer & the files are safe.

I opened and printed the Promenade vendor list and nothing bad seems to have happened to my tablet (so far).

Best regards,

Kristen Burnham

Hi Gina,

As discussed, please see marketing brochure for the Boardwalk in Hemet. We will still need to conduct the process, but I am sending so that the office building onsite is on DEH radar.

Please let me know if you have any questions!

Have a great day.

Hello Everyone,

It was quite a task to figure out how to best separate the discrepancies for you to review. Attached is the list with my highlights and notes. Please see explanation below as to what the different highlights represent on the sheet represent.

Yellow Highlight: If the “Owner Name” is highlighted in yellow, this means the permit printed has an expired date or a soon to expire date. We need your confirmation before we send out as is.

Green Highlight: If the “Amount Paid” column is highlighted in green next to “Owner Name”, there is discrepancy with the mailing Address/site address or both. Hard to tell if it was a Envision to HS transfer issue or outlying office data entry error.

Blue Highlight: If the “Owner Name” is highlighted in light blue, there is a specific issue with why the permit could not be printed. Issue is noted in red.

Pink Highlight: If the “Owner Name” is highlighted in pink, we could not find the permit in Cert. Manager because it’s under the facility name not an actual owner name.

Once reviewed could you let us know which permits are okay to send as is?

Please let me know if you have any questions.

Good morning,

Thank you Vanna. Yes, that would be great if Ramez (or team) can provide us a weekly report.

I spoke with Greg this morning. ISS will go ahead and print the permits that are not expired individually and send to the BA Practitioners to get caught up. However, there are permits with expired dates that will need to be updated by your team before we can print and process. Example below.

1	Full Name	Certified Professional Typ	Certified Profes	Permit Type
2	Trang Nguyen	Body Art Practitioner	CI1000241	4252-Body Art Practi
3	Jason T Wheeler	Body Art Practitioner	CI1000401	4252-Body Art Practi
4	Franklin Zimmer	Body Art Practitioner	CI1000426	4252-Body Art Practi
5	Alfred Thomas Zaragoza III	Body Art Practitioner	CI1000543	4252-Body Art Practi
6	Alondra Juliana Brantley	Body Art Practitioner	CI1000712	4252-Body Art Practi
7	Mariela Nava	Body Art Practitioner	CI1000870	4252-Body Art Practi
8	Evellyn De La Cruz	Body Art Practitioner	CI1001287	4252-Body Art Practi

Let me know how you would like to address. Thanks!

Subject: RE: BA Practitioners & Water Systems

Hi Gina,

The function to print a CM permit is in a different utility from posting a payment. Unfortunately, the AR team is backlogged with scanning documents and posting payments into HS.

Ramez or team can provide you a weekly report similar to the batch permit report for paid and zero-balance account customers (similar to the report that I previously attached) until HS has an automatic print button for CM permit. The 'Owner Name' column needs to be used in lieu of a PR in the certification manager.

Go to Permitting Tools > Certification Manager > Filter by 'Permit Type' > 4252 – Body Art Practitioner > Use the Search field: Full Name > Copy and Paste the 'Owner Name' into the Search field > click on 'Operating Permit'.

Thank you,

Vanna

Subject: RE: BA Practitioners & Water Systems

Tania,

The idea of creating a workbook that captures ALL permits was considered and tested. And we tried updating the Permit Workbook several times without yielding fruitful results.

HS GT list screens show clear links of PRs to FAs, and it shows clear links Payments to ARs. But there are no links between Payments and PRs.

In order to get the Excel Permit Workbook to work, we needed to manually link tables in Excel.

It works because you can see indirect connections between payments and FAs, hence we can locate the associated PRs, and specify which permits can be printed out.

In other words, we used Excel to show connection from payments to ARs to FAs to PRs, in that order. And ISS was given the final result with a list of PRs that have associated payments.

For Certification and Plan Check, we have this issue:

There are seven modules in Plan Check, at least two modules in Services&Complaints, and one in Permitting Tools that need to be included.

The list screens of these services do not link ARs to any of the services. There is no link from ARs to CI, FP, ON, UST, PC, WP, PLN, or any unique identifiers for these services.

In other words, from Contact Manager, you cannot see if an account is linked to Certification or Plan Check. You have to search in Certification or one of the Plan Check screens to find the connection and move backward.

If the system would allow us to extract and filter out paid invoices and see the connections to Plan Checks without having to individually access each invoice, a Permit Workbook could be created.

To summarize, based on structural system limitations, we cannot use Excel to extract tables to pinpoint which permits are ready for printing.

It is worth adding that these system limitations exist because several tables were added after the initial structure of the system was designed and implemented (AR→FA→PR).

(For example, the BioSolid Land Application list screen, which was recently added, is totally broken).

If we had a uniform system of SRs, instead of unique identifiers, and we could get them all on one list screen, we could come up with a temporary solution. However, services under Plan Check, and Certification have little connection or points of similarity.

I regret that there is no easy fix for Certification using Excel.

Thank you,

From: Jaime, Tania <TJaime@RIVCO.ORG>

Subject: RE: BA Practitioners & Water Systems

Tania,

The idea of creating a workbook that captures ALL permits was considered and tested. And we tried updating the Permit Workbook several times without yielding fruitful results.

HSGT list screens show clear links of PRs to FAs, and it shows clear links Payments to ARs. But there are no links between Payments and PRs.

In order to get the Excel Permit Workbook to work, we needed to manually link tables in Excel.

It works because you can see indirect connections between payments and FAs, hence we can locate the associated PRs, and specify which permits can be printed out.

In other words, we used Excel to show connection from payments to ARs to FAs to PRs, in that order. And ISS was given the final result with a list of PRs that have associated payments.

For Certification and Plan Check, we have this issue:

There are seven modules in Plan Check, at least two modules in Services&Complaints, and one in Permitting Tools that need to be included.

The list screens of these services do not link ARs to any of the services. There is no link from ARs to CI, FP, ON, UST, PC, WP, PLN, or any unique identifiers for these services.

In other words, from Contact Manager, you cannot see if an account is linked to Certification or Plan Check. You have to search in Certification or one of the Plan Check screens to find the connection and move backward.

If the system would allow us to extract and filter out paid invoices and see the connections to Plan Checks without having to individually access each invoice, a Permit Workbook could be created.

To summarize, based on structural system limitations, we cannot use Excel to extract tables to pinpoint which permits are ready for printing.

It is worth adding that these system limitations exist because several tables were added after the initial structure of the system was designed and implemented (AR→FA→PR).

(For example, the BioSolid Land Application list screen, which was recently added, is totally broken).

If we had a uniform system of SRs, instead of unique identifiers, and we could get them all on one list screen, we could come up with a temporary solution. However, services under Plan Check, and Certification have little connection or points of similarity.

I regret that there is no easy fix for Certification using Excel.

Thank you,

Hello Everyone,

It was quite a task to figure out how to best separate the discrepancies for you to review. Attached is the list with my highlights and notes. Please see explanation below as to what the different highlights represent on the sheet represent.

Yellow Highlight: If the **“Owner Name”** is highlighted in yellow, this means the permit printed has an expired date or a soon to expire date. We need your confirmation before we send out as is.

Green Highlight: If the **“Amount Paid”** column is highlighted in green next to **“Owner Name”**, there is discrepancy with the mailing Address/site address or both. Hard to tell if it was a Envision to HS transfer issue or outlying office data entry error.

Blue Highlight: If the **“Owner Name”** is highlighted in light blue , there is a specific issue with why the permit could not be printed. Issue is noted in red.

Pink Highlight: If the **“Owner Name”** is highlighted in pink, we could not find the permit in Cert. Manager because it's under the facility name not an actual owner name.

Once reviewed could you let us know which permits are okay to send as is?

Please let me know if you have any questions.

Subject: RE: BA Practitioners & Water Systems

Just a quick update. All valid BA Practitioner permits were printed and mailed out today using the report received from Vanna. Esther is finalizing the list of permits that are identified as **invalid** due to: *permits printed with expired dates, missing site information, etc.*

@Carrillo, Esther. Please attached the list when you are done for Tania's review.

@Chalaby, Ramez/@Kim, Vanna. HS is now working on the batch permit for the Certification Manager utility. In the meantime, if you can send the worksheet to us weekly/bi-weekly, I would really appreciate it. I think Water Systems will need to be added as well.

Thank you all!

Subject: RE: BA Practitioners & Water Systems

Hi Gina,

The function to print a CM permit is in a different utility from posting a payment. Unfortunately, the AR team is backlogged with scanning documents and posting payments into HS.

Ramez or team can provide you a weekly report similar to the batch permit report for paid and zero-balance account customers (similar to the report that I previously attached) until HS has an automatic print button for CM permit. The 'Owner Name' column needs to be used in lieu of a PR in the certification manager.

Go to Permitting Tools > Certification Manager > Filter by 'Permit Type' > 4252 – Body Art Practitioner > Use the Search field: Full Name > Copy and Paste the 'Owner Name' into the Search field > click on 'Operating Permit'.

Subject: RE: Credit Memos - List of Open Invoices

This graphic of options is helpful, Vanna-thanks for providing.

Regarding the attached related thread, I wanted to tie them together. I like proceeding with a write-off for these small amounts as they are not worth collecting. In fact, we're losing money and productivity because of them. It makes no sense wasting resources collecting on \$20 while paying someone an hourly wage that is higher than what we'd collect.

That said, I need to better understand the "Write-off" process, because if it includes the use of a Credit Memo, it sounds like we're exacerbating the problem and workload.

That all said, as we established in yesterdays meeting, this issue is huge and a big impediment to progress on the aging report, and therefore a clean collection process, as well as workflow for fiscal staff, and understanding for non-fiscal staff. I know we're up against inefficiencies in HS, plus double entry in HS and PeopleSoft, but we need to find a productive solution as soon as possible.

I'm going to have @Steen, Colleen I setup a meeting in the next two to three weeks with BOF staff, including you and I Vanna, plus Ramez, Tania, Olga, Greg, and likely Dr. Ray and Albert. Is there anyone else you'd like present from your team, Vanna? Would it be productive to have Kathleen present, as an example, to represent PeopleSoft workflows? The meeting will be a brain-storming session to hear from everyone on ideas on how to proceed moving forward, how to remediate what has occurred, and next steps.

Brent and Kristin, Colleen can put you down as optional.

@Chalaby, Ramez Please start seeking input from the whole team if you haven't already, including those who may not be at the meeting. I know we previously discussed leveraging some tools in HS that exist already. I'm told those are active and accessible to staff now if you want to assess prior to the meeting. I want all ideas on the table so we can assess viability.

Thanks,

Nick

Good morning Kristin,

To illustrate the credit memo process for writing off or adjusting a customer's account, attached are several options along with their implications.

My explanation below may be lengthy, but I hope the illustration helps.

Thank you,

Vanna

Subject: RE: Credit Memos - List of Open Invoices

No problem, Kristin.

This is an HS limitation issue. Technically, a debit invoice can be closed (in this example for an OOB facility), but it needs to be processed as a payment, as this is the only way to officially close it.

The screenshot shows a payment form with several fields on the left and a dropdown menu on the right. The fields on the left are: *** Payment Type:** (highlighted in yellow), *** Payment Reference ID:**, **Receipt Number:**, **Entered Date:**, **Posted By:**, **Collected by (Employee):**, and **Location Collected (Office):**. The dropdown menu on the right is open, showing a list of options: "Select an Option", "Cash" (highlighted in grey), "Check", "Credit Card", "Other" (highlighted in yellow), "Online Credit Card", "Other County Departments", "eCheck", and "ACH".

The downside to this approach is that the payment reconciliation report will report it as “revenue” for the account even though no actual payment occurred. To clarify that the invoice was not truly paid, the team has been marking such payments as “Other” and using the payment reference ID “credit memo” to indicate that the recorded payment is, in fact, a credit memo. Please note that this process has not been applied consistently during our early stages, and HS payment (or revenue) will show a higher revenue when, in reality, there is none.

Fin. Acct. Comment: 1170; 000 per Home Office Revenue ID: 112200
 Facility ID: FA0030780

[View Record](#) [Create New](#)

Required fields are marked with an asterisk *

* Posted Date: 10/02/2025

* Amount: 572.4

Fees

No unpaid fees.

* Payment Type: Other

* Payment Reference ID: Credit Memo

Receipt Number: 2468310

Entered Date: 10/02/2025

Also, it does not work for credit invoices related to refunds (for example, IN104468), where we need to show the ACO a credit to our account.

Fin. Acct. Comment: overpaid, will issue refund. Revenue ID: 112200
 Facility ID: FA0002776

[View Record](#)

Required fields are marked with an asterisk *

* Transaction Type: Invoice

Invoice #: IN104468

* Invoice Date: 05/06/2025

* Due Date: 06/06/2025

* Total: \$ -244.00

Amount Paid: \$ 0.00

Balance: \$ -244.00

The final alternative is to keep the debit invoice open and apply a credit invoice to offset the account and have a correct revenue reflect in HS. This is why invoices in the early stages need to remain open.

I hope this helps.

Thank you,

Vanna

Subject: Credit Memos - List of Open Invoices

Good morning Nick,

As discussed last week, here is a list of open invoices that cannot be closed. These will need to be manually excluded from the Aging Report.

Please note that this list is not definitive, for we will continue to create new ones as work processes require, and new ones will need to be included regularly.

Additionally, some existing credit memos are currently be omitted at this time, for we are still in the process of working on them.

I want to emphasize that this information should not be considered final or complete, since the data are continuously changing.

Thank you,

Albert is fast!

We need to slightly reformat the 'Demand Letter' so the mailing address shows up in the envelope window (I will do that).

Otherwise, please review the data. There are a few recent invoices, but I don't see an issue with them receiving the letter. Some have multiple invoices which will look ugly on the letter but who cares.

We can coordinate with Gina on when we can start, but I give it the green light.

Sarah,

Still trying to catch up from vacation so it is rough but getting through it!

It actually got brought up during a Technical Advisory Committee DEH sits on with other jurisdictions throughout the State. It was the concept of how to share responsibility of shared OWTS/septic systems and shared wells.

Appreciate the info on the projects. If on water and sewer, should not be an issue (at least for DEH).

Sincerely

Kristine Kim

Hi Kristine!

I hope your week is going well! Yes and no is the answer. We are adopting it only as to one project at this time. Jose is working on the project and can provide you with the 3 TTMs and the new condo maps that will overlay those TTMs. I believe they will need will-serves for water, sewer/septic, and power. Beyond that, the only required standards are those for ADUs per state law.

Curious - did one of the developers approach you? Maybe it was for the project I mentioned – Palm Creek Ranch (located in Thousand Palms).

Jose – can you provide Kristine the 3 proposals with the approved maps?

Thank you!

Hi Vanna,
I also noticed there are charges that Area staff will not collect and appear to be a reconciliation error. Since Fiscal is responsible for collecting delinquents for returned checks, we shouldn't see those fees. Occasional Events are not billed so they should not be included. Finally, the MHP Rent Control is a pass-through fee and should not be included. Please let me know if you would like to discuss further. Thank you.

Hi Kristin and Brent,

Attached is the aging report that was previously sent to the ACO for outstanding accounts receivable as of June 30, 2025 for year-end reporting. However, I've since identified that some customers have made payments after the cutoff date.

To avoid confusion for the chiefs, those paid items will need to be removed from the report. I'll prepare a revised version to reflect only the true outstanding balances as of June 30th.

Also, attached is the billing calendar used by the A/R team.

Please let me know if you have any questions.

Thank you,

Vanna Kim

Subject: RE: Aging Report as of June 10, 2025

Hi Kristin,

The goal is to develop one consolidated aging report that can be used by both fiscal staff and area office staff. To support this, the data fields should be limited to avoid overwhelming either team with unnecessary information.

The current report that was provided will be used primarily by me and our small group. It was to illustrate the underlying data available behind the existing HS aging report build.

In regards to hiring an additional TAP for bill collection, we currently have one Sr. Accounting Assistant (Marilyn) dedicated to collections, and a second TAP Sr. Accounting Assistant will be onboarding soon, who will also be assigned exclusively to collections.

I would like to mention that Marilyn has made a significant contribution to collecting payments from customers; however, her TAP assignment is scheduled to end soon. @Horn, Steve – This is something that I would like to brainstorm with you – the possibility of hiring a permanent Sr. Accounting Assistant dedicated to collections.

Thank you,

Vanna

Subject: RE: Aging Report as of June 10, 2025

Hi Vanna,

I did a deep dive into the information on the attached with supplemental information you provided the team yesterday. Is the goal to provide one report, and then manipulate it to be specific to either fiscal staff use, or area office staff use? While this report has a lot of useful information, this would not be ideal for area staff as the overabundance of information will cause confusion and uncertainty.

Area office staff do not need the following information:

Comment	Number of Entries	Further Information	Vanna's notes
It was my understanding outstanding accounts from up to FY22/23 were already written off.	13,991 (-488) → 13,503		Only for the invoices that were approved or signed off under the previous 'Year-End Catch-All'. For example, a lot of HazMat past due invoices are on the report.
Remove credits.	13,503 (-886) → 12,617	This should be a fiscal function to reconcile.	I agree. The aging report for the team should have a filter function.
Remove inactive accounts.	12,617 (-1,474) → 11,143	We can help create guidance or a process to write off monthly batches.	I agree. The aging report for the team should have a filter function.
Remove accounts less than 120 days past due.	11,143 (-7,645) → 3,498	This is a fiscal function.	I agree. The aging report for the team should have a filter function.
Remove invoices that are not permit fees (e.g., DES On-Site, Plan Check, Return Check		This should be a fiscal function to reconcile or	I agree. The aging report for the team should have a filter function.

Fees, Detention Facilities, etc.).		collect. We can provide you exact categories.	
Remove staff mistakes of collecting incorrect fees. This is different than collecting partial payments.		This should be addressed when the DDDM is reconciled and fees written off at that time. We can help create guidance.	I agree. The aging report for the team should have a filter function.

Even by reducing the list to be area office specific, this list is too much for area office staff to address. Without the penalty script working, this list will continue to grow. Until we can get the script working, and our internal processes outlined, can we hire a TAP to be a bill collector?

Subject: RE: Aging Report as of June 10, 2025

Good morning,

The attached Aging Report includes invoices that remain open as a result of partial payments. To reconcile these items in our receivables, we will need to either collect the remaining balances or process appropriate write-offs.

Subject: Aging Report as of June 10, 2025

Good Afternoon,

Please find attached the aging report (open invoices) as of June 10, 2025. This report was generated using the beta version of Power BI, which connects directly to HealthSpace back-end tables.

Below are instructions on how to review the program-specific aging reports:

1. Click on the program tab located at the bottom of the workbook.

Facility	726300	Body Art Facility	\$273	\$273	AR006
Facility	726300	Body Art Facility	\$273	\$273	AR012
Facility	726300	Body Art Facility	\$273	\$273	AR012
Facility	726300	Body Art Facility	\$273	\$273	AR012
Facility	726300	Body Art Facility	\$273	\$273	AR006
Facility	726300	Body Art Facility	\$273	\$273	AR011

>	93300	95100	95260	95270	95800	97700	Recap	HS PowerBI Invoice

2025 f 13991 records found Accessibility: Good to go

2. The report header includes the following fields:

- a. **Revenue ID Description** = PeopleSoft revenue description
- b. **FeeDescription2** = Program Element Code (PE Code) description
- c. **Revenue ID** = PeopleSoft revenue code
- d. **Aging Bucket** = Categorization of invoice age:
 - i. <30 – Invoices less than 30 days old (Fiscal conducts collection)
 1. **Note: This includes July billings for permits expiring 7/31/2025**
 - ii. <60 – Invoices less than 31-60 days old (Fiscal conducts collection)
 - iii. <90 – Invoices less than 61-90 days old (Fiscal conducts collection)
 - iv. <120 – Invoices less than 91-120 days old (Fiscal conducts collection)
 - v. >120 – Invoices over 120 days old (Field conducts collection)
- e. **Invoice Type** = Identifies the nature of each invoice:
 - i. Original invoice = Manually or bulk-generated from HealthSpace
 - ii. Penalty – 20% = 20% penalty applied
 - iii. Penalty – 10% = 10% penalty invoice (Mobile Homes only)
 - iv. Penalty – 50% = 50% penalty invoice (City of Corona only)
 - v. Penalty – 80% = 80% penalty applied
 - vi. Legacy Invoice = Rolled-over invoice from EnvisionConnect.

Please also note that the aging report is a separate process from the write-off report. The aging report is used to monitor outstanding balances and guide collection efforts, while the write-off report pertains to invoices deemed uncollectible and formally removed from the books.

I will go over this report during our financial meeting tomorrow. Please feel free to review it in advance and bring any questions you may have.

Subject: RE: Aging Report as of June 10, 2025

Hi Kristin,

The goal is to develop one consolidated aging report that can be used by both fiscal staff and area office staff. To support this, the data fields should be limited to avoid overwhelming either team with unnecessary information.

The current report that was provided will be used primarily by me and our small group. It was to illustrate the underlying data available behind the existing HS aging report build.

In regards to hiring an additional TAP for bill collection, we currently have one Sr. Accounting Assistant (Marilyn) dedicated to collections, and a second TAP Sr. Accounting Assistant will be onboarding soon, who will also be assigned exclusively to collections.

I would like to mention that Marilyn has made a significant contribution to collecting payments from customers; however, her TAP assignment is scheduled to end soon. @Horn, Steve – This is something that I would like to brainstorm with you – the possibility of hiring a permanent Sr. Accounting Assistant dedicated to collections.

Thank you,

Vanna

Subject: RE: Aging Report as of June 10, 2025

Hi Vanna,

I did a deep dive into the information on the attached with supplemental information you provided the team yesterday. Is the goal to provide one report, and then manipulate it to be specific to either fiscal staff use, or area office staff use? While this report has a lot of useful information, this would not be ideal for area staff as the overabundance of information will cause confusion and uncertainty.

Area office staff do not need the following information:

Comment	Number of Entries	Further Information	Vanna's notes
It was my understanding outstanding accounts from up to FY22/23 were already written off.	13,991 (-488) → 13,503		Only for the invoices that were approved or signed off under the previous 'Year-End Catch-All'. For example, a lot of HazMat past due invoices are on the report.
Remove credits.	13,503 (-886) → 12,617	This should be a fiscal function to reconcile.	I agree. The aging report for the team should have a filter function.
Remove inactive accounts.	12,617 (-1,474) → 11,143	We can help create guidance or a process to write off monthly batches.	I agree. The aging report for the team should have a filter function.
Remove accounts less than 120 days past due.	11,143 (-7,645) → 3,498	This is a fiscal function.	I agree. The aging report for the team should have a filter function.
Remove invoices that are not permit fees (e.g., DES On-Site, Plan Check, Return Check		This should be a fiscal function to reconcile or	I agree. The aging report for the team should have a filter function.

Fees, Detention Facilities, etc.).		collect. We can provide you exact categories.	
Remove staff mistakes of collecting incorrect fees. This is different than collecting partial payments.		This should be addressed when the DDDM is reconciled and fees written off at that time. We can help create guidance.	I agree. The aging report for the team should have a filter function.

Even by reducing the list to be area office specific, this list is too much for area office staff to address. Without the penalty script working, this list will continue to grow. Until we can get the script working, and our internal processes outlined, can we hire a TAP to be a bill collector?

Subject: RE: Aging Report as of June 10, 2025

Good morning,

The attached Aging Report includes invoices that remain open as a result of partial payments. To reconcile these items in our receivables, we will need to either collect the remaining balances or process appropriate write-offs.

	A	B	C	D	E	F	G	H	I	J

Cc: Casey, Brent <BCasey@RIVCO.ORG>
Subject: RE: 640 Messaging for CalARP and Ag Handlers

Thanks for everyone's feedback. Below is semi-final language.

To your question, Mike, yes, each area office needs to reassess their former Ag Handlers which were automatically reclassified to 'Level I' handlers, to determine if they need to be bumped up to Level II or Level III. That was what I meant in the attached email, though it could've been clearer. This should be done as soon as possible, triaging by doing the permits that expire in July first, and then August, then September and so on, so that when we do the billing, they are re-categorized correctly at the permit category they should be at going forward. But I think we can get them all done by early July realistically. We can discuss this time table as it may compete with other end of year needs.

To assist, attached are two Excel spread sheets. Thank you Mike for the combined Ag and CalARP facilities. Mike got this out of CERS for your reference. Additionally, there is an extract from HS of our former Ag Handlers which should match roughly what Mike pulled from CERS. The benefit of this spreadsheet is that it has the Permit Expiry for triaging which permit inventory to review in CERS first for reclassification purposes. How we email the facilities is really what we need to decide. For example, do we do via the Branch (CERS Admin email), Area Office level (Sup email), or by each inspector for facilities within their district? We can discuss that piece at our meeting Thursday, but we'll want to send emails out by early next week.

Language:

Ag Handlers:

“As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this revision, one of which is the removal of the ‘Ag Handler’ permit category in the Hazardous Materials Business Plan (HMBP)/Disclosure program. Since this permit category no longer exists, one or more of your facilities previously permitted at the Ag Handler level will be re-categorized into a different permit category as determined by the volume of hazardous materials maintained at the facility. Though you will see a modest increase in permit fee for any permits you hold within the HMBP program, this fee structure better reflects our costs of doing business. If you feel the recategorization is unwarranted, you can reduce the amount of hazardous materials stored onsite and contact the Department to reassess the permit category. Please contact your local Environmental Health office with any questions.”

CalARP Facilities:

“As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this revision, one of which is the establishment of annual permits for the California Accidental Release Prevention (CalARP) program. Previously, quarterly billing was performed to capture billable time spent at your facility. This method was labor intensive and also didn’t capture all our costs associated with the regulation of the program. One or more of your facilities will now have an annual CalARP permit fee, as outlined below.

Program Level 1	\$992
Program Level 2	\$1,485
Program Level 3	\$1,779

This fee structure better reflects Departmental costs and will also streamline the billing process. The annual CalARP permit will be consolidated along with the other permits you pay for hazardous materials related activities (e.g. HMBP program, UST, hazardous waste, APSA, etc.). Please contact your local Environmental Health office with any questions.”

Subject: 640 Messaging for CalARP and Ag Handlers

Hi All,

With the changes to 640, we need to do some outreach to our Ag Handlers and CalARP facilities. Though it's on our meeting agenda for next Thursday, I'd like a substantial part of the work done prior to the meeting. This will include knowing our universe and having valid email addresses for the facilities in that universe.

Could you please review the below language we plan to message out? I spoke with Mike and he assessed which reports from CERS we can use to extract facility data with associated email contacts, which will be easier for CalARP, but more difficult for Ag Handlers as those are in the larger HMBP bucket in CERS. But he worked his magic in the attached. Could you please review that as well, ensuring all your facilities are

accounted for? I want to be able to send email as soon as possible, no later than end of next week/beginning of the week of the 9th.

Thanks,
Nick

Ag Handlers:

“As of May 20th, 2025, the Riverside County Board of Supervisors passed a revision of County Ordinance 640, a Department of Environmental Health Ordinance that establishes environmental health service fees. Many fees were updated in this revision, one of which is the removal of the ‘Ag Handler’ permit category in the Hazardous Materials Business Plan (HMBP)/Disclosure program. Since this permit category no longer exists, one or more of your facilities previously permitted at the Ag Handler level will be re-categorized into a different permit category based on the amount of hazardous materials stored on-site OR (I like this language better) as determined by the volume of hazardous materials maintained at the facility. Though you will see a modest increase in permit fee for any permits you hold within the HMBP program, this fee structure better reflects our costs of doing business. If you feel the recategorization is unwarranted, you can reduce the amount of hazardous materials stored onsite and contact the Department to reassess the permit category. Please contact your local Environmental Health office with any questions.”

CalARP Facilities:

Previously, quarterly billing was performed to capture billable time spent at your facility. This method was labor intensive and also didn’t capture all our costs associated with the regulation of the program. One or more of your facilities will now have an annual CalARP permit fee, as outlined below.

Program Level 1	\$992
Program Level 2	\$1,485
Program Level 3	\$1,779

This fee structure better reflects ~~the Department~~ departmental costs and will also streamline the billing process. The annual CalARP permit will be consolidated along with the other permits you pay for hazardous materials related activities (e.g. HMBP program, UST, hazardous waste, APSA, etc.). Please contact your local Environmental Health office with any questions.”

Olney, Ryan

Subject: FW: UPDATED: COMPLETED: Aging Report - Follow-up
Attachments: Invoice Billed Aging Report 04.30.25.xlsx

Hi KK and Nick,

Attached is the aging report received from Vanna this week. Reconciliation is completed through May 8th.

Notes regarding the report:

- Unfortunately the program tabs couldn't be divided by Area. I'm hopeful your Excel skills can help your teams. (This note is from me, not Vanna)
- The report does not include any Inactive accounts that are pending write-off.
- The penalties on the report will be "locked" until the end of May, to eliminate the possibility of additional penalty amounts/invoices.
- Please note, only some accounts/facilities have been assessed a 20% penalty.
- Penalty invoices are an additional line. The total amount due, will be the recurring and penalty.

- The column labeled "Fee Description" (Column K) may not accurately reflect the invoice detail. This is due to the HS reporting system pulling only the last charge line on each invoice.
- Only invoices greater than 120 days past due are included.
- Invoices less than 120 days are currently being collected by the fiscal team through one or more of the following methods:
 - a) Statement/invoice reprint
 - b) Phone call
 - c) Email follow-ups
- Blank fields in the report are due to missing data in the HS system.

- The amount shown reflects outstanding amount due from the customer which include partial payments received. Due to the invoice crossover from EC, some invoices may not show the FA# or Establishment info
- Please note the following header:
 - o 'R' – Recurring
 - o 'P' – Penalty
 - o 'N' – New Invoice
 - o Legacy Invoice describes the two systems: HS and EC

- For any questions related to HazMat, please contact Leila Zolfaghari at (951) 358-4488

Good luck, I know it is a big ask from our teams. Keep me posted on progress.
Thank you

Did you draft anything to your PCs yet?

I pieced Vanna's email notes together to summarize the best I could.

Hi KK and Nick,

Attached is the aging report received from Vanna this week. Reconciliation is completed through May 8th.

Notes from Vanna:

- The report does not include any Inactive accounts that are pending write-off.
- The penalties on the report will be "locked" until the end of May, to eliminate the possibility of additional penalty amounts/invoices.
- The column labeled "Fee Description" (Column K) may not accurately reflect the invoice detail. This is due to the HS reporting system pulling only the last charge line on each invoice.
- Only invoices greater than 120 days past due are included.
- Invoices less than 120 days are currently being collected by the fiscal team through one or more of the following methods:
 - a) Statement/invoice reprint
 - b) Phone call
 - c) Email follow-ups
- For any questions related to HazMat, please contact Leila Zolfaghari at (951) 358-4488.
- Blank fields in the report are due to missing data in the HS system.
- Penalty invoices are now included with the original/base invoice
- The amount shown reflects outstanding amount due from the customer which include partial payments received. Due to the invoice crossover from EC, some invoices may not show the FA# or Establishment info
- The outstanding invoices into individual program tabs. Please note the following header:
 - o 'R' – Recurring
 - o 'P' – Penalty
 - o 'N' - New Invoice
 - o Legacy Invoice describes the two systems: HS and EC

Not sure about adding a summary of this piece. Maybe just wait until they know it can work?:

Steve/Vanna/Greg are working on a way for the Program Chiefs to be able to run this report in HS, and not need Fiscal to provide it to them.

I combined my emails together to get this thread; but for the latest draft – do we ignore the “Aging” tab and only ask the PCs to focus on the program tabs?

Good Afternoon,

Please find attached the updated aging report ending April 30th, with reconciliation completed through May 8th.

- Only invoices greater than 120 days past due are included; all other columns/amounts have been removed.
- Penalty invoices are now included with the original/base invoice.
- Invoices identified as pending write-offs, per the criteria discussed in the May 6th meeting, have been excluded.

Invoices less than 120 days are currently being collected by the fiscal team through one or more of the following methods:

- a) Statement/invoice reprint
- b) Phone call
- c) Email follow-ups

For any questions related to HazMat, please contact Leila Zolfaghari at (951) 358-4488.

Note: Blank fields in the report are due to missing data in the HS system.

I hope this helps.

Subject: RE: UPDATED: COMPLETED: Aging Report - Follow-up

Hi Vanna,

Thank you for removing the inactive accounts from the list.

I have a conflicting meeting today at 2pm, and will have to miss the Aging Report discussion. After reviewing the list, I have clarification questions:

- For group direction – Any facility with a Greater Than 120 day amount should also be cross referenced for an additional Less Than 30 day amount, and the field staff should collect both, correct?
- The Fiscal team will be calling to collect on amounts that don't fall within the above, correct?
- Who would staff contact with any questions? For Example, within the Haz Mat tab, 95270, Lines 635/636/637, there is a credit on 635 for \$918, and then a \$943 amount owed on 636 (but many of the detail lines are blank), and a less than 30 day \$987 amount owed. I'm lost on that one, and I'll assume there are similar examples that staff will find.
- 95260 – Many of the fields are blank. For clarification, if the fields are blank, that means the fields are blank within HS also, correct?

Thank you for the work on this, and for the assistance.

Hello,

Please see updated version of the aging report with the changes as discussed and a few changes from the last file.

1. Removed "PE Code" and "Fee Description"
 - a. The two fields were removed due to errors detected in the new version that were not detected earlier
2. Updated transactions as of April 30th

Please let me know if you have any questions.

Thank you,

Vanna

Subject: Aging Report - Follow-up

Hi Jeff,

Vanna met with Kristin and I a minute ago to better explain the report, and answer our questions.

Vanna will work with her team to get Kristin and I a revised Aging Report by Thursday or Friday of this week, to coincide with the new month.

The penalties on that report will be “locked” until the end of May, to eliminate the possibility of additional penalty amounts/invoices, which would only add confusion to operators, and frustration from our Area staff.

Kristin and I will be providing the lists and direction to our Chiefs by the end of Friday.

Subject: RE: UPDATED: COMPLETED: Aging Report - Follow-up

Hi Vanna,

Thank you for removing the inactive accounts from the list.

I have a conflicting meeting today at 2pm, and will have to miss the Aging Report discussion. After reviewing the list, I have clarification questions:

- For group direction – Any facility with a Greater Than 120 day amount should also be cross referenced for an additional Less Than 30 day amount, and the field staff should collect both, correct?
- The Fiscal team will be calling to collect on amounts that don't fall within the above, correct?
- Who would staff contact with any questions? For Example, within the Haz Mat tab, 95270, Lines 635/636/637, there is a credit on 635 for \$918, and then a \$943 amount owed on 636 (but many of the detail lines are blank), and a less than 30 day \$987 amount owed. I'm lost on that one, and I'll assume there are similar examples that staff will find.
- 95260 – Many of the fields are blank. For clarification, if the fields are blank, that means the fields are blank within HS also, correct?

Thank you for the work on this, and for the assistance.

Brent

Subject: UPDATED: COMPLETED: Aging Report - Follow-up

Hi all,

Please see the attached updated report. The revised version now includes the removal of 'inactive' accounts that are pending write-off, per the updated request.

Let me know if you have any questions.

Thank you,

Vanna

Importance: High

Hello,

Please see updated version of the aging report with the changes as discussed and a few changes from the last file.

1. Removed "PE Code" and "Fee Description"
 - a. The two fields were removed due to errors detected in the new version that were not detected earlier
2. Updated transactions as of April 30th

Please let me know if you have any questions.

Thank you,

Vanna

Subject: Aging Report - Follow-up

Hi Jeff,

Vanna met with Kristin and I a minute ago to better explain the report, and answer our questions.

Vanna will work with her team to get Kristin and I a revised Aging Report by Thursday or Friday of this week, to coincide with the new month.

The penalties on that report will be “locked” until the end of May, to eliminate the possibility of additional penalty amounts/invoices, which would only add confusion to operators, and frustration from our Area staff.

Kristin and I will be providing the lists and direction to our Chiefs by the end of Friday.

Subject: PLEASE REVIEW: Aging Report

Good Afternoon,

Please see the attached aging report as of today. I've separated the outstanding invoices into individual program tabs. Please note the following header:

- 'R' – Recurring
- 'P' – Penalty
- 'N' – New Invoice
- Legacy Invoice describes the two systems: HS and EC
- # of outstanding days (ie., <30, <60, <90, <120, and over >120)

The amount shown reflects outstanding amount due from the customer which include partial payments received. Due to the invoice crossover from EC, some invoices may not show the FA# or Establishment info.

If the group approves of the reporting format, please feel free to forward to the chiefs.

Please let me know if you have any questions.

Thank you,

Vanna Kim

Subject: LPA Workplan 24/25
Attachments: Riverside-FY 24-25_LPA_Workplan.docx

Hi Jeff,

The team has compiled the 24/25 workplan. I received it last Wed., reviewed it today, and didn't realize until today that it is due for submittal tomorrow.

Let me know if any items jump out as needing further discussion.

Thank you,

Brent Casey

Attachments: Accounts By District and Franchise Area.xlsx

Thank you KK. No requested changes; but a question in District 1. The list is showing quite a few for DeLuz CSD; like the Cities, those accounts won't show up on the tax roll either, right?

Hi KK,
Don't change the approach for the Land Use angle. Our concern remains the water quality, and let's leave it at that.

Subject: RE: CO0089023

I have re-read his complaint, and I'm still not clear where he is going with all of this. Is he saying that the well should not have been drilled at his property?

One thing he states in his complaint – “Recently it was brought to my attention that DEH is under the impression My parcel was somehow subdivided...”. Has he talked to anyone in DEH about his property recently?

Subject: RE: CO0089023

It's been an ongoing neighbor dispute to cut off neighbors from the well.

There have been times that it has escalated to the point of where we have needed to engage Sheriff's to be present during inspections. Jeff would have some additional details.

Jeff/Brent,

FYI on this resurfacing for Weber Valley and if you had any additional thoughts on how Land Use is intending to handle the situation.

Subject: RE: CO0089023

Hi Shantel,
This property has a long standing dispute between the RP and the State Small water system. The well is drilled on the RP's property, but is controlled by the Weber Valley Heights Association (the water system) and the permit on file for the well shows the wrong APN. Please see Jeff Johnson's letter from 2013 regarding our Department's stance on this dispute. Perhaps he thought if he waited 10 years, he could get a different response?

My thought on this is to respond to his email and reiterate our Department's position. His current complaint does not address any water quality issues. I could even attach Jeff's letter from 10 years ago. Your thoughts?

Thanks,

Ryan Olney

Mr. Wilard,

I apologize for the delay in issuing the attached letter. While we have determined that the Preliminary Technical Report (PTR) for the subject project is complete, the water rights issue remains unresolved. The Division of Drinking Water does not have jurisdiction over water rights, and cannot make a determination whether the proposed project has sufficient water rights.

Please be advised that Riverside County Department of Environmental Health has permitting authority over this project; therefore, the project must satisfy the County's permitting requirements. Please let me know if you are still interested in speaking to our attorney, so we can make the necessary arrangement.

Thanks,

Chun

Clarification please.

So this area has ongoing litigation about whether or not water is available for use; and the project's attorney tried to muscle the water usage through by citing sections in his letter?

Good afternoon Nathan,

Our office reviewed the proposed PTR for the Galway Highland Sporting Grounds, and due to the water rights section, we discussed the project with the Waterboards' County Engagement Unit and the Division of Water Rights, and have the following comments:

- For Section 2 – Water Rights; The project proponent will need to contact the local Watermaster and obtain a letter or email from the Watermaster stating that project proponent has water rights. BTW- the local watermaster's contact information is the following:
 - **For the SANTA MARGARITA RIVER WATERSHED (Anza, Aguanga, Temecula);** Michael J. Preszler, P.E., 704 University Avenue, Suite 205, Sacramento, CA 95825, (916) 542-7895, <https://smrwm.org/contact-us/>
 - **For the BEAUMONT BASIN,** William Clayton, (951) 845-9581, <https://beaumontbasinwatermaster.org/>

Please review and revise the PTR in accordance to the comments above and resubmit.

Thank you and looking forward to your response. Regards,

Manuel "Manny" Delgado, P.E.

Hi Rosario,

The delinquent trash board item is under more scrutiny this year by the Board of Supervisors, and in preparation for the board hearing (June 27th), our Director is requesting an updated list of the unpaid accounts.

Can you please send us an updated list of the unpaid accounts by June 15th. We would like this data to show that in the time since the preliminary lists and letters have been sent to the property owners, that there are a number of accounts that have already paid, and as a result have been dropped off and will not be included on the final list and tax roll.

This would just be an update to your preliminary list wherever it stands by **June 15th**. We understand that this would only be reflective of accounts that have been resolved. This document would be for internal use only.

I appreciate your help and hope that this information helps ensure that the item will be passed by the Board on June 27th.

Please let me know if you have any questions.

Thank you,

Sandi Salas

Hi Rosario,

The delinquent trash board item is under more scrutiny this year by the Board of Supervisors, and in preparation for the board hearing (June 27th), our Director is requesting an updated list of the unpaid accounts.

Can you please send us an updated list of the unpaid accounts by June 15th. We would like this data to show that in the time since the preliminary lists and letters have been sent to the property owners, that there are a number of accounts that have already paid, and as a result have been dropped off and will not be included on the final list and tax roll.

This would just be an update to your preliminary list wherever it stands by **June 15th**. We understand that this would only be reflective of accounts that have been resolved. This document would be for internal use only.

I appreciate your help and hope that this information helps ensure that the item will be passed by the Board on June 27th.

Please let me know if you have any questions.

Thank you,

Sandi Salas

Hi Jeff,

The latest update.

Looks like Norm decided to go ahead and complete his work, and certify the system while he was at it. Good stuff.

KK and Ryan will be scheduling a hearing with him ASAP to go over his wackiness.

In the meantime we'll wait and see what Tom comes back with for this notice.

Hi Thomas,

Norm is attempting to certify his work on a project that was never DEH reviewed/inspected/approved, and so DEH won't be able to accept the certification.

I have Ryan on copy so that he will have the documents when he returns on Monday, but Ryan will still be needing an actual submittal in order to get started.

The submittal will need a complete OWTS report, per the current LAMP, which should include wasteflow calculations, site plans, design components, groundwater evaluation, etc.

Please relay to Shade that the background, submittal, review and inspection steps are all in place to get an end result of a successful system. DEH looks forward to working with him as soon as he's ready to begin.

Thank you for your help. Have a nice weekend,
Brent

Hi KK,
Please review and edit for me.

Hi Thomas,
Basically, Norm is attempting to certify his work on a project that was never approved to begin. DEH won't be able to accept the cert. until the project pieces are completed, and the full review has taken place. I will forward the attachments to Ryan so that he will have them for his return on Monday, but Ryan will still be needing the Plan, the Engineering Report (for the soil? Help me out on this one), and (any other items?) to get the process started.

DEH won't be able to accept the cert. until the project pieces are completed, and the full review has taken place. I will forward the attachments to Ryan so that he will have them for his return on Monday, but Ryan will still be needing the Plan, the Engineering Report (for the soil? Help me out on this one), and (any other items?) to get the process started.

Subject: RE: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Hi Dottie,

A lot of the FY2022 adjustments (\$42,940.87) are due to land use planning cases and LU ROP. The highest dollar amount invoice for FY2022 that I saw that is non-land use related is for a vending machine company with an invoice dated 11/08/21 (Old Invoice). The rest are small dollar amounts. Overall, the netted amount of -\$243K (refund) is mainly attributed to land use and LU ROP.

Using land use invoices as an example, I cannot be sure if all can be legitimately written off or adjusted. The factors to support the previous statement are posting errors and current practices and/or workflow.

Below is a recap of FY2022 adjusted amounts for Old Invoice and Out of Business (OOB).

Please note that any positive amounts are due *from* customer. Any negative amounts are due *to* the customer (refund).

FY2022	Old Invoice	24	LU Planning Cases	\$	20,736.54
		27	LU ROP - Alt Sys w Adv Trtmt Permit	\$	13,463.80
		46	PAYMENT TRANSFER (CREDIT)	\$	(1.00)
		99	Returned Check Fee-LU	\$	1,641.00

Total	\$ 35,840.34

42	Body Art Practitioner	\$ 74.40

13	Tobacco Retailing	\$ 80.68
15	Mobile Home/RV Park - State Fee	\$ (68.00)
16	Various	\$ 1,146.25
19	Pool	\$ (2.50)
26	Non-Profit Snack bar/Restaurant 1 to 2000 sq ft	\$ 590.49
36	Food Market 2001 to 5999 sq ft/Restaurant 1 to 2000 sq ft	\$ (97.61)
	Total	\$ 1,649.31

Old Invoice Grand Total \$ 37,564.05

Out of Business

	Cottage Food Operation - Class A/Microenterprise Home Kitchen	
16	Operation	\$ 362.44
19	Pool/Spa	\$ 1,624.00
36	Food Market 2001 to 5999 sq ft/Restaurant 1 to 2000 sq ft	\$ (19.02)
42	Body Art Practitioner	\$ 124.00
47	Well Permit - Individual	\$ 553.00

Out of Business Total \$ 2,644.42

Grand Total \$ 42,940.87

I hope this helps.

Thank you,

Vanna

Subject: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Good afternoon,

Attached is the final accounts receivable report requesting to adjust -\$243,253.22 in Envision Connect and our Accounts Receivable (112200). Included for your review is an invoice detail tab with the related P.E Fee amount. Please note that there is a discrepancy in the amount of \$418.12 between "P.E. Fee" and "Total Due" that is related to our billing system.

Please see below for disclosures:

1. Verizon or unpermitted customers are not included.
2. Change of Ownership and Penalty Reduction Request Form-related invoices are not included.
3. Judgment and Pendency invoices are not included.

The accounting unit will process the adjustments once the request has been approved. The deadline for the accounting team to complete the adjustments in Envision Connect will be March 31, 2023. The adjustments will be submitted with Period 9 schedules due to the Auditor's office around mid-April.

Please let me know if the report and/or memo needs to be modified.

Subject: COMPLETED: UPDATE: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Good morning,

After our meeting with Kristine last Friday, the requested amount to be written off has been changed to negative (\$244,296.42) from (\$ 246,860.62). The difference is \$2,564.20 which is related to PE 5610.

Thank you,

Vanna

Hi Steve,

Yes, based on the meeting from Friday. I should have a revision no later than Wednesday.

Thank you,

Vanna

I'm good with this, Vanna. Thank you for cleaning this up.

It's a good start for us in order to get this process right, especially with land-use.

Subject: UPDATE: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Hi Brent and Steve,

Attached is the revised adjustment request for accounts receivable. The new requested amount is negative (\$ 246,860.62). The previous requested amount was negative (\$ 243,253.22). The amount adjusted is \$3,607.40 related to commercial LU ROP (renewable operating permit).

Commercial LU ROP will be left on our book as 'collectible'.

[L:\DEH_Fiscal\Accounts Receivable Reports\Supporting Documentation for Write-offs_rev 12.29.22.xlsx](L:\DEH_Fiscal\Accounts Receivable Reports\Supporting Documentation for Write-offs_rev 12.29.22.xlsx)

Thank you,

Vanna

Subject: RE: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Hi Dottie,

A lot of the FY2022 adjustments (\$42,940.87) are due to land use planning cases and LU ROP. The highest dollar amount invoice for FY2022 that I saw that is non-land use related is for a vending machine company with an invoice dated 11/08/21 (Old Invoice). The rest are small dollar amounts. Overall, the netted amount of -\$243K (refund) is mainly attributed to land use and LU ROP.

Using land use invoices as an example, I cannot be sure if all can be legitimately written off or adjusted. The factors to support the previous statement are posting errors and current practices and/or workflow.

Below is a recap of FY2022 adjusted amounts for Old Invoice and Out of Business (OOB).

Please note that any positive amounts are due *from* customer. Any negative amounts are due *to* the customer (refund).

FY2022	Old Invoice	24	LU Planning Cases	\$	20,736.54
		27	LU ROP - Alt Sys w Adv Trtmt Permit	\$	13,463.80
		46	PAYMENT TRANSFER (CREDIT)	\$	(1.00)
		99	Returned Check Fee-LU	\$	1,641.00
			Total	\$	35,840.34

42	Body Art Practitioner	\$	74.40

13	Tobacco Retailing	\$	80.68
15	Mobile Home/RV Park - State Fee	\$	(68.00)
16	Various	\$	1,146.25
19	Pool	\$	(2.50)
26	Non-Profit Snack bar/Restaurant 1 to 2000 sq ft	\$	590.49
36	Food Market 2001 to 5999 sq ft/Restaurant 1 to 2000 sq ft	\$	(97.61)
Total		\$	1,649.31

Old Invoice Grand Total \$ 37,564.05

Out of Business

	Cottage Food Operation - Class A/Microenterprise Home Kitchen		
16	Operation	\$	362.44
19	Pool/Spa	\$	1,624.00
36	Food Market 2001 to 5999 sq ft/Restaurant 1 to 2000 sq ft	\$	(19.02)
42	Body Art Practitioner	\$	124.00
47	Well Permit - Individual	\$	553.00

Out of Business Total \$ 2,644.42

Grand Total \$ 42,940.87

I hope this helps.

Thank you,

Vanna

Thank you Vanna

Seems like we are writing off a lot for tis year. Are all of 2022's write off legitimate? Or are there some that aren't that old that we may still collect on?

I understood that we weren't including them???

D

Please note that I will be retiring as of December 28, 2022.

Subject: PLEASE REVIEW: Accounts Receivable Write-off (Adjustment) Request

Good afternoon,

Attached is the final accounts receivable report requesting to adjust -\$243,253.22 in Envision Connect and our Accounts Receivable (112200). Included for your review is an invoice detail tab with the related P.E Fee amount. Please note that there is a discrepancy in the amount of \$418.12 between "P.E. Fee" and "Total Due" that is related to our billing system.

Please see below for disclosures:

1. Verizon or unpermitted customers are not included.
2. Change of Ownership and Penalty Reduction Request Form-related invoices are not included.
3. Judgment and Pendency invoices are not included.

The accounting unit will process the adjustments once the request has been approved. The deadline for the accounting team to complete the adjustments in Envision Connect will be March 31, 2023. The adjustments will be submitted with Period 9 schedules due to the Auditor's office around mid-April.

Please let me know if the report and/or memo needs to be modified.

Thank you,

Vanna Kim

Morning Emily,

Thank you for contacting the Department of Environmental Health regarding your hazardous accounts for FA0063572-Riverside Fuel Cell. I have attached a copy of the invoice per your request. Our Department recently went through a change of software and we were unable to generate the invoices for all billing with expiration date of 07/31 or 08/31 but as of today we have been able to do so. There will be no penalties for those accounts since this was an internal issue. We appreciate your patience on this matter.

**** our online portal to make payment is temporarily unavailable****

To make a payment by phone call (888) 722-4234. Please note: Visa, Mastercard, and Discover. A vendor processing fee of 2.37% will be charged for all credit card payment transactions.

To send a payment by mail

Make check payable to: Department of Environmental Health
Mailing address: Environmental Protection & Oversight Division Room 307
P.O. Box 7909, Riverside, CA 92513

Should you need anything else feel free to reach out. Thank you

Lina Gil-Gomez

Emily,

Your invoice should have been sent by the County of Riverside around the 2nd week of June. If you or your accounting office haven't received the invoice, please contact the County of Riverside (dehfiscal@rivco.org) to confirm that the invoice was sent. They recently transitioned to a new database/invoicing system and are still working things out.

As for the inspection, we perform site inspections on a 3-year cycle. You won't have another inspection until 2025. You must submit your HMBP update annually through CERS, which you have already done.

Please feel free to reach out to myself or Inspector Kinser with any additional questions.

Thank you,

Good morning Melissa,

Our facility's Haz Mat Mgmt Permit expired yesterday, 7/31/2024, but we have not seen any renewal invoice or been contacted to conduct an inspection to renew our permit. The permit was last issued on 9/26/23 so does this mean our facility will be inspected within the next two months and the permit is valid until then? Could you please provide any information you may have on this and advise next step?

Thank you,

Emily Tran (She/Her)

Subject: Credit Memos - List of Open Invoices
Attachments: List of Open Invoices That Cannot Be Closed v2.xlsx

Follow Up Flag: Follow up
Flag Status: Completed

Good morning Nick,

As discussed last week, here is a list of open invoices that cannot be closed. These will need to be manually excluded from the Aging Report.

Please note that this list is not definitive, for we will continue to create new ones as work processes require, and new ones will need to be included regularly.

Additionally, some existing credit memos are currently be omitted at this time, for we are still in the process of working on them.

I want to emphasize that this information should not be considered final or complete, since the data are continuously changing.

Thank you,

Subject: RE: Update on Write-Off and PRRF Process for the Aging Report
Attachments: List of Open Invoices That Cannot Be Closed.xlsx

Follow Up Flag: Follow up
Flag Status: Completed

Good morning Nick,

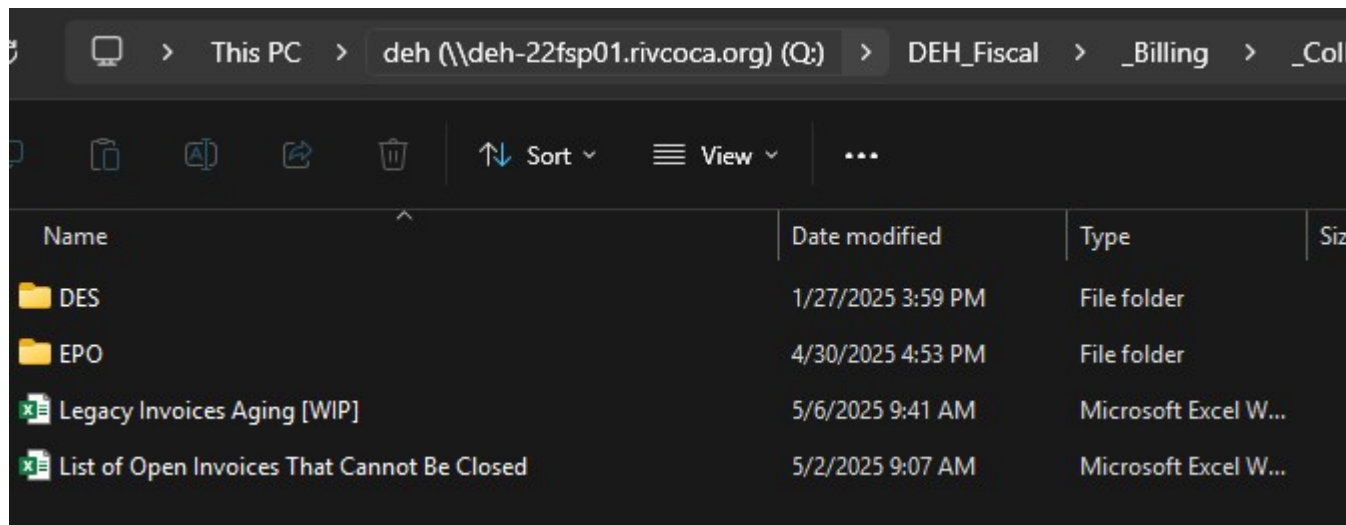

It appears that Windows 11 is not allowing hyperlinks to work properly. Attached is the file, and feel free to navigate this this folder to find it if you wish.

[\\deh-22fsp01.rivcoca.org\deh\DEH_Fiscal_Billing_Collection Logs\](\\deh-22fsp01.rivcoca.org\deh\DEH_Fiscal_Billing_Collection Logs\)

I should add that this file as last updated in May, so newer credit memos wouldn't show on it.

I can provide an updated report, but please note that as we do daily work, more credit memos will be generated. If Albert will exclude existing ones from future reports, removing newly created ones will prove tricky for the mail-merge report.

If I can make a suggestion, Olga and Tania have good ideas on how to approach this issue, and I recommend you give them a chance to voice their points of view during the Tuesday meeting.

Thank you,

Thank you for this, Ramez. It's helpful to know.

You mention a list of open invoices with associated credit memos below. I don't have access to the folder indicated. Can you supply that list? If accurate or complete, it would be a good starting point for Albert, or perhaps work as a QA/QC for his data pulls.

Thanks,
Nick

Subject: FW: Update on Write-Off and PRRF Process for the Aging Report

Good afternoon Nick,

Here is the email that shows when we stopped issuing credit memos and received approval to use different method.

Thank you,

From: Chalaby, Ramez
Sent: Friday, May 2, 2025 5:38 PM
To: Alvarado, Olga <OAlvarad@RIVCO.ORG>; Jaime, Tania <TJaime@RIVCO.ORG>
Cc: Kim, Vanna <VKim@RIVCO.ORG>
Subject: Update on Write-Off and PRRF Process for the Aging Report

Hello Tania and Olga,

Please keep this information internal to our immediate team. We are not circulating this change beyond our group at this time.

As you know, our current process for handling Write-Offs and PRRFs has been to create credit memos to offset open invoices.

Unfortunately, the system does not recognize these invoices as inactive or unpayable, and they remain open indefinitely.

The root problems are that the system treats credit memos as standalone negative invoices without linking them to the originals, and offset invoices remain payable.

This has impacted the Aging Report and has led to issues with both the collection and penalization processes, as invoices that should no longer be billed continue to appear as outstanding.

As this report is shared with the Executive Team, it is critical that we address these discrepancies now before they compound

Following a recent discussion with Vanna, we now have a path forward that should help address this issue more effectively.

Vanna has approved the following method:

For any invoices related to W/Os or PRRFs that we need to close:

- Apply full payment and select Payment Type: **Other**
Using the 'Other' payment type with clear comments will allow us to trace and report these actions transparently

*** Payment
Type:**

- In the **Invoice Comment** field, include a clear explanation of the reason (e.g., Error, PRRF, W/O, Refund) and provide details

Comments:

This applies to current and future transactions, as well as retroactive ones where applicable. However, please note that retroactive changes will affect the Financial Account balances, and will require reversal of the corresponding credit memo lines.

For your reference, here is a list of open invoices and their associated credit memos here:

[Q:\DEH_Fiscal\Billing\Collection Logs\List of Open Invoices That Cannot Be Closed.xlsx](Q:\DEH_Fiscal\Billing\Collection Logs\List of Open Invoices That Cannot Be Closed.xlsx)

This updated process should help us better track and report the correct number and dollar amounts of errors, PRRFs, Refunds, etc.

Payment Reconciliation Report

Total Amount Paid

Posted Date

Location

Invoice Number

12/4/2012

11/12/202

All

All

This is not a change in policy, but a necessary adjustment to ensure system functionality aligns with our operational needs.

I appreciate Vanna's support and flexibility in allowing us to move in this direction.

Let me know if you have any questions.

Thank you,

Olney, Ryan

Hello Tania

Do you have pertinent issues to discuss with Tosin for the Thursday meeting?

So far, you are the only one who can attend.

Please advise if we should keep or cancel the Thursday meeting with Tosin? If we keep, you are in charge of the meeting.

The screenshots below show Tosin's response to your concern. And the attached emails are the ones you copied me when reached out to Tom.

F61– Penalty Script Change Request 01/21

🏠 Updates / 2 | Files | Info Boxes |

Tosin Ogunkeye 11d

These Penalty Script has been updated with the following:

1. When you generate a penalty invoice for an overdue invoice that is more than 91 days old, two penalty invoices are created:

- One for the 61-90 day overdue range
- Another for the 91-120 day overdue range

You must click "Apply Penalty Fees" each time to generate each penalty invoice.

For example, if an invoice was dated October 1, 2024, and you run the script today (February 7), a penalty invoice will be generated for the 91-120 day overdue period.

However, you will need to run the script again to generate the penalty invoice for the 61-90 day overdue period.

2. You can now select the invoice date when applying a penalty fee.

A prompt will appear (see screenshot) asking for the invoice date, which lets you choose the date that should appear on the invoice.

For example, if you generate the penalty script today (February 7) but select February 1 as the invoice date, the invoice will display February 1 as the invoice date.

F61- Penalty Script Change Request 01/21

🏠 Updates / 2 | 📁 Files | 📁 Info Boxes |

Tosin Ogunkeye 11d

Account: AR0134321 (attached) is an example of an invoice that is more than 91days old with 2 invoices

The image shows a screenshot of a web application. The top part is a modal dialog titled "Apply Penalty Fees". It has a light blue header with the text "Invoice Date". Below this is a text input field with the placeholder "MM/DD/YYYY". At the bottom right of the dialog are two buttons: "Confirm" and "Cancel".

Below the dialog is a screenshot of a table titled "Penalty Testing". The table has the following columns: Invoice #, Invoice Date, Account Number, Invoice Amount, Current Invoice Balance, Establishment Name, Date Entered, Due Date, Program, Comments, Penalty Batch, Batch ID, Total, Apply to Batch, and Apply to Total. There are three rows of data. The first row has "AR0134321" circled in red in the "Invoice #", "AR0134321" in the "Account Number", and "100" in the "Total" column. The second row has "100" circled in red in the "Total" column. The third row has "100" circled in red in the "Total" column.

Invoice #	Invoice Date	Account Number	Invoice Amount	Current Invoice Balance	Establishment Name	Date Entered	Due Date	Program	Comments	Penalty Batch	Batch ID	Total	Apply to Batch	Apply to Total
AR0134321	10/10/2024	AR0134321	\$21.00	\$21.00		10/10/2024	10/10/2024		AR0134321 Penalty (aging 91-120 days)	100		100	100	100
AR0134321	10/10/2024	AR0134321	\$21.00	\$21.00		10/10/2024	10/10/2024		AR0134321 Penalty (aging 91-120 days)	100		200		200
AR0134321	10/10/2024	AR0134321	\$21.00	\$21.00	The Green Tech (Data Services)	10/10/2024	10/10/2024	Batch 100		0	100	300	100	100

This update is now ready for testing in the Rivco test. Please let me know if you have any questions. We can also discuss this further during our meeting next week.

Thank you,

Olney, Ryan

Good afternoon Vanna,

I believe that I have the count and dollar amount, but I need to review it in the morning with fresh set of eyes before turning it in.

Here is partial information, in case it is needed today.

March 2025 is complete for:

DES

- Permanent Food Facilities
- Food Cottage
- Recreational Water
- Retail Tobacco

HazMat

- ABSA
- CalArp

- HMBP
- USTs
- CUPA
- Medical Waste
- Solid Waste

ERM

- Body Art Facilities
- Body Art Practitioners
- OWTS

Thank you,

From: Kim, Vanna <VKim@RIVCO.ORG>

Subject: Penalty projections

Hi Ramez,

I was talking with Olga in the hallway and have asked her to prepare a short summary of revenues for us as talking points for the Thursday meeting.

The data that I am looking for are:

1. Programs billed so far (as of to what month) = \$
2. Penalty amount pending to be billed (from what month to month) = approximate \$

I am looking for estimates not exact numbers.

Thank you,

Vanna Kim

Morning Emily,

Thank you for contacting the Department of Environmental Health regarding your hazardous accounts for FA0063572- Riverside Fuel Cell. I have attached a copy of the invoice per your request. Our Department recently went through a change of software and we were unable to generate the invoices for all billing with expiration date of 07/31 or 08/31 but as of today we have been able to do so. There will be no penalties for those accounts since this was an internal issue. We appreciate your patience on this matter.

**** our online portal to make payment is temporarily unavailable ****

To make a payment by phone call (888) 722-4234. Please note: Visa, Mastercard, and Discover. A vendor processing fee of 2.37% will be charged for all credit card payment transactions.

To send a payment by mail

Make check payable to: Department of Environmental Health
Mailing address: Environmental Protection & Oversight Division Room 307
P.O. Box 7909, Riverside, CA 92513

Emily,

Your invoice should have been sent by the County of Riverside around the 2nd week of June. If you or your accounting office haven't received the invoice, please contact the County of Riverside (dehfiscal@rivco.org) to confirm that the invoice was sent. They recently transitioned to a new database/invoicing system and are still working things out.

As for the inspection, we perform site inspections on a 3-year cycle. You won't have another inspection until 2025. You must submit your HMBP update annually through CERS, which you have already done.

Please feel free to reach out to myself or Inspector Kinser with any additional questions.

Good morning Melissa,

Our facility's Haz Mat Mgmt Permit expired yesterday, 7/31/2024, but we have not seen any renewal invoice or been contacted to conduct an inspection to renew our permit. The permit was last issued on 9/26/23 so does this mean our facility will be inspected within the next two months and the permit is valid until then? Could you please provide any information you may have on this and advise next step?

Thank you,

Emily Tran (She/Her)

Good afternoon Vanna,

Can I get a copy of the SAImportReport confirming this year's submission?

I was also contacted by our Public Sector Manager inquiring if parcel **327110014 @ 24320 GUNTHER RD**, could be removed from the list. I was leaving for the day and gave them your email as you were completing the submission to the County. Can you tell me if the parcel was removed?

Thank you,
Candy

Good afternoon,

Twin City Foods, Inc., a Stanwood, WA establishment, is recalling frozen sweet corn and mixed vegetables due to possible *Listeria monocytogenes* contamination.

Product Identification
<u>Not-Ready-To Eat Individually Quick Frozen (IQF) Super Sweet Cut Corn and Mixed Vegetables in retail bags</u> • Brands: Kroger and Signature Select • See attached Product List file

Attached is the **final** list of retailers (Excel file) identified as receiving the recalled products. For additional information, please visit [California Food Recall Information Sheet Twin City Foods, Inc. - Frozen Sweet Corn & Mixed Vegetables \(UPDATED\) 08/22/23](#)

If you choose to perform any **retail site visits** to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,

Mary

Subject: Facility inventory clean up
Attachments: eh_facility_cleanup_pt1.xlsx

Good morning, in the effort to clean up our database before it goes to HealthSpace we are going to set the attached to inactive. All these facilities have OOB in the description, accounts with inactive status, a general program with inactive or no available program, and an inactive permit. With all those flags checked, we can set them to inactive. This will happen at 3:00PM, 3/30/23 unless I hear from you. Sorry they are not divided by program.
Thank you!

Subject: Local Notification - Recall by Abbott

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Abbott, an Abbott Park, IL establishment, is recalling ready-to-feed liquid products for infants and children due to potential for spoilage.

Product Identification

Ready-to-Feed liquid products for infants and children

- **Size/Packaging:** 2 fluid ounce/59 milliliter bottles
- **Brands included:** Similac® Pro-Total Comfort™, Similac® 360 Total Care®, Similac 360 Total Care Sensitive Stage 1, Similac® NeoSure®, Similac Water (Sterilized) and Pedialyte Electrolyte Solution

Attached is an **updated** list of retailers identified as receiving the recalled products. For additional information, please visit [California Food Recall Information Sheet Abbott - Liquid Products for Infants and Children 10/14/22](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Subject: Local Notification - Recall by Lyons Magnus LLC (EXPANDED)

CAUTION: This email originated externally from the Riverside County email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Lyons Magnus LLC, a Fresno, CA establishment is **expanding** its recall of nutritional and beverage products due to possible *Cronobacter sakazakii* and *Clostridium botulinum* contamination.

Product Identification

Nutritional and beverage products, various brands including Lyons, KateFarms, Oatly, and o

See attached Product List

Attached is a **preliminary** list of retailers identified as receiving the recalled products – **updates are in gray shading**. For additional information, please visit [California Food Recall Information Sheet Lyons Magnus LLC \(EXPANDED\) – Various Brands of Nutritional And Beverage Products \(UPDATED\) 08/10/22](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Subject: Local Notification - Recall by Lyons Magnus LLC (EXPANDED)

CAUTION: This email originated externally from the Riverside County email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Lyons Magnus LLC, a Fresno, CA establishment is **expanding** its recall of nutritional and beverage products due to possible *Cronobacter sakazakii* and *Clostridium botulinum* contamination.

Product Identification

Nutritional and beverage products, various brands including Lyons, KateFarms, Oatly, and o

See attached Product List

Attached is a **preliminary** list of retailers identified as receiving the recalled products – **updates are in gray shading**. For additional information, please visit [California Food Recall Information Sheet Lyons Magnus LLC \(EXPANDED\) – Various Brands of Nutritional And Beverage Products \(UPDATED\) 08/10/22](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Mary Buan-Ignacio | [Food Recall](#) Coordinator

Subject: Local Notification - Recall by Bumble Bee Foods, LLC

CAUTION: This email originated externally from the Riverside County email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Bumble Bee Foods, LLC, a San Diego, CA establishment is recalling smoked clams due to the presence of detectable levels of Per- and polyfluoroalkyl substances (PFAS) chemicals.

Product Identification

Bumble Bee Smoked Clams

- **Size/Packaging:** 3.75 cans
- **UPC Label:** 8660075234

Attached is the **complete** list of retailers identified as receiving the recalled products. For additional information, please visit [Bumble Bee Foods, LLC - Smoked Clams 07/06/22 \(ca.gov\)](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Mary Buan-Ignacio | Food Recall Coordinator

Subject: Local Notification - Recall by Bumble Bee Foods, LLC

CAUTION: This email originated externally from the Riverside County email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Bumble Bee Foods, LLC, a San Diego, CA establishment is recalling smoked clams due to the presence of detectable levels of Per- and polyfluoroalkyl substances (PFAS) chemicals.

Product Identification

Bumble Bee Smoked Clams

- **Size/Packaging:** 3.75 cans
- **UPC Label:** 8660075234

Attached is the **complete** list of retailers identified as receiving the recalled products. For additional information, please visit [Bumble Bee Foods, LLC - Smoked Clams 07/06/22 \(ca.gov\)](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Subject: Local Notification - Recall by Skippy Foods, LLC

CAUTION: This email originated externally from the **Riverside County** email system. **DO NOT** click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Skippy Foods, LLC, an Austin, MN establishment, is recalling peanut butter products due to foreign matter contamination – small stainless steel fragments.

Product Identification	Affected Dates
<u>SKIPPY® peanut butter products</u> • SKIPPY® Reduced Fat Creamy Peanut Butter, 40 oz. ○ Item Code: 37600-10520 • SKIPPY® Reduced Fat Creamy Peanut Butter - Club, 2/40 oz. ○ Item Code: 37600-10667 • SKIPPY® Reduced Fat SUPER CHUNK Chunky Peanut Butter, 16.3 oz. ○ Item Code: 37600-10499 • SKIPPY® Creamy Peanut Butter Blended With Plant Protein, 14 oz. ○ Item Code: 37600-88095	Best if Used by: <u>40 oz.</u> MAY0423 and MAY0523 <u>2/40 oz.</u> MAY0523 <u>16.3 oz.</u> MAY0623 and MAY0723 <u>14 oz.</u> MAY1023 (Code Date is located on top of the lid)

Attached is a **preliminary** list of retailers identified as receiving the affected products. For additional information, please visit [Skippy Foods, LLC - Peanut Butter Products \(UPDATED\) 03/30/2022 \(ca.gov\)](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Mary Buan-Ignacio | Food Recall Coordinator

Good morning,

Please conduct several random recall checks in your area and get them back to me by Feb 5. No need to call all. Physical contamination - as if Hot Pockets were not already a hazard! Thank you!

Subject: Local Notification - Recall by Fresh Express

CAUTION: This email originated externally from the **Riverside County** email system.
DO NOT click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Fresh Express, a Salinas, CA establishment, is recalling **expired** Fresh Express Kit Caesar Supreme due to possible *E. coli* STEC O26 contamination.

Product Identification	Affected Dates
<u>Fresh Express Kit Caesar Supreme</u> Size/Packaging: 10.5-oz. UPC: 0 7127930104 4 (located on the reverse side of the package) Production Code: S296	Use By Date: "NOV 08" (located in upper right corner on the front of the package)

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/CDPH%20Document%20Library/FDB/FoodSafetyProgram/FoodRecalls/November%202020/fdbFrFE5n.pdf>

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any **feedback** you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Subject: Local Notification - Hostess Brands expanded recall

Good morning,

Hostess Brands, LLC ("Hostess Brands"), a Lenexa, KS establishment, is expanding the recall of Raspberry Zingers due to possible mold contamination.

Product Identification
Certain <u>Hostess® Raspberry Zingers®</u> See attached Product List

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/CDPH%20Document%20Library/FDB/FoodSafetyProgram/FoodRecalls/August%202020/fdbFrHOSTB5n.pdf>

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Take care,

Mary

Subject: Local Notification (Expanded Recall) - Pita Pal Foods, LP

CAUTION: This email originated externally from the **Riverside County** email system.
DO NOT click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Pita Pal Foods, LP, a Houston, TX establishment, is **expanding** its recall of hummus products due to possible *Listeria* contamination.

Product Identification	Affected Dates
Hummus and dips Click for Product List	Products made between May 15, 2019 through July 11, 2019 See link to "Product List" Date Codes: 122 through 192 (circled in red – click for FDA Product Labels)

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/CDPH%20Document%20Library/FDB/FoodSafetyProgram/FoodRecalls/July%202019/fdbFrPITA3n.pdf>

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Subject: Local Notification (Expanded Recall) - Pita Pal Foods, LP

CAUTION: This email originated externally from the **Riverside County** email system.
DO NOT click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Pita Pal Foods, LP, a Houston, TX establishment, is **expanding** its recall of hummus products due to possible *Listeria* contamination.

Product Identification	Affected Dates
Hummus and dips Click for Product List	Products made between May 15, 2019 through July 11, 2019 See link to "Product List" Date Codes: 122 through 192 (circled in red – click for FDA Product Labels)

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/CDPH%20Document%20Library/FDB/FoodSafetyProgram/FoodRecalls/July%202019/fdbFrPITA3n.pdf>

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Subject: Local Notification- Elevation Foods recall

CAUTION: This email originated externally from the **Riverside County** email system.
DO NOT click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

Elevation Foods, a Knoxville, TN establishment, is recalling various brands of ready-to-eat salads and sandwiches due to a possible *Listeria monocytogenes* contamination.

Product Identification	Affected Dates
Various RTE salads and sandwiches	Produced on June 18, 2019
Click for Product List	See Product List

Attached is the **complete** list of retailers identified as receiving the recalled products. For additional information, please visit <https://www.cdph.ca.gov/Programs/CEH/DFDCS/Pages/FDBPrograms/FoodSafetyProgram/FoodRecalls.aspx>

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Good afternoon,

Abbott, an Abbott Park, IL establishment, is recalling multiple brands of Infant powder formulas due to possible *Cronobacter sakazakii* or *Salmonella* Newport contamination.

Product Identification	Affected Dates
<u>Infant powder formulas, including Similac®, Alimentum® and EleCare®</u> Products have a multidigit number on the bottom of the container: • the first two digits of the code are 22 through 37 • the code on the container contains K8, SH, or Z2	Expiration: April 1, 2022 or later

Consumers can check product codes using the link: Abbott Recall Similac, Alimentum, EleCare Powder Formulas (similacrecall.com)	

Attached is a **preliminary** list of retailers identified as receiving the recalled products. For additional information, please visit [Abbott - Certain Infant Powder Formulas \(UPDATED\) 02/17/22 \(ca.gov\)](#)

If you choose to perform any **retail site visits** in order to conduct recall effectiveness checks within your jurisdiction, we would appreciate receiving any feedback you might offer regarding the effectiveness of the recall.

Thank you,
Mary

Subject: FY-2025-QTR3-42004 DEH RIV113 - Asset Utilization

Hello,

Please review and provide any changes to the Utilization Report per BOS Policy D-2, Quarterly Vehicle Utilization Report. **Please submit any changes and/or corrections by 4/30/2025.**

Step 1 – Review the attached QTRLY Department Utilization Report:

Department Report Links are also available on the Fleet Website: [FY-2025-QTR3-Vehicle-Utilization-Reports](#)

Step 2 – Review and/or Update

- Any vehicles that are under 6,000 miles in a 12-month period should have an exclusion code assigned, please refer to the provided exclusion code list.
 - **At the bottom of this email is an example of how to decipher if an exclusion code is needed.**
- If there are expired exclusion codes already assigned to a vehicle, please reconfirm they are still applicable.

Step 3 – Return Submittal

- Please submit any changes by providing an email, excel or PDF file that includes the vehicle ID along with any changes or new exclusion code(s). **Each vehicle may only have one (1) exclusion code assigned.**

BOS Policy D-2, Quarterly Vehicle Utilization Report.

On a quarterly basis, Fleet Services shall distribute a Vehicle Utilization Report to all departments that utilized vehicles during the reporting period. The report shall include statistics about mileage and the overall utilization of vehicles. Departments must take steps to correct the underutilization of vehicles and address recommendations to retire a vehicle(s) within 30 days of the issuance of the report. Working in close collaboration with departments, Fleet Services will evaluate special circumstances on a case-by-case basis to determine if the department is exempt from taking corrective action for underutilized vehicles based on specific department operational needs. These exemption justifications will be clearly documented with an exemption expiration review date noted and will be available for review upon request. Departments may appeal Fleet's decisions to deny exemption to the County Executive Office.

NOTE: New vehicles under 12 months will not need to be reviewed as there is not enough data to decipher utilization history.

Below, please refer to a diagram below to help you quickly determine if an exclusion code is needed or will need to be re-verified:

RIV113 - Asset Utilization

Executed: 1/8/2024 3:35:06 PM
Annual Usage Threshold: 6000 miles
Department:
Including Assets With Status: Active
Include Asstets with Utilization Exemption: False
12-Month Period Ending: 12/2023

Department:	Unit #	12/2023	37332	Meter Import	376	Yes
Vehicles in Report:	Status	11/2023	36956	Meter Import	242	Yes
5	A	10/2023	36714	Meter Import	101	Yes
Active Vehicles:	Year	9/2023	36613	Meter Import	169	Yes
5	2015	8/2023	36444	Meter Import	202	Yes
Active Vehicles < 1 Year Old:	Make & Model	7/2023	36242	Meter Import	260	Yes
0	FORD FUSION HYBRID	6/2023	35982	Meter Import	128	Yes
Active Vehicles Underutilized:	Billing Dept-Fund-Acct	5/2023	35854	Meter Import	807	No
2		4/2023	35047	Meter Import	439	Yes
% Active Vehicles Underutilized:	Utilization Exemption	3/2023	34608	Meter Import	326	Yes
40.00%	E09 - Occasional Use, but a vehicle is mandatory - 1 Year (Exp: 10/1/2023)	2/2023	34282	Meter Import	350	Yes
		1/2023	33932	Meter Import	42	Yes
			Asset Total:		3442	Yes

If a Utilization Exemption is present and expired, this vehicle will need to be reviewed and an updated Utilization code will need to be provided or re-verified.

Asset Total Usage in RED = Vehicle is Under Utilized. Please provide the appropriate Exclusion Code from the Provided list.

If there are changes to email distribution for your department to whom should be included on this email, please let me know.

If you should have any questions, please feel to contact me.

Thank you,

Teresa Chavez

Attachments: 42004 DEH RIV113 - Asset Utilization.pdf; Uu Exclusion Codes_V2_1.10.23.pdf

Hello,

Please review and provide any changes to the Utilization Report per BOS Policy D-2, Quarterly Vehicle Utilization Report. **Please submit any changes and/or correction by 10/25/2024.**

Step 1 – Review the attached QTRLY Department Utilization Report:

- Department Report Links are also available on the Fleet Website: [FY-2025-QTR1-Vehicle-Utilization-Reports](#)

Step 2 – Review and/or Update

- Any vehicles that are under 6,000 miles in a 12-month period should have an exclusion code assigned, please refer to the provided exclusion code list.
 - **At the bottom of this email is an example of how to decipher if an exclusion code is needed.**
- If there are expired exclusion codes already assigned to a vehicle, please reconfirm they are still applicable.

Step 3 – Return Submittal

- Please submit any changes by providing an email, excel or PDF file that includes the vehicle ID along with any changes or new exclusion code(s). **Each vehicle may only have one (1) exclusion code assigned.**

BOS Policy D-2, Quarterly Vehicle Utilization Report.

On a quarterly basis, Fleet Services shall distribute a Vehicle Utilization Report to all departments that utilized vehicles during the reporting period. The report shall include statistics about mileage and the overall utilization of vehicles. Departments must take steps to correct the underutilization of vehicles and address recommendations to retire a vehicle(s) within 30 days of the issuance of the report. Working in close collaboration with departments, Fleet Services will evaluate special circumstances on a case-by-case basis to determine if the department is exempt from taking corrective action for underutilized vehicles based on specific department operational needs. These exemption justifications will be clearly documented with an exemption expiration review date noted and will be available for review upon request. Departments may appeal Fleet's decisions to deny exemption to the County Executive Office.

NOTE: New vehicles under 12 months will not need to be reviewed as there is not enough data to decipher utilization history.

Below, please refer to a diagram below to help you quickly determine if an exclusion code is needed or will need to be re-verified:

RIV113 - Asset Utilization

Executed: 1/8/2024 3:35:06 PM
 Annual Usage Threshold: 6000 miles
 Department:
 Including Assets With Status: Active
 Include Assets with Utilization Exemption: False
 12-Month Period Ending: 12/2023

Department:	Unit #	12/2023	37332	Meter Import	376	Yes
Vehicles in Report:	Status	11/2023	36956	Meter Import	242	Yes
5	A	10/2023	36714	Meter Import	101	Yes
Active Vehicles:	Year	9/2023	36613	Meter Import	169	Yes
5	2015	8/2023	36444	Meter Import	202	Yes
Active Vehicles < 1 Year Old:	Make & Model	7/2023	36242	Meter Import	260	Yes
0	FORD FUSION HYBRID	6/2023	35982	Meter Import	128	Yes
Active Vehicles Underutilized:	Billing Dept-Fund-Acct	5/2023	35854	Meter Import	807	No
2	Utilization Exemption	4/2023	35047	Meter Import	439	Yes
% Active Vehicles Underutilized:	E09 - Occasional Use, but a vehicle is	3/2023	34608	Meter Import	326	Yes
40.00%	mandatory - 1 Year	2/2023	34282	Meter Import	350	Yes
	(Exp: 10/1/2023)	1/2023	33932	Meter Import	42	Yes
				Asset Total:	3442	Yes

If a Utilization Exemption is present and expired, this vehicle will need to be reviewed and an updated Utilization code will need to be provided or re-verified.

Asset Total Usage in RED = Vehicle is Under Utilized. Please provide the appropriate Exclusion Code from the Provided list.

If there are changes to email distribution for your department to whom should be included on this email, please let me know.

If you should have any questions, please feel to contact me.

Thank you,

Teresa Chavez

Darwin and Fred, attached is a status report with breakdowns as we discussed.

Please let me know about scheduling for me to provide the read out for your Board members at next week's meeting as we discussed. I do have a PowerPoint I can speak from, which does contain business proprietary and competitive information. I'd like to ensure only government agency staff will be present, as there are sensitivities sharing this information with private parties.

Hi Brittany,

Please see attached photos for all repairs requested in the corrective action as well as the attached data sheet for the filters at the well. I am still waiting for the PS code for well 2 so I can review the portal and bring the well up to date with required testing.

Please let us know if anything else.

Hi Yesenia.....I think this address the info you are looking for, attached is the customer list.
Just want to clarify that this is not every address in the County area we service, there may be hundreds out there that have never set up any service with us or may be exempted etc.....
Please let me know if you need anything further.
Have a great weekend!

Chris,

I believe we were going to assist with sorting it out later when the notices go out so only the current owner receives it that's why we are requesting the information ahead of time as we are aware the sorting will take some effort. Management wants the notices to be already drafted so when the new rates are accepted all we need to do is add them on the notices and I believe they need the current rate for comparison.

Hope that helps to clarify and we appreciate your assistance.

Subject: RE: Prop 218 Requested Info

Hi Yesenia.....I have a couple of comments/questions on this.

We are currently assessing our customer records. Right now we have current accounts that are open and easy to account for, but since we currently stop service for non-payment (until the new agreement is in place) our system will not be accurate in accounting for all of those accounts. If we try to pull those closed accounts, it will pull all previous owners which could be dozens more accounts on the same address, and still could miss other residents who may not have service with us currently.

We are attempting to clean that up but it might be better to pull all addresses in our area from the County Assessor's office as reaching all property owners/tenants regarding the Notice is paramount, we would then give you our full rate sheets (residential, commercial etc....) so all who reside in the County area will receive the Notice.

We will try to get all accounts (open or closed) as accurate as possible and also send a list of addresses in the County area from the County Assessor's office.

It might be a good idea to hop on a call once we pull our lists together so we are not missing anything, the Prop. 218 process is a first for most in the Coachella Valley.

Thank you

Thank you

Hi Chris,

We need the current rate, those also have to be published. We can publish the updated rates after those get finalized. The notices would go to the service address and also to the owner/mailling address. We technically have to cover the owner of the parcel and any tenants.

Thanks,

Yesenia "Jenny" Gonzalez

Hi Yesenia.....We can certainly provide the information requested and also help with sending out those notices but a question on the "Fee" or rates (last bullet point), has the County completed evaluating our new rates, it would also include this year's CPI/Tip Fee (come July 1st 2024) increase added to that. I know in our latest meting with all haulers, we were told that the county would be sending their evaluation of our rates back to us along with a redline draft of the agreement. We just want to be sure what the full process of Prop. 218 will be with updated, accurate rates in the notice. Also.....will the notice be going to customers billing addresses or service addresses? County Council or Attorney should have their interpretation of this.

Thank you
